1963 they have simultaneously fascinated and terrified generations of children their instant success ensuring and sometimes eclipsing that of Doctor Who They sprang from the imagination of Terry Nation a failed stand up comic who became one of the most prolific writers for television that Britain ever produced Survivors his vision of a post apocalyptic England so haunted audiences in the Seventies that the BBC revived it over thirty years on and Blake's 7 constantly rumored for return endures as a cult sci fi classic But it is for his genocidal pepperpots that Nation is most often remembered and now more than 50 years after their creation they continue to top the Saturday night ratings Yet while the Daleks brought him notoriety and riches Nation played a much wider role in British broadcasting's golden age He wrote for Spike Milligan Frankie Howerd and an increasingly troubled Tony Hancock and as one of the key figures behind the adventure series of the Sixties including The Avengers The Saint and The Persuaders he turned the pulp classics of his boyhood into a major British export In The Man Who Invented the Daleks acclaimed cultural historian Alwyn W Turner explores the curious and contested origins of Doctor Who's greatest villains and sheds light on a strange world of ambitious young writers producers and performers without whom British culture today would look very different *Catalog of Copyright Entries.
