in seventeenth and eighteenth century India Siam and Vietnam and nineteenth and twentieth century Indochina the largest colony France ever administered in Asia Offering a sweeping panorama of the buildings of France s colonial project this is the first study to encompass the architecture of both the ancien r gime and modern empires from the founding of the French trading company in the seventeenth century to the independence and nationalist movements of the mid twentieth century Gauvin Bailey places particular emphasis on the human factor the people who commissioned built and lived in these buildings Almost all of these architects both Europeans and non Europeans have remained unknown beyond at best their surnames Through extensive archival research this book reconstructs their lives providing vital background for the buildings themselves Much more than in the French empire of the Western Hemisphere the buildings in this book adapt to indigenous styles regardless of whether they were designed and built by European or non European architects The Architecture of Empire provides a unique comprehensive study of structures that rank among the most fascinating examples of intercultural exchange in the history of global empires

Vietnam Past and Present Andrew Forbes,David Henley,2012-12-26 There can be few people in the world that do not know the name location and recent history of Vietnam Yet beyond the period of US involvement in what Americans call the Vietnam War how much is really known Almost no Vietnamese bear a grudge against the USA but this is less true for China Vietnam s close neighbor mentor and rival for more than two thousand years For example Vietnamese like to name their streets after what they consider to have been acts of foreign aggression and in Hanoi no fewer than 119 streets are named after acts of Chinese and French aggression By contrast just two are named for acts of American aggression Based on an intimate personal knowledge of Vietnam extending over two decades this book explores Hanoi and the North It leads the reader not just across contemporary Tonkin but also through its long history linking the present day with the distant past 62 000 words 81 contemporary images 38 historical images 4 maps Glossary Bibliography

Cities and Sovereignty Diane E. Davis,Nora Libertun de Duren,2011-02-01 Cities have long been associated with diversity and tolerance but from Jerusalem to Belfast to the Basque Country many of the most intractable conflicts of the past century have played out in urban spaces The contributors to this interdisciplinary volume examine the interrelationships of ethnic racial religious or other identity conflicts and larger battles over sovereignty and governance Under what conditions do identity conflicts undermine the legitimacy and power of nation states empires or urban authorities Does the urban built environment play a role in remedying or exacerbating such conflicts Employing comparative analysis these case studies from the Middle East Europe and South and Southeast Asia advance our

understanding of the origins and nature of urban conflict **Sidewalk City** Annette Miae Kim, 2015-05-27 For most the term public space conjures up images of large open areas community centers for meetings and social events the ancient Greek agora for political debates green parks for festivals and recreation In many of the world's major cities however public spaces like these are not a part of the everyday lives of the public Rather business and social lives have always been conducted along main roads and sidewalks With increasing urban growth and density primarily from migration and immigration rights to the sidewalk are being hotly contested among pedestrians street vendors property owners tourists and governments around the world With **Sidewalk City** Annette Miae Kim provides the first multidisciplinary case study of sidewalks in a distinctive geographical area She focuses on Ho Chi Minh City Vietnam a rapidly growing and evolving city that throughout its history her multicultural residents have built up alternative legitimacies and norms about how the sidewalk should be used Based on fieldwork over 15 years Kim developed methods of spatial ethnography to overcome habitual seeing and recorded both the spatial patterns and the social relations of how the city's vibrant sidewalk life is practiced In **Sidewalk City** she transforms this data into an imaginative array of maps progressing through a primer of critical cartography to unveil new insights about the importance and potential of this quotidian public space This richly illustrated and fascinating study of Ho Chi Minh City's sidewalks shows us that it is possible to have an aesthetic sidewalk life that is inclusive of multiple publics aspirations and livelihoods particularly those of migrant vendors Western Power in Asia Arthur Cotterell, 2011-08-04 For centuries the major powers of the West were seduced by the allure of the countries of the Far East Spices textiles silk and tea were the staples of East West trade But competition between Western traders eventually caused military intervention in Asian affairs and the establishment of colonial empires These actions have shaped the history of mankind and left a legacy that still reverberates throughout Asia Western Power in Asia is a unique contribution to the understanding of present day Asia Essential reading for anyone interested in world history Arthur Cotterell offers fascinating insights into five hundred extraordinary years of power and influence by the West which disappeared spectacularly after the Second World War The author's ability to tell both sides of the story with the aid of contemporary illustrations as well as quotations makes this book a tremendous resource for students of Asian history And because the entire colonial experience is covered for the first time within a single volume Western Power in Asia also provides the general reader with an unusual and invaluable perspective on East West relations As countries such as China and India become key players on the world stage Western Power in Asia provides a timely reminder of the path that led to their present positions while allowing a poignant opportunity to reflect on how they might in future treat their Western trading partners **The Lover, Wartime Notebooks, Practicalities** Marguerite Duras, 2017-11-14 A hardcover omnibus edition of the French writer's most famous novel the basis for the film *Memoir of War* alongside her fascinating wartime writings and a collection of intimate autobiographical essays Marguerite Duras was one of the leading intellectuals and novelists of postwar France but her wartime writings were not published in
