leaders The Statutes at Large Great Britain,1766 **St. Magnús of Orkney** Haki Antonsson,2007-04-30 The focus of this book is on the cult of St Magn s Earl of Orkney who was killed in 1116 1117 in an inter dynastic dispute More specifically it looks at the emergence of the Magn s cult in the twelfth century and the hagiographical corpus that was composed in his honour by Icelandic and English men of letters These aspects of the Orcadian cult are not however examined in isolation but are rather placed within broader Scandinavian and European contexts Moreover they provide points of departure for the examination of important topics relating to religious life and literature in early Christian Scandinavia such as the earliest cults of native saints and the perception of martyrdom **The Northern Earldoms** Barbara E. Crawford,2013-08-08 The medieval earldoms of Orkney and Caithness were positioned between two worlds the Norwegian and the Scottish They were a maritime lordship divided or united by the turbulent waters of the Pentland Firth This unlikely combination of island and mainland territory survived as a single lordship for 600 years against the odds Growing out of the Viking maelstrom of the early Middle Ages it became an established and wealthy principality which dominated northern waters with a renowned dynasty of earls Despite their peripheral location these earls were fully in touch with the kingdoms of Norway and Scotland and increasingly subject to the rulers of these kingdoms How they maintained their independence and how they survived the clash of loyalties are themes explored in this book from the early Viking age to the late medieval era when the powerful feudal Sinclair earls ruled the islands and regained possession of Caithness This is a story of the time when the Northern Isles of Scotland were part of a different national entity which explains the background to the non Gaelic culture of this locality when links across the North Sea were as important as links with the kingdom of Scotland to the south **Ideology and Power in the Viking and Middle Ages** ,2011-04-21 Ideology and power are central elements in the political social religious and cultural development of the North during the transition from the Viking to the Middle Ages While the medieval European Christian ideology of rulership has been widely discussed an analysis of the Nordic pre Christian ideology and of its confrontation with the new European ideals has so far been lacking This book examines the concepts and practices associated with chieftains earls and kings from the ninth to the thirteenth century the myths and rituals surrounding their position in a northern European warrior culture The analysis seems to indicate that important elements of the pre Christian ideology of rulership survived into the Christian Middle Ages either transformed or even simply transferred Contributors are Ian Beuermann Anders Hultg rd Jan Erik Rekdal Jens Peter Schj dt J n Vi ar Sigur sson Joanna Sk rzewska Gro Steinsland and Olof Sundqvist
