When Blood and Bones Cry Out John Paul Lederach,Angela Jill Lederach,2011-10-28 Around the world communities that have suffered the trauma of unspeakable violence in Liberia Somalia West Africa Columbia and elsewhere are struggling to recover and reconcile searching for ways not just to survive but to heal In *When Blood and Bones Cry Out* John Paul Lederach a pioneer of peace building and his daughter Angela Jill Lederach show how communities can recover and reconnect through the power of making music creating metaphors and telling their extraordinary stories of suffering and survival Instead of relying on more common linear explanations of healing and reconciliation the Lederachs demonstrate how healing is circular dynamic and continuing even in the midst of ongoing violence They explore the concept of social healing a profoundly important intermediary step between active warfare and reconciliation Social healing focuses on the lived experience of those who have suffered protracted violence and their need to give voice to that experience both individually and collectively Giving voice speaking the unspeakable in words and sounds that echo throughout traumatized communities can have enormous healing power Indeed the Lederachs stress the remarkable effects of sound and vibration through tales of

Tibetan singing bowls Van Morrison's transcendent lyrics the voices of mothers in West Africa and their own personal journeys And they include inspiring stories of transformation a mass women's protest movement in Liberia that forces leaders to keep negotiating until a peace agreement is signed elders in Somalia who walk between warring clans year after year to encourage dialogue former child soldiers who run drum workshops and grow gardens in refugee camps and rape victims in Sierra Leone who express their pain in poetry With equal measures of insight and compassion When Blood and Bones Cry Out offers a promising new approach to healing traumatized communities

Bulletin ,1983-08 **Salvadorans in Costa Rica** Bridget Hayden,2022-09-13 During the political and economic upheaval that swept El Salvador in the 1980s as many as 20 000 Salvadorans took refuge in Costa Rica Despite similarities between the countries most Salvadorans experienced El Salvador and Costa Rica as very different places yet some 6 000 chose to remain after the violence in their country ended re-establishing their lives successfully enough that they claimed that they now felt Costa Rican Bridget Hayden examines the ways in which these people integrated into Costa Rican society and the ambiguous sense of identity they developed exploring their experience of the process and the cultural concepts they used to interpret those experiences Salvadorans in Costa Rica Displaced Lives introduces readers to people from a wide range of class and educational backgrounds who had come to Costa Rica from all over El Salvador All shared the experience of having become refugees and having settled in a new country under the same circumstances and when the war in their own country ended they shared a concern about the issues involved in deciding whether to return there Their diversity allows Hayden to examine the ways in which the language of national identity played out in different contexts and sometimes contradictory ways Drawing on contemporary theories of migration and space Hayden identifies the discourses narratives and concepts that Salvadorans in Costa Rica had in common and then analyzes the ways in which their experiences and their uses of those discourses varied She focuses on key spatial concepts that Salvadorans used in talking about displacement and re-emplacement in order to show how they constructed the experience of settlement and how such variables as gender and age influenced their experiences Because nationality was an idiom they used to relate their experiences she pays particular attention to the role of national belonging and national difference in terms of both the ways in which the Salvadorans were received by Costa Ricans and their reactions to their new lives in Costa Rica A concluding chapter compares them with Salvadorans who emigrated to other countries The story of these displaced Salvadorans focusing on the lives of real people can give us a new understanding of how individuals feel a sense of belonging to a sociocultural space By exploring many meanings of the nation and national belonging for different people under varying conditions Hayden's study provides fresh insights into the dynamics of migration gender and nationalism
