*The Biopolitics of Race* Sokthan Yeng, 2013-11-11 Many political figures insist that their anti immigration sentiments have nothing to do with race and racism Americans seem largely unconvinced which is why politicians must protest so loudly and often In order to deflect accusations of racism public figures evoke the neo liberal principle that calls for protection of state health and resources Yet contemporary philosophers such as Hanna Arendt Michel Foucault and Giorgio Agamben argue that neo liberal ideology is racist Sokthan Yeng applies their analysis to the debate over immigration policies to show that neo liberalism not only recodes traditional racist rhetoric but also expands systemic racism Politicians can say that their anti immigration policies are meant to protect the nation s economy and strength It is no coincidence however that the populations most affected by these regulations are ethnic and cultural minorities such as Mexican and Muslim immigrants The analysis presented in *The Biopolitics of Race* will be valuable to philosophers and other scholars or students interested in critical race theory feminism and queer theory It also has implications for anyone working in public health bioethics or migration studies

Gracia, 2007 What is race What is ethnicity Should we think of them as identities Can they be effectively individuated How are they related How do the relations between them influence pressing issues concerned with social identity gender racism assimilation exploitation justice the law and public policy And how are the answers to these questions affected by the Black and Latino experience in the United States From the Preface This collection of new essays explores the relation between race and ethnicity and its social and political implications Although much work has been done on the philosophy of race in the past century in the United States the concept of ethnicity has only recently awoken the interest of American philosophers and the relations between race and ethnicity remain largely unexamined The discussion is divided into two parts dealing on the one hand with the nature and the relation between race and ethnicity and on the other with the social consequences of the complex relations between them Part I explores in particular the debated topic of racial and ethnic identities Does it make sense to speak of racial and ethnic identities and especially of black and Latino identities And if it does make sense how should these identities be conceptualized and how are they related to gender Part II examines how race and ethnicity have influenced the lot of some social groups in significant ways How do racially defined institutions deal with racial assimilation How do different conceptions of race and ethnicity influence public policy and various forms of racism How can exploited racial and ethnic groups be effectively recognized And what is the role of affect in social justice as dispensed by the courts

Seneca,2003-01-01 For four years early in the last century the Fairmount Park Motor Races were run on an eight mile course in Philadelphia s West Fairmount Park They drew half a million spectators the first year but surprisingly they have been overlooked as part of automobile racing history and as part of the history of Philadelphia In contrast to other racing events such as the Vanderbilt Cup there were never any serious injuries and not a single death but after four years of spectacular racing the event was banned with safety concerns cited Opening with a brief look at automobile racing prior to 1908 the book covers the events leading up to the first race It discusses the proposal to have a race in Fairmount Park and the reasons why Philadelphia and the park in particular was such an unlikely place Both the on track action of the races and the off track events that affected them are described Dr J William White s successful crusade following the 1911 outing to stop the races is examined as are attempts to revive the race in the following six years including Philadelphia s attempt to compete with Indianapolis by constructing a two mile oval speedway and the city s eventual exit from automobile racing     **Immigrants in Industries** United States. **Whiteness Interrupted** Marcus Bell,2021-06-28 In *Whiteness Interrupted* Marcus Bell presents a revealing portrait of white teachers in majority black schools in which he examines the limitations of understandings of how white racial identity is formed Through in depth interviews with dozens of white teachers from a racially segregated urban school district in Upstate New York Bell outlines how whiteness is constructed based on localized interactions and takes a different form in predominantly black spaces He finds that in response to racial stress in a difficult teaching environment white teachers conceptualized whiteness as a stigmatized category predicated on white victimization When discussing race outside majority black spaces Bell s subjects characterized American society as postracial in which race seldom affects outcomes Conversely in discussing their experiences within predominantly black spaces they rejected the idea of white privilege often angrily and instead focused on what they saw as the racial privilege of blackness Throughout Bell underscores the significance of white victimization narratives in black spaces and their repercussions as the United States becomes a majority minority society
