New York Magazine , 1997-04-21 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **The Postmodernist Turn** J. David Hoeveler, 2004 During the 1970s the United States became the

world's preeminent postindustrial society. The new conditions changed the way Americans lived and worked and even their perceptions of reality. Americans struggled to find their place in a world where symbol became more important than fact, appearance more important than reality, where image supplanted essence. In this reassessment of a little studied decade, J. David Hoeveler Jr. finds that the sense of detachment and dislocation that characterizes the postindustrial society serves as a paradigm for American thought and culture in the 1970s. The book examines major developments in literary theory, philosophy, architecture, and painting as expressions of a 1970s consciousness. Hoeveler also explores the rival political readings of these subjects and considers the postmodernist phenomenon as it became an ideological battleground in the decade. Clear and engaging, the work will be of great interest to historians, theorists, and everyone who wants to further explore the 1970s.
