Aldiss, 2025-04-22

Twenty two classic science fiction stories spanning the first three decades of the Science Fiction Grand Master's career. Features *Super Toys*, *Last All Summer*, the short story that inspired the film *A.I. Artificial Intelligence*. Britain's most versatile and durable and consistently most interesting science fiction writer presents his own personal best of 22 splendid tales. To Aldiss, the human dimension has always been more important than hardware or fireworks, which is why his best stories have a timeless quality, weaving intelligence, emotion, and inventiveness. Kirkus Reviews starred review. Winner of the Hugo and Nebula Awards. Brian W. Aldiss was a science fiction author in competition with no one but himself. The New York Times Book Review. In this collection, he shows why, offering up twenty-two stories from the first three decades of his career, encompassing a stunning range of ideas, moods, and styles. In the title story, we find a man recently back from an expedition in space who lives 3,307.7 minutes in the future. A meteor shakes things up in a quiet English town in *The Saliva Tree*, an homage to H. G. Wells, and which earned Aldiss the Nebula Award in 1965. A giant lizard-like alien comes to Earth in *Heresies of the Huge God*, and while some believe it is a monster, others worship it. A mother tries to connect with her son through the help of a robot intermediary in *Super Toys*. *Last All Summer*: Unhappy with the state of his life, a man ventures back in time to hunt dinosaurs. In *Poor Little Warrior*, robots have an existential crisis. In *Who Can Replace a Man*, men travel to Mars to take a picture of the planet's tallest volcano. In *The Difficulties in Photographing Nix Olympica*. Although the stories in this collection were originally published in the 1950s, 60s, 70s, and 80s, they remain just as gripping today. Each conveys a fascinating idea for readers to ponder, and together they make a perfect introduction to one of British science fiction's greatest authors.

Brian Aldiss Michael R. Collings, 1986-01-01. A guide to Aldiss's fictional output from the 50s to the 80s. *Brian W. Aldiss* Paul Kincaid, 2022-07-12. Brian W. Aldiss wrote classic science fiction novels like *Report on Probability A* and *Hothouse*. *Billion Year Spree*, his groundbreaking study of the field, defined the very meaning of SF and delineated its history. Yet Aldiss's discomfort with being a guiding spirit of the British New Wave and his pursuit of mainstream success characterized a lifelong ambivalence toward the genre. Paul Kincaid explores the many contradictions that underlay the distinctive qualities of Aldiss's writing. Wartime experiences in Asia and the alienation that arose upon his return to the cold austerity of postwar Britain inspired themes and imagery that Aldiss drew upon throughout his career. He wrote of prolific nature, overwhelming humanity, believed war was madness, even though it provided him with the happiest period of his life, and found parallels in the static lives of Indian peasants and hidebound English society. As Kincaid shows, contradictions created tensions that fueled the metaphorical underpinnings of Aldiss's work and shaped not only his long

career but the evolution of postwar British science fiction
