Political Languages of Race and the Politics of Exclusion Andy R. The Unfinished Politics of Race Les Back, Michael Keith, Kalbir Shukra, John Solomos, 2022-12-01 The Unfinished Politics of Race argues that the past few decades have seen important transformations in the politics of race Contending that existing accounts have focused narrowly on the mainstream political sphere this study argues that there is a need to explore the role of race more widely By exploring the mainstream as well as transitional and alternative spheres of political mobilisation the authors stress the need to link the analysis of both local and national processes in order to make sense of the changing contours of racialised politics The underlying concern of this study is to outline both a theoretical frame for an analysis of racial politics and detailed empirical accounts of different arenas of political mobilisation By exploring the unfinished politics of race this study provides a timely reminder that the position of racial and ethnic minorities in political institutions remains deeply contested

Hansen, 2000-06-01 In this contentious and ground breaking study the author draws on extensive archival research to provide a new account of the transformation of the United Kingdom into a multicultural society through an analysis of the evolution of immigration and citizenship policy since 1945 Against the prevailing academic orthodoxy he argues that British immigration policy was not racist but both rational and liberal In this ground breaking book the author draws extensively on archival material and theoretical advances in the social science literature *Citizenship and Immigration in Post war Britain*

examines the transformation since 1945 of the UK from a homogeneous into a multicultural society Rejecting a dominant strain of sociological and historical inquiry emphasizing state racism Hansen argues that politicians and civil servants were overall liberal relative to the public to which they owed their office and that they pursued policies that were rational for any liberal democratic politician He explains the trajectory of British migration and nationality policy its exceptional liberality in the 1950s its restrictiveness after then and its tortured and seemingly racist definition of citizenship The combined effect of a 1948 imperial definition of citizenship adopted independently of immigration and a primary commitment to migration from the Old Dominions locked British politicians into a series of policy choices resulting in a migration and nationality regime that was not racist in intention but was racist in effect In the context of a liberal elite and an illiberal public Britain's current restrictive migration policies result not from the failing of its policy makers but from those of its institutions
