Race and Racism British Sociological Association, 1970 Sociology non Aboriginal material **Power, Racism and Privilege** William J. Wilson, 1976 From Simon Schuster Power Racism and Privilege is William J Wilson s exploration of race relations in theoretical and sociohistorical perspectives As described by Contemporary Sociology Power Racism and Privilege is a useful work in which history theory and comparative analysis are uniquely brought together to provide a provocative application of theory to empirical materials in the are of race relations *The Oxford Handbook of Sociology and Organization Studies* Paul S. Adler, 2009 Organizations are a defining feature of the modern world and the study of organizations Organization Studies has become well established in both sociology departments and professional schools most notably business and management schools Organization Studies has long drawn inspiration from foundational work in sociology The sociological lens affords depth of insight into the technological economic cultural and political forces that shape organizations from both within and without In particular classical works in sociology have long energized organizational research primarily by suggesting ways of making sense of the ever accelerating pace of social change In recent decades however the field has lost interest in these sociology classics This trend reflects and reinforces an increasingly academic focus of contempory Organization Studies Not only does this trend weaken Organization Studies engagement with the big social issues of our time but it isolates the field from the broader field of the social sciences The aim of this Handbook is to re assert the importance of classical sociology to the future of Organization Studies Alongside several thematic chapters the volume includes chapters on each of nearly two dozen major European and American theorists each of these chapter addressing a the ideas and their context b the impact of these ideas on the field of Organization Studies and c the potential future research these ideas might inspire The goal is not reverential exegesis but rather to examine how the classics can energize organizational research This wide ranging Handbook with contributions from leading American and European scholars will be a vital informative and stimulating resource for anybody undertaking research in teaching or interested in learning more about Organization Studies today About the Series Oxford Handbooks in Business Management bring together the world s leading scholars on the subject to discuss current research and the latest thinking in a range of interrelated topics including Strategy Organizational Behavior Public Management International Business and many others Containing completely new essays with extensive referencing to further reading and key ideas the volumes in hardback or paperback serve as both a thorough introduction to a topic and a useful desk reference for scholars and advanced students alike *Racism* Albert J. Wheeler, 2005 Of all mankind s vices racism is one of the most pervasive and stubborn Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul This bibliography brings together the literature **A Critical Cultural Sociological Exploration of Attitudes toward Migration in Czechia** Bernadette

Nadya Jaworsky,Radka Klvanová,Alica Synek Rétiová,Ivana Rapoš Božic,Jan Kotýnek Krotký,2023-07-10 A Critical Cultural Sociological Exploration of Attitudes toward Migration in Czechia What Lies Beneath the Fear of the Thirteenth Migrant qualitatively deciphers what lies beneath the fears about the imaginary thirteenth migrant and explores how individuals make sense of migration in nontraditional destination countries utilizing critical cultural sociological methods to explore the deep meaning making processes that inform migration attitudes *The Routledge Handbook of Australian Indigenous Peoples and Futures* Bronwyn Carlson,Madi Day,Sandy O'Sullivan,Tristan Kennedy,2023-09-19 Providing an international reference work written solely by Aboriginal and Torres Strait Islander authors this book offers a powerful overview of emergent and topical research in the field of global Indigenous studies It addresses current concerns of Australian Indigenous peoples of today and explores opportunities to develop and support the development of Indigenous resilience and solidarity to create a fairer safer more inclusive future Divided into three sections this book explores What futures for Aboriginal and or Torres Strait Islander peoples might look like and how institutions structures and systems can be transformed to such a future The complexity of Aboriginal and Torres Strait Island life and identity and the possibilities for Australian Indigenous futures and The many and varied ways in which Aboriginal and Torres Strait Islander peoples use technology and how it is transforming their lives This book documents a turning point in global Indigenous history the disintermediation of Indigenous voices and the promotion of opportunities for Indigenous peoples to map their own futures It is a valuable resource for students and scholars of Indigenous studies as well as gender and sexuality studies education studies ethnicity and identity studies and decolonising development studies *The Psychic Life of Racism in Gay Men's Communities* Damien W. Riggs,2017-12-06 The Psychic Life of Racism in Gay Men s Communities engages in the necessarily complex task of mapping out the operations of racialized desire as it circulates among gay men In exploring such desire the contributors to this collection consider the intersections of privilege and marginalization in the context of gay men s lives and in so doing argue that as much as experiences of discrimination on the basis of sexuality are shared among many gay men experiences of discrimination within gay communities are equally as common Focusing specifically on racialization the contributors offer insight as to how hierarchies inequalities and practices of exclusion serve to bolster the central position accorded to certain groups of gay men at the expense of other groups Considering how racial desire operates within gay communities allows the contributors to connect contemporary struggles for inclusion and recognition with ongoing histories of marginalization and exclusion The Psychic Life of Racism in Gay Men s Communities is an important intervention that disputes the claim that gay communities are primarily organized around acceptance and homogeneity and instead demonstrates the considerable diversity and ongoing tensions that mark gay men s relationships with one another
