form of religious revelation is identified and examined pervasive revelation The theistic manifestation of this form of revelation pervasive in the sense that it may occurs in all the domains or dimensions of human existence is shown to be richly represented in the Psalms where God s presence may be found in the heavens in the growing of grass and in one s daily going out and coming in Pervasive revelation of religious reality is also shown to be present in the Buddhist tradition **The Word of Islam** John Alden Williams,2010-07-22 Since the 1970s Islam has been undergoing a tremendous resurgence throughout the world This resurgence has often been labeled Islamic fundamentalism by the media but it includes believers of every persuasion from the most conservative to the most liberal Given this fact it is vital for the West to understand the terms in which Islam thinks and to communicate effectively with Muslims This anthology includes writings central to Islamic thought some translated earlier but here redone and others which have never before appeared in any Western language The selections include an interpretation of the Qur an as well as portions of the Hadith or sayings and actions of the Prophet Islamic law mysticism Sufism theology and sectarian writings A final essay on Islam today places these writings in their contemporary context and shows the breadth and variety of Islamic belief and practice Compiled with the intention of letting Islam describe itself in its own words the book is an important source for all students of Muslim culture and world religions This book is similar in scope to Williams well known 1961 George Braziller publication but freshly written and much improved Religious Belief James Kellenberger,2021-09-23 This book addresses the different forms that religious belief can take Two primary forms are discussed propositional or doctrinal belief and belief in God Religious belief in God whose affective content is trust in God it is seen opens for believers a relationship to God defined by trust in God The book addresses the issue of the relation between belief and faith the issue of what S ren Kierkegaard called the subjectivity of faith and the issue of the relation between religious belief and religious experience After the introductory chapter the book continues with a chapter in which features and forms of belief allowed by the general concept of belief are presented Several of these forms and features are related to the features of religious belief examined in succeeding chapters The book s final chapter examines God relationships in the Christian tradition that de emphasize belief and are not defined by belief **The Literature of Islam** Paula Youngman Skreslet,Rebecca Skreslet,2006-09-20 This book introduces the literature of Islam as it is presented in English translation For scholars in other fields who need to understand the vast and complex literary heritage of this erudite and vigorous faith community but are unable to devote years of their lives to achieving a reading proficiency in classical Arabic for faculty members called upon to teach introductory or survey courses outside their own disciplines and for graduate students in theology medieval studies world religions or related fields who need access to these primary sources in English translation The Literature of Islam is a welcome resource Even lay readers who are interested in understanding the modern Arab or Islamic world may grasp something of the currents of thought and belief through the centuries that produced these important works which continue to exert a powerful influence upon Muslims today The primary literatures of Islam are

normally classified into several areas of study the canonical literature the interpretation of scripture and tradition law theology philosophy history and mysticism Entries here are organized into these areas of study and represent the most significant texts from important trends in the discipline The volume also includes an extensive bibliography that lists the editions of primary sources analyzed in each chapter There are also some suggestions for secondary reading which might be helpful to a student seeking additional information about each genre of literature
