Race And Politics In The Dominican Republic:

Race and Politics in the Dominican Republic Ernesto Sagás, 2000 An examination of the historical development and political use of antihaitianismo a set of racist and xenophobic attitudes prevalent today in the Dominican Republic These portray Dominican people as white Catholics while Haitians are viewed as spirit worshipping black Africans **Political Authoritarianism in the Dominican Republic** C. Krohn-Hansen, 2016-01-23 What is authoritarian rule and is it best studied Using the Dominican Republic this book investigates new methods of analysis arguing that it should be imperative to approach authoritarian histories like other histories on the basis of detailed investigations of power relationships everyday practices and meanings **Comparative Racial Politics in Latin America** Kwame Dixon, Ollie A. Johnson III, 2018-09-04 Latin America has a rich and complex social history marked by slavery colonialism dictatorships rebellions social movements and revolutions Comparative Racial Politics in Latin America explores the dynamic interplay between racial politics and hegemonic power in the region It investigates the fluid intersection of social power and racial politics and their impact on the region s histories politics identities and cultures Organized thematically with in depth country case studies and a historical overview of Afro Latin politics the volume provides a range of perspectives on Black politics and cutting edge analyses of Afro descendant peoples in the region Regional coverage includes Argentina Brazil Colombia Cuba the Dominican Republic Ecuador Haiti and more Topics discussed include Afro Civil Society antidiscrimination criminal law legal sanctions racial identity racial inequality and labor markets recent Black electoral participation Black feminism thought and praxis comparative Afro women social movements the intersection of gender race and class immigration and migration and citizenship and the struggle for human rights Recognized experts in different disciplinary fields address the depth and complexity of these issues Comparative Racial Politics in Latin America contributes to and builds on the study of Black politics in Latin America *Coloring the Nation* David Howard, 2001 This volume explores the significance of racial theorizing in Dominican society and its manifestation in everyday life The author examines how ideas of skin colour and racial identity influence a wide spectrum of Dominicans in how they view themselves and their Haitian neighbours *Race, Ideology, and the Decline of Caribbean Marxism* Anthony P. Maingot, 2015-08-25 In this book Anthony Maingot examines the contemporary intellectual social economic and cultural trajectories of Caribbean nations in light of the challenges the region as a whole has faced in the postcolonial era By focusing on changes since the 1990s in the context of intellectual roots and movements of the past this manuscript helps define the future course of studies in the field with regard to an empirically valid coherent assessment of a complex region **Race Migrations** Wendy D Roth, 2023-05-25 Anyone who believes that the American racial structure is characterized by unmovable white black boundaries should read this book Mich le Lamont Harvard University author of *The Dignity of Working Men Morality and the Boundaries of Race Class and Immigration* In this groundbreaking study of Puerto Rican and Dominican migration to the United States Wendy D Roth explores the influence of

migration on changing cultural conceptions of race for the newcomers for their host society and for those who remain in the countries left behind Just as migrants can gain new language proficiencies they can pick up new understandings of race But adopting an American idea about race does not mean abandoning earlier ideas New racial schemas transfer across borders and cultures spread between sending and host countries Behind many current debates on immigration is the question of how Latinos will integrate and where they fit into the US racial structure Race Migrations shows that these migrants increasingly see themselves as a Latino racial group Ultimately Roth shows that several systems of racial classification and stratification co exist in each place in the minds of individuals and in their shared cultural understandings of how race works Superb transcends the existing literature on migration and race Michael Omi University of California Berkeley co author of Racial Formation in the United States Provides important clarifications regarding the nature of racial orders in the United States and the Hispanic Caribbean Mosi Adesina Ifatunji Social Forces Rich with insights Richard Alba The Graduate Center CUNY author of Blurring the Color Line Innovative ethnographic fieldwork Recommended E Hu DeHart Choice Insightful Edward Telles Princeton University author of Race in Another America A transformative book Clara E Rodriguez Journal of American Studies

Repositioning Race Sandra L. Barnes, Zandria F. Robinson, Earl Wright II, 2014-04-10 In Repositioning Race leading African American sociologists assess the current state of race theory racial discrimination and research on race in order to chart a path toward a more engaged public scholarship They contemplate not only the paradoxes of Black freedom but also the paradoxes of equality and progress for the progeny of the civil rights generation in the wake of the election of the first African American US president Despite the proliferation of ideas about a postracial society the volume highlights the ways that racial discrimination persists in both the United States and the African Diaspora in the Global South allowing for unprecedented African American progress in the midst of continuing African American marginalization

Race, Gender, and Citizenship in the African Diaspora Manoucheka Celeste, 2016-07-01 Winner of the National Communication Association's 2018 Diamond Anniversary Book Award With the exception of slave narratives there are few stories of black international migration in US news and popular culture This book is interested in stratified immigrant experiences diverse black experiences and the intersection of black and immigrant identities Citizenship as it is commonly understood today in the public sphere is a legal issue yet scholars have done much to move beyond this popular view and situate citizenship in the context of economic social and political positioning The book shows that citizenship in all of its forms is often rhetorically representationally and legally negated by blackness and considers the ways that blackness and representations of blackness impact one's ability to travel across national and social borders and become a citizen This book is a story of citizenship and the ways that race gender and class shape national belonging with Haiti Cuba and the United States as the primary sites of examination

Racial Politics in Post-Revolutionary Cuba Mark Q. Sawyer, 2005-11-28 This book analyzes the triumphs and failures of the Castro regime in the area of race relations It places the Cuban revolution in a comparative and

international framework and challenges arguments that the regime eliminated racial inequality or that it was profoundly racist Through interviews historical materials and survey research it provides a balanced view The book maintains that Cuba has not been a racial democracy as some have argued However it also argues that Cuba has done more than any other society to eliminate racial inequality The contemporary outlook of the book demonstrates how much of Cuban racial ideology was unchanged by the revolution Thus the current implementation of market reforms and in particular tourism has exacerbated racial inequalities Finally it holds that despite these shortcomings the regime remains popular among blacks because they perceive their alternatives of the US and the Miami Exile community to be far worse

Routledge Handbook of Latin American Politics Peter Kingstone, Deborah J. Yashar, 2013-03-05 Latin America has been one of the critical areas in the study of comparative politics The region s experiments with installing and deepening democracy and promoting alternative modes of economic development have generated intriguing and enduring empirical puzzles In turn Latin America s challenges continue to spawn original and vital work on central questions in comparative politics about the origins of democracy about the relationship between state and society about the nature of citizenship about the balance between state and market The richness and diversity of the study of Latin American politics makes it hard to stay abreast of the developments in the many sub literatures of the field The Routledge Handbook of Latin American Politics offers an intellectually rigorous overview of the state of the field and a thoughtful guide to the direction of future scholarship Kingstone and Yashar bring together the leading figures in the study of Latin America to present extensive empirical coverage new original research and a cutting edge examination of the central areas of inquiry in the region

The New Politics of Race Howard Winant, 2004 The New Politics of Race brings together Winant s new and previously published essays to form a comprehensive picture of the origins and nature of the complex racial politics that engulf us today

Gender, Race and Religion Martin Bulmer, John Solomos, 2014-01-02 Gender Race and Religion brings together a selection of original papers published in Ethnic and Racial Studies that address the intersections between gender relations race and religion in our contemporary environment Chapters address both theoretical and empirical aspects of this phenomenon and although written from the perspective of quite different national social and political situations they are linked by a common concern to analyze the interface between gender and other situated social relationships from both a conceptual and a policy angle These are issues that have been the subject of intense scholarly research and analysis in recent years as well as forming part of public debates about the significance of gender race and religion as sites of identity formation and mobilization in our changing global environment The substantive chapters bring together insights from both theoretical reflection and empirical research in order to investigate particular facets of these questions Gender Race and Religion addresses issues that are at the heart of contemporary scholarly debates in the field of race and ethnic studies and engages with important questions in policy and public debates This book was originally published as a special issue of Ethnic and Racial Studies
