Communal Justice in Shakespeare's England Penelope Geng, 2021-04-07 The sixteenth century was a turning point for both law and drama Relentless professionalization of the common law set off a cascade of lawyerly self-fashioning resulting in blunt attacks on lay judgment English playwrights including Shakespeare resisted the forces of legal professionalization by casting legal expertise as a detriment to moral feeling They celebrated the ability of individuals guided by conscience and working alongside members of their community to restore justice Playwrights used the participatory nature of drama to

deepen public understanding of and respect for communal justice In plays such as King Lear and Macbeth lay people accomplish the work of magistracy conscience structures legal judgment neighbourly care shapes the coroner's inquest and communal emotions give meaning to confession and repentance An original and deeply sourced study of early modern literature and law Communal Justice in Shakespeare's England contributes to a growing body of scholarship devoted to the study of how drama creates and sustains community Penelope Geng brings together a wealth of imaginative and documentary archives including plays sermons conscience literature Protestant hagiographies legal manuals and medieval and early modern chronicles proving that literature never simply reacts to legal events but always actively invents legal questions establishes legal expectations and shapes legal norms

When the Bad Bleeds Imke Pannen, 2010 Mantic elements are manifold in the English drama of the Renaissance period they are supernatural manifestations and have a prophetic future determining function within the dramatic plot which can be difficult to discern Addressing contemporaries of Shakespeare this study interprets a representative number of revenge tragedies among them The Spanish Tragedy The White Devil and The Revenger's Tragedy to draw general conclusions about the use of mantic elements in this genre The analysis of the cultural context and the functionalisation of mantic elements in revenge tragedy of the Elizabethan Jacobean and Caroline era show their essential function in the construction of the plot Mantic elements create and stimulate audience expectations They are not only rhetoric decorum but structural elements and convey knowledge about the genre the fate of which is determined by retaliation An interpretation of revenge tragedy is only possible if mantic providentialism is taken into account
