A State-by-State History of Race and Racism in the United States Patricia Reid-Merritt, 2018-12-07 Providing chronologies of important events historical narratives from the first settlement to the present and biographies of major figures this work offers readers an unseen look at the history of racism from the perspective of individual states From the initial impact of European settlement on indigenous populations to the racial divides caused by immigration and police shootings in the 21st century each American state has imposed some form of racial restriction on its residents The United States proclaims a belief in freedom and justice for all but members of various minority racial groups have often faced a different reality as seen in such examples as the forcible dispossession of indigenous peoples during the Trail of Tears Jim Crow laws crushing discrimination of blacks and the manifest unfairness of the Chinese Exclusion Act Including the District of Columbia the 51 entries in these two volumes cover the state specific histories of all of the major minority and immigrant groups in the United States including African Americans Hispanics Asian Americans and Native Americans Every state has had a unique experience in attempting to build a community comprising multiple racial groups and the chronologies narratives and biographies that compose the entries in this collection explore the consequences of racism from states perspectives revealing distinct new insights into their respective racial histories *History of the Negro Race in America*

A Cultural History of Race in the Renaissance and Early Modern Age Kimberly Ann Coles, Dorothy Kim, 2023-06-01 The past is always an interpretive act from the lens of the present Through the lens of critical race theory the essays collected here explore new analytical models theoretical frameworks and methodological approaches in attempting to reimagine the European Renaissance and early modern periods in terms of global expansion awareness and participation Centering race in these periods requires that we acknowledge the people against whom social hierarchies and differential treatment were directed This collection takes Europe as its focus but White Europeans are not centred in it and the experiences of Black Africans Asians Jews and Muslims are not relegated to the margins of a shared history Situating Europe within a global context forces the reconsideration of the violence that attends the interaction of peoples both across cultures and enmeshed within them The less we are attentive to the cultural interactions cross cultural migrations and global dimensions of the late medieval and early modern periods the less we are forced to recognize the violence intolerance power struggles and enforced suppressions that attend them *God, Race, and History* Matt R. Jantzen, 2021-02-05 In crafting racial visions of the modern world European thinkers appropriated the Christian doctrine of providence constructing the idea of European humanity's rule over the globe on the model of God's rule over the universe As a powerful ordering theory of the relationship between God and creation time and space self and other the doctrine served as an intellectual framework for the theorization of whiteness as the male European subject replaced Jesus Christ as the human being at the center of world history Through an analysis of the work of G W F Hegel Karl Barth and

James H Cone *God Race and History* examines this subversion of the Christian doctrine of providence as well as subsequent attempts within modern Protestant theology to liberate the doctrine from its captivity to whiteness It then develops a constructive political theology of providence in conversation with Delores S Williams and M Shawn Copeland discerning Jesus Christ at work through the Holy Spirit in the struggles of ordinary overlooked and oppressed human creatures to survive and to carve out a flourishing life for themselves their communities and their world

Race Or Ethnicity? Jorge J. E. Gracia, 2007 What is race What is ethnicity Should we think of them as identities Can they be effectively individuated How are they related How do the relations between them influence pressing issues concerned with social identity gender racism assimilation exploitation justice the law and public policy And how are the answers to these questions affected by the Black and Latino experience in the United States From the Preface This collection of new essays explores the relation between race and ethnicity and its social and political implications Although much work has been done on the philosophy of race in the past century in the United States the concept of ethnicity has only recently awoken the interest of American philosophers and the relations between race and ethnicity remain largely unexamined The discussion is divided into two parts dealing on the one hand with the nature and the relation between race and ethnicity and on the other with the social consequences of the complex relations between them Part I explores in particular the debated topic of racial and ethnic identities Does it make sense to speak of racial and ethnic identities and especially of black and Latino identities And if it does make sense how should these identities be conceptualized and how are they related to gender Part II examines how race and ethnicity have influenced the lot of some social groups in significant ways How do racially defined institutions deal with racial assimilation How do different conceptions of race and ethnicity influence public policy and various forms of racism How can exploited racial and ethnic groups be effectively recognized And what is the role of affect in social justice as dispensed by the courts

A Brief History of the Human Race Michael Cook, 2003 Why has human history been crowded into the last few thousand years Why has it happened at all Could it have happened in a radically different way What should we make of the disproportionate role of the West in shaping the world we currently live in This witty intelligent hopscotch through human history addresses these questions and more Michael Cook sifts the human career on earth for the most telling nuggets and then uses them to elucidate the whole From the calendars of Mesoamerica and the temple courtesans of medieval India to the intricacies of marriage among an aboriginal Australian tribe Cook explains the sometimes eccentric variety in human cultural expression He guides us from the prehistoric origins of human history across the globe through the increasing unification of the world first by Muslims and then by European Christians in the modern period illuminating the contingencies that have governed broad historical change A smart literate survey of human life from paleolithic times until 9 11 Edward Rothstein The New York Times

What Blood Won't Tell Ariela J. Gross,2008-10-31 Is race something we know when we see it In 1857 Alexina Morrison a slave in Louisiana ran away from her master and surrendered herself to the parish jail for protection Blue eyed and blond Morrison successfully convinced white society that she was one of them When she sued for her freedom witnesses assured the jury that she was white and that they would have known if she had a drop of African blood Morrison s court trial and many others over the last 150 years involved high stakes freedom property and civil rights And they all turned on the question of racial identity Over the past two centuries individuals and groups among them Mexican Americans Indians Asian immigrants and Melungeons have fought to establish their whiteness in order to lay claim to full citizenship in local

courtrooms administrative and legislative hearings and the U S Supreme Court Like Morrison s case these trials have often turned less on legal definitions of race as percentages of blood or ancestry than on the way people presented themselves to society and demonstrated their moral and civic character Unearthing the legal history of racial identity Ariela Gross s book examines the paradoxical and often circular relationship of race and the perceived capacity for citizenship in American society This book reminds us that the imaginary connection between racial identity and fitness for citizenship remains potent today and continues to impede racial justice and equality
