## **Russian Political Thought A Concise Hist:**

**Russian Political Thought** Sergej Utechin, 1964      RUSSIAN POLITICAL THOUGHT SERGEJ V. UTECHIN, 2018

**Russian political thought** Sergej V. Utechin, 1964      A History of Russian Thought William Leatherbarrow, Derek Offord, 2010-04-01 The history of ideas has played a central role in Russia's political and social history. Understanding its intellectual tradition and the way the intelligentsia have shaped the nation is crucial to understanding the Russia of today. This history examines important intellectual and cultural currents: the Enlightenment, nationalism, nihilism, and religious revival, and key themes: conceptions of the West and East, the common people, and attitudes to capitalism and natural science in Russian intellectual history. Concentrating on the Golden Age of Russian thought in the mid-nineteenth century, the contributors also look back to its eighteenth-century origins in the flowering of culture following the reign of Peter the Great, and forward to the continuing vitality of Russia's classical intellectual tradition in the Soviet and post-Soviet eras. With brief biographical details of over fifty key thinkers and an extensive bibliography, this book provides a fresh, comprehensive overview of Russian intellectual history.      *A Documentary History of Russian Thought* William J. Leatherbarrow, Derek Offord, 1985      **A Concise History of the Russian Revolution** Richard Pipes, 2011-04-27 An authoritative history of the Russian Revolution and the violent and disruptive acts that created the first modern totalitarian regime, portraying the crisis at the heart of the tsarist empire. A deep and eloquent condemnation of the revolution and its aftermath. The New York Times. Drawing on archival materials released in Russia, Richard Pipes chronicles the upheaval that began as a conservative revolt but was soon captured by messianic intellectuals intent not merely on reforming Russia but on remaking the world. He provides fresh accounts of the revolution's personalities and policies, crises and cruelties, from the murder of the royal family through civil war, famine, and state terror. Brilliantly and persuasively, Pipes shows us why the resulting system owes less to the theories of Marx than it did to the character of Lenin and Russia's long authoritarian tradition. What ensues is a path-clearing work that is indispensable to any understanding of the events of the century.      A Concise History of Russia Paul Bushkovitch, 2011-12-05 Accessible to students, tourists, and general readers alike, this book provides a broad overview of Russian history since the ninth century. Paul Bushkovitch emphasizes the enormous changes in the understanding of Russian history resulting from the end of the Soviet Union in 1991. Since then, new material has come to light on the history of the Soviet era, providing new conceptions of Russia's pre-revolutionary past. The book traces not only the political history of Russia but also developments in its literature, art, and science. Bushkovitch describes well-known cultural figures such as Chekhov, Tolstoy, and Mendeleev in their institutional and historical contexts. Though the 1917 revolution, the resulting Soviet system, and the Cold War were a crucial part of Russian and world history, Bushkovitch presents earlier developments as more than just a prelude to Bolshevik power.      *A History of Russian Thought from the Enlightenment to Marxism* Andrzej Walicki, 1979 This book covers virtually all the significant Russian thinkers from the age of Catherine the Great down to the

eve of the 1905 Revolution      [A Concise History of Russia](#) Ronald Hingley,1972      *A History of Russian Philosophy 1830-1930* G. M. Hamburg,Randall A. Poole,2010-04-22 The great age of Russian philosophy spans the century between 1830 and 1930 from the famous Slavophile Westernizer controversy of the 1830s and 1840s through the Silver Age of Russian culture at the beginning of the twentieth century to the formation of a Russian philosophical emigration in the wake of the Russian Revolution This volume is a major history and interpretation of Russian philosophy in this period Eighteen chapters plus a substantial introduction and afterword discuss Russian philosophy s main figures schools and controversies while simultaneously pursuing a common central theme the development of a distinctive Russian tradition of philosophical humanism focused on the defence of human dignity As this volume shows the century long debate over the meaning and grounds of human dignity freedom and the just society involved thinkers of all backgrounds and positions transcending easy classification as religious or secular The debate still resonates strongly today      **Russia and Eastern Europe, 1789-1985** Raymond Pearson,1989      **The Palgrave Handbook of Russian Thought** Marina F. Bykova,Michael N. Forster,Lina Steiner,2021-05-22 This volume is a comprehensive Handbook of Russian thought that provides an in depth survey of major figures currents and developments in Russian intellectual history spanning the period from the late eighteenth century to the late twentieth century Written by a group of distinguished scholars as well as some younger ones from Russia Europe the United States and Canada this Handbook reconstructs a vibrant picture of the intellectual and cultural life in Russia and the Soviet Union during the most buoyant period in the country s history Contrary to the widespread view of Russian modernity as a product of intellectual borrowing and imitation the essays collected in this volume reveal the creative spirit of Russian thought which produced a range of original philosophical and social ideas as well as great literature art and criticism While rejecting reductive interpretations the Handbook employs a unifying approach to its subject matter presenting Russian thought in the context of the country s changing historical landscape This Handbook will open up a new intellectual world to many readers and provide a secure base for its further exploration      **Russian Philosophy, Volume 1** James M. Edie,2025-03-14 Russian philosophy begins through the impregnation of the ancient Byzantine tradition of Old Russia by the Western thought of the French Enlightenment and then by German Romanticism The first original Russian philosopher Gregory Skovoroda the Russian Socrates was followed by the early philosophy of history and culture Alexander Radishchev and Peter Chasadayev The fateful break of Russian philosophers into two opposed camps of the Slavophiles was accomplished by the middle of the nineteenth century      **The Mystical as Political** Aristotle Papanikolaou,2012-10-30 Theosis or the principle of divine human communion sparks the theological imagination of Orthodox Christians and has been historically important to questions of political theology In *The Mystical as Political* Democracy and Non Radical Orthodoxy Aristotle Papanikolaou argues that a political theology grounded in the principle of divine human communion must be one that unequivocally endorses a political community that is democratic in a way that structures itself around the modern liberal

principles of freedom of religion the protection of human rights and church state separation Papanikolaou hopes to forge a non radical Orthodox political theology that extends beyond a reflexive opposition to the West and a nostalgic return to a Byzantine like unified political religious culture His exploration is prompted by two trends the fall of communism in traditionally Orthodox countries has revealed an unpreparedness on the part of Orthodox Christianity to address the question of political theology in a way that is consistent with its core axiom of theosis and recent Christian political theology some of it evoking the notion of deification has been critical of liberal democracy implying a mutual incompatibility between a Christian worldview and that of modern liberal democracy The first comprehensive treatment from an Orthodox theological perspective of the issue of the compatibility between Orthodoxy and liberal democracy Papanikolaou s is an affirmation that Orthodox support for liberal forms of democracy is justified within the framework of Orthodox understandings of God and the human person His overtly theological approach shows that the basic principles of liberal democracy are not tied exclusively to the language and categories of Enlightenment philosophy and so are not inherently secular *Political Thought From Machiavelli to Stalin* E. A. Rees, 2004-03-12 This is the first book in English to explore the relationship between Stalin s ideas and methods and the practices advocated by Machiavelli and those associated with Machiavellian politics It advances the concept of revolutionary Machiavellism as a way of understanding a particular strand of revolutionary thought from the Jacobins through to Leninism and Stalinism By providing a wide ranging survey of European political thought in the Nineteenth and early Twentieth century E A Rees locates the Bolshevik tradition within the wider European tradition

Russian Messianism Peter J. S. Duncan, 2002-11 This unique work will be of great interest to those engaged in politics and Russian studies as well as professionals dealing with Russia *Russian Foreign Policy* Nikolas K. Gvosdev, Christopher Marsh, 2013-08-22 In a truly contemporary analysis of Moscow s relations with its neighbors and other strategic international actors Gvosdev and Marsh use a comprehensive vectors approach dividing the world into eight geographic zones Each vector chapter looks at the dynamics of key bilateral relationships while highlighting major topical issues oil and energy defense policy economic policy the role of international institutions and the impact of major interest groups or influencers demonstrating that Russia formulates multiple sometimes contrasting foreign policies Providing rich historical context as well as exposure to the scholarly literature the authors offer an incisive look at how and why Russia partners with some states while it counter balances others *At the Crossroads of Post-Communist Modernisation* C. Pursiainen, 2012-09-10 This volume takes a comparative approach to understand general tendencies in post Communist transition in Russia and China Bringing together perspectives from Political Science Sociology and IR it analyses three arenas of social change socio economic systems political systems and foreign policies **Breeding Superman** Dan Stone, 2002-02-01 Before the First World War there existed an intellectual turmoil in Britain as great as any in Germany France or Russia as the debates over Nietzsche and eugenics in the context of early modernism reveal With the rise of fascism after 1918 these debates became

more ideologically driven with science and vitalist philosophy being hailed in some quarters as saviours from bourgeois decadence vituperated in others as heralding the onset of barbarism Breeding Superman looks at several of the leading Nietzscheans and eugenicists and challenges the long cherished belief that British intellectuals were fundamentally uninterested in race The result is a study of radical ideas which are conventionally written out of histories of the politics and culture of the period     Russia, NATO and Cooperative Security Lionel Ponsard, 2006-11-22 This book is an examination of the evolution of Russian NATO relations since the Cold War It shows to what extent cooperative security could serve as a means to bridge the gap between two supposedly antagonistic entities NATO and Russia
