Andrea Del Castagno and His Patrons John Richard Spencer, 1991 Most studies of Renaissance patronage in the arts deal with a particular patron and the artists who worked for him John R Spencer reverses this approach by focusing on one fifteenth century Florentine artist Andrea del Castagno and his patrons Combining social and art history Spencer casts new light on both the career of Castagno and on the nature of art patronage in the early Renaissance Through careful and detailed archival research Spencer creates a fascinating portrait of Castagno s patronage as a web at the center of which was Cosimo de Medici who constituted the focal point of a network of business partnerships real estate transactions loans and special privileges in which the artist s patrons were enmeshed The author constructs partial biographies of unknown and lesser known patrons to show the relation of these patrons to each other and to the artist demonstrating the degree to which artistic production in Renaissance Italy was tied to politics and economics Spencer discusses each of Castagno s extant and some of his lost paintings dating the works with greater accuracy than ever before His understanding of the patrons and of the motivations behind the commissions makes it possible for Spencer to bring new interpretations to many of these works This book offers a deeper understanding of a particular artist s life and work while also exploring the larger question of the unique relationship between private patrons and independent artists in the Italian Renaissance

American Camino Kip Redick, 2023-10-10 Hikers have been walking the Appalachian Trail since 1948 when Earl Shaffer completed the first hike Some hike just to enjoy the scenery while others experience the trek as a spiritual journey In *American Camino Walking as Spiritual Practice on the Appalachian Trail* Kip Redick engages in a phenomenological exploration of the relationship between long distance hiking in this case hiking the Appalachian Trail and spiritual pilgrimage This book shows the way the Appalachian Trail concretizes existential connections between the hikers spiritual experiences and intersubjective relationships with various constituents on and around the trail mountainous wilderness its variation of flora fauna geology and watershed and social interactions with fellow hikers and with communities near the trail Redick contrasts spiritual rambling with other approaches to hiking such as scenic hikes where an experience of landscape is the focus or a series of other aesthetic encounters that involve hikers connection with nature This book interprets the Appalachian Trail as a site of spiritual journey and those who hike the wilderness trail as contemporary pilgrims

Saints and Their Miracles in Late Antique Gaul Raymond Van Dam, 2011-11-12 Saints cults with their focus on miraculous healings and pilgrimages were not

only a distinctive feature of Christian religion in fifth and sixth century Gaul but also a vital force in political and social life Here Raymond Van Dam uses accounts of miracles performed by SS Martin Julian and Hilary to provide a vivid and comprehensive depiction of some of the most influential saints cults Viewed within the context of ongoing tensions between paganism and Christianity and between Frankish kings and bishops these cults tell much about the struggle for authority the forming of communities and the concept of sin and redemption in late Roman Gaul Van Dam begins by describing the origins of the three cults and discusses the career of Bishop Gregory of Tours who benefited from the support of various patron saints and in turn promoted their cults He then treats the political and religious dimensions of healing miracles including their relation to Catholic theology and their use by bishops to challenge royal authority and of pilgrimages to saints shrines The miracle stories collected mainly by Gregory of Tours appear in their first complete English translations **The old**

Widow City Anna Wainwright,2025-05-13 Widow City Gender Emotion and Community in Renaissance Italy investigates the ever evolving role of the widow in medieval and early modern Italian literature from canonical authors such as Dante Petrarch and Boccaccio to the numerous widowed writers who rose to prominence in the sixteenth century including Vittoria Colonna Veronica Gambara and Francesca Turina and radically changed the conversation on public mourning Engaging with broader intellectual discussions around gender the history of emotions the politics of mourning and the construction of community Widow City argues that widows served as key models demonstrating to readers not just how to mourn but how to live well after devastating loss At the same time widows were figures of great anxiety their status as unattached women and the public performance of their grief were viewed as very real threats to the stability of the social order They are thus key to broader intellectual understandings of community and civic life in the Italian Middle Ages and Renaissance **The Illustrated Waverley Novels** Walter Scott,1878 The lives of the fathers, martyrs, and other principal saints; compiled from original monuments, and other authentic records; illustrated with the remarks of judicious modern critics and historians
