Sailors, Statesmen and the Implementation of Naval

Strategy Agustín Guimerá, Richard Harding, Agustín Guimerá Ravina, 2024 Explores the varied relationship between political leaders and naval experts from the 16th to 21st centuries The shaping of national defence strategies is particularly difficult in the case of navies Few political leaders have naval experience in contrast to the case of armies where political leaders and army commanders have often shared similar social and professional backgrounds Bringing together historical examples from Britain the United States Spain and France the book provides insights into this key relationship The authors highlight factors which have made for successful relationships between political leaders and naval experts showing how changing circumstances have affected the dialogue and underlines the importance of good exchange of knowledge expertise and understanding for successful policy making and strategic outcomes Sea power continues to be crucial in the present world s increasingly unstable geopolitical situation the mutual exchange of expertise between naval experts and political leaders is as important as ever and the risk of political sea blindness remains high This book s historical examples provide good guidance on how to manage the relationship between political leaders and naval experts well

Frank Leslie, 1895 **The National Review**, 1922 **Statesmen And Soldiers Of The Civil War; A Study Of The Conduct Of War** Major-General Sir Frederick Maurice, 2015-11-06 Major General Maurice although a British officer was fascinated by the American Civil War and wrote a number of important works on the conflict even editing and publishing for the first time the famous memoirs of General Robert E Lee's aide de camp Colonel Marshall In this volume he analyses the relationship between the statesmen and their generals in both the Confederacy and the Union there was much friction between the generals in the field and their political masters The author takes two relationships one successful and the other disastrous from both sides of the firing line to scrutinize On the Confederate side the frictions and breaches of Jefferson Davis and General J E Johnston are contrasted with the former's affinity and dependence on General Robert E Lee In the Union ranks the frustrations and goading of Lincoln and General McClellan are balanced by the support and trust of the President's dealings with General U S Grant In closing his work General Maurice also touches on his opinions for the conduct of successful relations between politicians and the military and illustrates them with examples from the more recent First World War Soldier-Statesmen of the Age of Enlightenment, 1984 **Michigan Manual**, 1905
