the center of educational praxis Many countries in Latin America like in other continents are developing new alternatives for the reconstruction of social projects these emerging sources of hope are the central focus of this book Major historical change always starts with people s social movement Democracy can be one of the best political and social systems in the world but for it to work entails the sustainable participation of citizens Above all it requires that people be informed and critically educated since the quality of democracy depends on quality of education There are 2 kinds of power money and people If people exercise their agency they can be more powerful than money There are some organizing principles of social movements as don t do for others what they should do for themselves Saul Alinsky wrote Rules for Radicals A pragmatic primer for realistic radicals Mary Rogers Cold Anger A story of faith and power politics Michael Gecan Going Public An organizer s guide to citizen action and Ernesto Cortez s Industrial Area Foundation are all great sources for organized activism that do work I put some of these principles to the test and they produced positive results I was a founder and president of a union at my university and I lived my whole life as an activist and learned that we can do more together than alone Now we also have a new digital war with the Cambridge Analytica and Breitbart s fake news manipulation however we also have social justice hacktivism to counter act it as well as other democratic social media venues that critical thinkers and activist use The chapters in this book demonstrate the importance of widening and diversifying social movements at the same time emphasizes the need to build cohesive alliances among all the different fronts What some people think is impossible can become a transformed reality for those who dare attempt changing the world as global citizens
