Nación y movimiento en América Latina, 2005 Este libro es un intento por mostrar los vasos comunicantes entre política y cultura los procesos culturales y subjetivos que se desatan con los movimientos sociales poblacionales y redefinen las fronteras de los territorios la nación la política lo político las identidades Tanto los espacios como las tecnologías son reapropiados por los excluidos Todo ello provocado por los procesos de exclusión del modelo dominante de globalización genera dimensiones incluyentes resistentes y solidarias que enfrenta y se oponen a ese modelo dominante de globalización Simultáneamente a los procesos de precarización de los sujetos sociales asistimos a los procesos de empoderamiento que expanden las nociones de soberanía y de derechos y que desde distintos emplazamientos trabajan por sociedades más justas equitativas y diversas El lector encontrará más de una vía de interés en este conjunto de trabajos **Acculturation and**

Psychological Adaptation Vanessa S. Castro, 2003-01-30 This volume addresses the psychological impact of interethnic contact and acculturation in Latin American settings focusing on the effects of acculturation on self esteem among adolescents Opening with an account of relevant theoretical and empirical literature on interethnic contact and acculturation this book represents an acid test of the cross cultural applicability of theory and method largely derived from research on acculturation to North American and European settings Much research has focused on acculturation processes among ethnic immigrants and ethnic minorities leading to the impression that host or majority groups remain unchangeable during acculturation By contrast this volume shows that psychological changes occur in all groups involved in the contact reinforcing the idea that acculturation is a special case of mutual influence This book will be of special interest for researchers scholars or students seeking to understand the acculturation process outside North America and Europe Strong evidence is presented showing the development of positive ties with both one's own and other relevant groups provides a more solid basis for self esteem than relinquishing ties to the ethnic group of reference *Place, Language, and Identity in*
