K. Adam,2015-12-03 How could an urban American Indian tribe having survived relentless earlier governmental attempts to declare its culture extinct be once again on the verge of extinction The Tigua of Ysleta del Sur Pueblo dwell in the outskirts of El Paso Texas where the infamous Jack Abramoff was in the news for helping to close their highly successful casino This casino had created jobs and funded health care for the tribe and now the Tigua are once more taking action to preserve their economy membership and culture This highly publicised casino story is set against the remarkably rich history of the Tigua including earlier attempts by national and state governments to steal the tribe s land and destroy its legal status Anthropologist S K Adam explores how questions of identity can be linked to cultural survival Had the Tigua somehow survived 300 years of persecution and urban encroachment or as alleged by the government were they really just Mexicanised Indians acting fraudulently Adam examines how terms such as indigeneity identity authenticity culture change and perseverance are understood and defined by the US government He analyses how issues of power law discourse genocide and self determination affect the relationship between the United States and its indigenous populations past and present *New Mexico Mission Churches* Donna Blake Birchell,2021 Before Spanish rule the land now known as New Mexico was inhabited by many indigenous tribes and pueblos with their own religious beliefs When conquistadors arrived to search for the Seven Cities of Gold they created settlements in the pueblos they conquered and forced Catholicism on the people they enslaved While several of these original missions were destroyed during the Revolt of 1680 the surviving churches are cherished by the communities they now serve Author Donna Blake Birchell guides you through the unique histories of more than twenty mission churches their struggles and triumphs over the centuries and the preservation challenges they now face *California Missions Preservation Act, Baranov Museum Study Act, Manhattan Project National*

Archaeology in America Linda S. Cordell, Kent Lightfoot, Francis McManamon, George Milner, 2008-12-30 The greatness of America is right under our feet The American past the people battles industry and homes can be found not only in libraries and museums but also in hundreds of archaeological sites that scientists investigate with great care These sites are not in distant lands accessible only by research scientists but nearby almost every locale possesses a parcel of land worthy of archaeological exploration Archaeology in America is the first resource that provides students researchers and anyone interested in their local history with a survey of the most important archaeological discoveries in North America Leading scholars most with an intimate knowledge of the area have written in depth essays on over 300 of the most important archaeological sites that explain the importance of the site the history of the people who left the artifacts and the nature of the ongoing research Archaeology in America divides its coverage into 8 regions the Arctic and Subarctic the Great Basin and Plateau the Great Plains and Rocky Mountains the Midwest the Northeast the Southeast the Southwest and the West Coast Each entry provides readers with an accessible overview of the archaeological site as well as books and articles for further research

Landscapes of Social Transformation in the Salinas Province and the Eastern Pueblo World Katherine A. Spielmann, 2017-10-31 In the 1100s most Pueblo peoples lived in small dispersed settlements and moved frequently but by the mid 1400s they had aggregated into large villages The majority of these villages were still occupied at Spanish contact and conquest by which time most Pueblo peoples had completely transformed their perception and experience of village life Other changes were taking place on a broader regional scale and the migrations from the Colorado Plateau and the transformation of Chaco initiated myriad changes in ritual organization and practice Landscapes of Social Transformation in the Salinas Province and the Eastern Pueblo World investigates relationships between diverse regional and local changes in the Rio Grande and Salinas areas from 1100 to 1500 C E The contributing authors draw on the results of sixteen seasons of archaeological survey and excavation in the Salinas Province of central New Mexico The chapters offer cross scale analyses to compare broad perspectives in well researched southwestern culture changes to the finer details of stability and transformation in Salinas This stability which was unusual in the Pueblo Southwest from the 1100s until its abandonment in the 1670s provides an interesting contrast to migration based transformations studied elsewhere in the Rio Grande region

From Prehistoric Villages to Cities Jennifer Birch, 2014-04-11 Archaeologists have focused a great deal of attention on explaining the evolution of village societies and the transition to a Neolithic way of life Considerable interest has also concentrated on urbanism and the rise of the earliest cities Between these two landmarks in human cultural

development lies a critical stage in social and political evolution Throughout world at various points in time people living in small dispersed village communities have come together into larger and more complex social formations These community aggregates were essentially middle range situated between the earliest villages and emergent chiefdoms and states This volume explores the social processes involved in the creation and maintenance of aggregated communities and how they brought about revolutionary transformations that affected virtually every aspect of a society and its culture While there have been a number of studies that address coalescence from a regional perspective less is understood about how aggregated communities functioned internally The key premise explored in this volume is that large scale long term cultural transformations were ultimately enacted in the context of daily practices interactions and what might be otherwise considered the mundane aspects of everyday life How did these processes play out on the ground in diverse and historically contingent settings What are the strategies and mechanisms that people adopt in order to facilitate living in larger social formations What changes in social relations occur when people come together This volume employs a broadly cross cultural approach to interrogating these questions employing case studies which span four continents and more than 10 000 years of human history *Cannon Air Force Base (AFB), Realignment and F/EF-111 Basing*, 1992

The indispensable traveler s guide to the history of places throughout the Land of Enchantment **Ho! To the Land of Sunshine** William Penner, Shawn Kelley, Nicholas Parker, 2013-11-08 The Belen Cutoff gave the AT SF Railway a legitimate transcontinental freight line by eliminating the steep grades of Raton Pass The Cutoff also transformed the eastern plains of New Mexico in the first half of the twentieth century leading to New Mexico s most significant population increase as many homesteaders came to the region This book tells that story by providing the perspectives of the AT SF balanced by the experiences and narratives of railroad workers homesteaders and others New research includes detailed consideration of internal railroad documents local newspapers and extensive oral history interviews As a result this is the definitive account of
