International Negotiations: A Bibliography Amos Lakos,2019-02-22 The international system comprises a plurality of sovereign states often pursuing conflicting interests One means of resolving or managing conflicts between those states is diplomatic bargaining or negotiation In the last fifteen years the study of negotiation has attracted researchers from various disciplines in the social sciences and the vol Military Review ,1971 **National Security Affairs Monograph Series** ,1976 **The Law of Treaties** Scott Davidson,2017-07-05 The centrality of treaties to the international legal system requires little emphasis Not only is the treaty a source of law that the International Court of Justice ICJ is bound to apply when resolving international disputes but it is also the medium through which the vast preponderance of international legal intercourse is now conducted The essays contained in this informative volume disclose a wide variety of opinion on a broad range of issues concerning the conclusion application and termination of treaties **The Permanent Alliance** Williams,2024-09-02 **Soviet Strategy** John Baylis,Gerald Segal,2021-01-26 This book first published in 1981 is an analysis of the Soviet Union s military strategy taking in both sides of the hawks and doves views of the USSR s intentions It examines the Soviet approach to nuclear war defence and deterrence in the nuclear age and the calculation of risk in the use of the military instrument One of the main themes running through the chapters is that although the Soviet Union clearly does not view military issues in the same way as does the West their approach is not necessarily aggressive and dangerous in all respects *Nuclear Disarmament in International Law* Haralambos Athanasopoulos,2000-02-01 When German physicists Otto Hahn and Fritz Strassman first split the uranium atom in 1938 they might have little imagined the potential power their experiments had unleashed Since the United States successfully detonated the first atomic weapons in 1945 the entire world has lived in fear of annihilation Technological advances in weaponry and importantly their delivery systems have only heightened the sense of dread Yet since the end of World War II world governments have been unable to agree on a strategy for nuclear disarmament This led first to the Cold War and ultimately to the proliferation of nuclear weapons throughout the world This work examines the nuclear question within the framework of international law The advent of the nuclear age and

its impact on postwar peace and law is first covered This is followed by analyses of the initial United Nations disarmament initiatives and the reasons they were doomed from the start The globalization of the Cold War the expansion of the nuclear arms race and the START treaties and the legacy of 1970s era detente efforts in the years leading up to the end of the Cold War are then detailed How the United Nations reacted to the end of the Cold War and the prospects for disarmament in the 21st century are the subjects of the concluding section Arms Control and Disarmament ,1972 **1974 Annual Supplement** Joan Schmitz Bergholt,2013-12-21 Problems of Communism ,1975 **Arms Control and Disarmament** Library of Congress.
