Sailing The Wine Dark Sea Why The Greeks Matter:

Sailing the Wine-Dark Sea Thomas Cahill, 2010-04-21 NATIONAL BESTSELLER The bestselling author of *How the Irish Saved Civilization* takes us on a journey through the landmarks of art and bloodshed that defined Greek culture nearly three millennia ago A triumph of popularization extraordinarily knowledgeable informal in tone amusing wide ranging smartly paced The New York Times Book Review In the city states of Athens and Sparta and throughout the Greek islands honors could be won in making love and war and lives were rife with contradictions By developing the alphabet the Greeks empowered the reader demystified experience and opened the way for civil discussion and experimentation yet they kept slaves The glorious verses of the Iliad recount a conflict in which rage and outrage spur men to action and suggest that their bellicose society of gleaming metals and rattling weapons is not so very distant from more recent campaigns of shock and awe And centuries before Zorba Greece was a land where music dance and freely flowing wine were essential to the high life Granting equal time to the sacred and the profane Cahill rivets our attention to the legacies of an ancient and enduring worldview *Sailing the Wine-dark Sea* Thomas Cahill, 2004-07

How the Irish Saved Civilization Thomas

Cahill, 2010-04-28 NATIONAL BESTSELLER A book in the best tradition of popular history the untold story of Ireland's role in maintaining Western culture while the Dark Ages settled on Europe The perfect St Patrick's Day gift Every year millions of Americans celebrate St Patrick's Day but they may not be aware of how great an influence St Patrick was on the subsequent history of civilization Not only did he bring Christianity to Ireland he instilled a sense of literacy and learning that would create the conditions that allowed Ireland to become the isle of saints and scholars and thus preserve Western culture while Europe was being overrun by barbarians In this entertaining and compelling narrative Thomas Cahill tells the story of how Europe evolved from the classical age of Rome to the medieval era Without Ireland the transition could not have taken place Not only did Irish monks and scribes maintain the very record of Western civilization copying manuscripts of Greek and Latin writers both pagan and Christian while libraries and learning on the continent were forever lost they brought their uniquely Irish world view to the task As Cahill delightfully illustrates so much of the liveliness we associate with medieval culture has its roots in Ireland When the seeds of culture were replanted on the European continent it was from Ireland that they were germinated In the tradition of Barbara Tuchman's *A Distant Mirror* *How The Irish Saved Civilization* reconstructs an era that few know about but which is central to understanding our past and our cultural heritage But it conveys its knowledge with a winking wit that aptly captures the sensibility of the unsung Irish who relaunched civilization

American Icarus Pythia Peay, 2015-04-01 This is the story of Joe Carroll fully paid up member of the Greatest Generation aviator farmer and handsome Irish charmer who radiated exuberance for life a literal and metaphorical flying boy With his head in the clouds this American Icarus embodied all that

was aspirational and attractive about mid twentieth century America with its technical ingenuity bravado and its belief that the only way was up But Joe was also a destructive impulsive alcoholic like many of that generation he held experiences and feelings close to the chest Only on his deathbed did Joe acknowledge the pull of gravity reaching out to his estranged family reflecting over his life and contemplating the afterlife Depth journalist Pythia Peay is Joe s eldest child In this evocative thoroughly researched and sensitively drawn depiction of her father s life and times Peay maps the trajectories of this troubled ordinary Joe who as a youth had suffered a Dickensian twist of fate that would leave him a divided man Guided by her father s memories he recalled as he lay dying Peay charts the ancestral rivers that led a working class boy from depression era Altoona Pennsylvania to the Air Transport Command and Brazil during World War II post War Buenos Aires where Joe married an Argentine beauty with ancestral connections to the foundation of the United States newly independent Israel where he flew for El Al the Missouri heartland in the 1950s where he ran a farm and raised four children while traveling the world for TWA the upheavals of the 1960s that would drive Peay and her father apart Mexico where her parents fled to escape their failing marriage and finally Texas where Joe got cancer and died In narrating Joe s life Peay not only delineates the depths of the Depression the highs of the good war and the psychological toll it exacted on the Greatest Generation as well as the undercurrents that led to her family s disintegration in the 1960s but she unpacks the myths and archetypes that shape the United States its perpetual restlessness and heroic individualism in a journey that leads intimately and movingly to a final reconciliation with a dying patriarch and the ghosts of the past

Socrates Jim Whiting, One of the most famous executions in ancient times took place in Athens Greece in 399 BCE The philosopher Socrates was found guilty of several crimes by a jury of 500 of his fellow citizens He might have escaped the death penalty if he had been willing to leave his beloved city and go into exile Instead he suggested that the city provide his meals for the rest of his life This suggestion enraged the jurors including many who had voted not to convict him His fate was sealed Soon afterward he drank poisonous hemlock Socrates was dead But his legacy would live on Even today he is one of the most famous thinkers of all time

Clio's Bastards Curtis R. McManus, 2016-06-24 Clio s Bastards uses an examination of the discipline of history in Canadian universities as the point of entry for a much larger exploration of the intellectual spiritual and moral crisis confronting Western civilization today Over the past four decades academic history was slowly perverted as historians adopted new sociological approaches to the study of the past Historians altered the content purpose and goals of the discipline as they sought not Truth but Justice as part of a larger ideological program of radical social change And today the pervasive sociological way of seeing understanding and explaining our world has become the new common sense right across the Western world both inside and outside the academy Sociological thought however is neither new nor advanced nor is it progressive as its adherents claim it is simply recrudescence Sophistry and Cynicism destructive philosophies which ruined and fouled ancient Athens the source and inspiration for Western civilization

The Extraordinary Healing Power of

Ordinary Things Larry Dossey, 2007-06-05 Every day modern medicine announces the arrival of yet another wonder drug or miracle procedure to a world increasingly wary of expensive high tech cures Drugs transplants and surgery don't work for 90 percent of our aches and pains and while we are grateful for life saving developments we know that most come with risks that we ignore at our peril Long hailed as one of the founding fathers of mind body medicine Larry Dossey directs our attention to simple sources of healing that have been available for centuries treasures often hidden in plain sight from the power of optimism and of tears to speed recovery to the surprising usefulness of dirt and bugs in curing disease and infection to the benefits of doing nothing Exploring the medical research that validates these simple remedies Dossey encourages us to align ourselves with the wisdom of nature and allow true healing to take place The Extraordinary Healing Power of Ordinary Things can transform our view of what health is all about whether our concern is cancer or the common cold Challenge to the Church

Marvin E. Bryce, 2005-06-21 The Christian Church has taken Jesus and converted him from a man to a mythical Christ The result has been ignorance and intolerance The real message of Jesus was human centered one of compassion love humility and tolerance Incredibly anyone who supports these ideals today remains on the fringe of the Christian faith We can choose to follow the advice of Jesus and his early followers to find fulfillment by striving to make this world our lives and the lives of others what we want them to be We need to liberate Jesus and therefore ourselves so that we can assume more responsibility for each other No matter how we eventually choose to frame it it all begins with a human connection *The Christian Roots of Individualism* Maureen P. Heath, 2019-11-28 The modern West has made the focus on individuality individual freedom and self identity central to its self definition and these concepts have been crucially shaped by Christianity This book surveys how the birth of the Christian worldview affected the evolution of individualism in Western culture as a cultural meme Applying a biological metaphor and Richard Dawkins definition of a meme this work argues the advent of individualism was not a sudden innovation of the Renaissance or the Enlightenment but a long evolution with characteristic traits This evolution can be mapped using profiles of individuals in different historical eras who contributed to the modern notion of individualism Utilizing excerpts from original works from Augustine to Nietzsche a compelling narrative arises from the slow but steady evolution of the modern self The central argument is that Christianity with its characteristic inwardness was fundamental in the development of a sense of self as it affirmed the importance of the everyday man and everyday life

Exploring Colossians: Living the New Reality Roy R. Jeal, 2024-11-22 In this comprehensive sociorhetorical interpretation of Colossians Roy R. Jeal explores the letter's portrayal of the grand vision that extends from the realm of God before the creation of the cosmos to the new reality and new culture of the life of fullness in Christ The commentary analyzes the pictures the text evokes in the human visual imagination identifies the persuasive modes of discourse in the letter and evaluates the range of textures that interweave to produce the dynamic rhetorical argument of Colossians Demands to conform to empty deceitful philosophy human tradition and the elements of the world rather than to Christ are irrelevant for

believers who have been transferred from darkness to the light of the Son of God's kingdom. The rhetoric of the letter moves believers to ideologies of living in the body of Christ where orderly behavior guided by love contrasts with the chaotic self-indulgent divisive uncertainties of Mediterranean existence.

Deep Agroecology and the Homeric Epics John W. Head, 2020-12-15 Drawing on the Homeric epics this multidisciplinary work reveals the cultural transformations which need to take place in order to transition from today's modern extractive agricultural system to a sustainable natural systems agriculture. In order to provide an imaginative foundation on which to build such a cultural transformation the author draws on the oldest and most pervasive pair of literary works in the Western canon the Iliad and the Odyssey. He uses themes from those foundational literary works to critique the concept of state sovereignty and to explain how innovative federalism structures around the world already show momentum building toward changes in global environmental governance. The book proposes a dramatic expansion on those innovations to create eco states responsible for agroecological management. Drawing from many years of experience in international institutions the author proposes a system of coordination by which an international agroecology focused organization would simultaneously i avoid the shortcomings of the world's current family of powerful global institutions and ii help create and implement a reformed system of local landscape based agriculture wholly consistent with ecological principles. Acknowledging the difficulty of achieving reforms such as these the author suggests that a new cultural conceptual narrative can be constructed drawing on values set forth 2 700 years ago in the Homeric epics. He explains how these values can be reimagined to drive forward our efforts in addressing today's the climate and agricultural crises in ways that reflect not reject the natural processes and relationships that make the Earth a living planet. This book will be of great interest to students academics and policymakers addressing issues of agrarian values environmental and agricultural law environmental restoration agroecology and global institutional reform.
