Shakespeares History Plays The Family And The State

Paul N. Siegel

Shakespeare's History Plays The Family And The State:

Shakespeare's History Plays: the Family and the State Robert B. Pierce, 1971 Pierce systematically examines the nine history plays of Shakespeare in the 1590s in the approximate sequence of their composition. He discovers in them a constant elaboration and rich development of the correspondence between the family and the state into an ever more subtle and effective dramatic technique. Through a careful analysis of the language, characterization and plots of the chronicles, Pierce demonstrates how the family served as an analogue of those grave events that marked the turbulent reign of King John and the subsequent terrible century of civil strife and wars with the French that haunted the imaginations of Englishmen more than a hundred years later. At times he finds Shakespeare depicts the family as a miniature of the kingdom and the life of the family becomes a direct or ironic comment on the larger life of the commonwealth. At others the family is inextricably bound up in a political situation by means of characters who are portrayed both in their public roles and as members of their families.

Shakespeare's history plays : the family and the state Robert B. Pierce, 1971 *Shakespeare's History Plays* Robert Watt, 2014-06-11 Shakespeare's history plays are central to his dramatic achievement. In recent years they have become more widely studied than ever, stimulating intensely contested interpretations due to their relevance to central contemporary issues such as English national identities and gender roles. Interpretations of the history plays have been transformed since the 1980s by new theoretically informed critical approaches. Movements such as New Historicism and cultural materialism, as well as psychoanalytical and post colonial approaches, have swept away the humanist consensus of the mid twentieth century with its largely conservative view of the plays. The last decade has seen an emergence of feminist and gender based readings of plays which were once thought overwhelmingly masculine in their concerns. This book provides an up to date critical anthology representing the best work from each of the modern theoretical perspectives. The introduction outlines the changing debate in an area which is now one of the liveliest in Shakespearean criticism. *The Definitive Shakespeare Companion* Joseph Rosenblum, 2017-06-22 This expansive four volume work gives students detailed explanations of Shakespeare's plays and poems and also covers his age, life, theater texts and language. Numerous excerpts from primary source historical documents contextualize his works while reviews of productions chronicle his performance history and reception. Shakespeare's works often served to convey simple truths but they are also complex, multilayered masterpieces. Shakespeare drew on varied sources to create his plays and while the plays are sometimes set in worlds before the Elizabethan age, they nonetheless parallel and comment on situations in his own era. Written with the needs of students in mind, this four volume set demystifies Shakespeare for today's readers and provides the necessary perspective and analysis students need to better appreciate the genius of his work. This indispensable ready reference examines Shakespeare's plots, language and themes, his use of sources and exploration of issues important to his age, the interpretation of his works through productions from the Renaissance to the present, and the critical reaction to key questions concerning his writings. The book

provides coverage of each key play and poems in discrete sections with each section presenting summaries discussions of themes characters language and imagery and clear explications of key passages Readers will be able to inspect historical documents related to the topics explored in the work being discussed and view excerpts from Shakespeare s sources as well as reviews of major productions The work also provides a comprehensive list of print and electronic resources suitable for student research

Shakespeare's English and Roman History Plays Paul N. Siegel,1986 Examines Shakespearean drama s Christian overtones explaining why they have been ignored for so long and how those overtones can influence one s interpretation of Shakespeare s work

Family Life in the Age of Shakespeare Bruce W. Young,2008-12-30 From the star crossed romance of Romeo and Juliet to Othello s misguided murder of Desdemona to the betrayal of King Lear by his daughters family life is central to Shakespeare s dramas This book helps students learn about family life in Shakespeare s England and in his plays The book begins with an overview of the roots of Renaissance family life in the classical era and Middle Ages This is followed by an extended consideration of family life in Elizabethan England The book then explores how Shakespeare treats family life in his plays Later chapters then examine how productions of his plays have treated scenes related to family life and how scholars and critics have responded to family life in his works The volume closes with a bibliography of print and electronic resources

The volume begins with a look at the classical and medieval background of family life in the Early Modern era This is followed by a sustained discussion of family life in Shakespeare s world The book then examines issues related to family life across a broad range of Shakespeare s works Later chapters then examine how productions of the plays have treated scenes concerning family life and how scholars and critics have commented on family life in Shakespeare s writings The volume closes with a bibliography of print and electronic resources for student research

Students of literature will value this book for its illumination of critical scenes in Shakespeare s works while students in social studies and history courses will appreciate its use of Shakespeare to explore daily life in the Elizabethan age

The Pragmatics of Early Modern Politics: Power and Kingship in Shakespeare's History Plays Urszula Kizelbach,2014-10-10 Early modern kings adopted a new style of government Realpolitik as spelled out in Machiavelli s writings Tudor monarchs well aware of their questionable right to the throne posed as great dissimulators similarly to the modern prince who must learn from the fox and the lion This book paints a portrait of a successful politician according to early modern standards Kingship is no longer understood as a divinely ordained institution but is defined as goal oriented policy making relying on conscious acting and the theatrical display of power The volume offers an intriguing discussion on kingship in pragmatic terms as the strategic face saving behaviour of Shakespeare s kings It also demonstrates how an efficient or inefficient management of the king s political face could decide his success or failure as a monarch and how the Renaissance world of Shakespeare s history plays is combined with modern theories of communication politeness and face Many studies in historical pragmatics or historical stylistics purport to expose language use in social context but they fall short when measured against this study The

author approaches Shakespeare with concepts from literary studies and linguistic pragmatics and weaves them together seamlessly with social history The result is a treasure trove of insights Jonathan Culpeper Lancaster University Exploring Machiavellian politics from the perspective of linguistic pragmatics and sociological role theory Urszula Kizelbach's study sheds interesting new light on Shakespeare's stage kings Her discussion of the strategic uses of polite speech is a particularly welcome addition to our thinking about Shakespeare's English history plays A promising new voice in European Shakespeare studies Andreas Hefele Munich University [Shakespeare the Playwright](#) Victor L. Cahn, 1996-03-30 When Victor Cahn's Shakespeare the Playwright was issued in 1991 it was highly recommended for any general public library and for academic collections at all undergraduate levels Choice and viewed as a useful guide for the general reader as well as high school and undergraduate students Library Journal Now Professor Cahn has revised his introduction to make the context of Shakespeare's plays more meaningful to the beginning researcher and to show how the plays have been performed from the 16th century onward In addition the bibliographies for each of the 37 plays have been updated to include the best new research These updates and revisions will enhance the use of this guide for the general reader student and researcher from high school onward Since their first production four centuries ago the plays of William Shakespeare have been the most widely produced popularly acclaimed and critically examined works in the world's literature In this unique book Victor L. Cahn an acclaimed teacher of drama guides the reader scene by scene through each of Shakespeare's thirty seven plays re-creating the freshness and theatrical effect of performance Cahn has based his approach on the assumption that the fundamental appeal of Shakespeare's plays lies in the characters and with clarity and subtlety he focuses on how the implications of the characters' actions and the nuances of their language contribute to the plays' impact The introduction briefly traces Shakespeare's life and career and explains some of the social and artistic circumstances that influenced his work The plays are grouped by genre Tragedies Histories Comedies and Romances This structure allows Cahn to explore Shakespeare's development in all four dramatic forms as well as to suggest relationships between characters themes and images throughout the works In addition Cahn discusses the plays as reflective of Shakespeare's age particularly the Renaissance concern with the tension between individual rights and social responsibility The text is free from extensive scholarly apparatus but valuable suggestions for further reading follow the analysis of each play and a selected bibliography concludes the volume The comprehensiveness of the book as well as the accessibility and quality of its interpretations make it a valuable resource for courses in Shakespeare drama and British literature and a worthy addition to high school college university and public library reference collections **William Shakespeare: Oxford Bibliographies Online Research Guide** David Bevington, 2010-06-01 This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading

international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related This ebook is a static version of an article from Oxford Bibliographies Online Renaissance and Reformation a dynamic continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of European history and culture between the 14th and 17th centuries Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit www.oxfordbibliographies.com

Theater and World Jonathan Hart, 2021-11-26 First published in 1992 Theater and World is a detailed exploration of Shakespeare's representation of history and how it affects the relation between theatre and world The book focuses primarily on the Second Tetralogy Richard II Henry IV Part I Henry IV Part II and Henry V and includes a wealth of analysis and interpretation of the plays In doing so it explores a wide range of topics including the relation between literary and theatrical representations and the world the nature of illusion and reality genre the connection between history and fiction especially plays historiography and literary criticism or theory poetry and philosophy and irony both rhetorical and philosophical Theater and World continues to have lasting relevance for anyone with an interest in Shakespeare's words and his representation of history in particular
