Shame Management Through Reintegration:

Shame Management Through Reintegration Eliza Ahmed, 2001-10-15 This 2001 book is a follow on to John Braithwaite's best selling and influential *Crime Shame and Reintegration*. Shame management is becoming a central concept in theoretical and practical terms. This book makes a major contribution to the advancement of shame in a theoretical sense. For criminology as well as for psychology, sociology and other areas, this accessible book serves as an introduction to the concepts of shame, guilt and embarrassment. Presenting research by the Restorative Justice Centre at the Australian National University, the book contributes immeasurably to the development of practical alternatives to common sanctions in an effort to reduce crime and other social problems. Written by the key exponents of restorative justice, the book is an important re-statement of the theory and practice of shaming. It will develop important and often controversial debates about punishment, shaming and restorative justice to a new level.

Repositioning Restorative Justice Lode Walgrave, 2012-12-06 Restorative justice has become an increasingly important element in reform and change to criminal justice systems throughout the western world and there are many reasons for satisfaction with the progress that has been made from the point of view of victims, offenders, the level and incidence of reoffending and in terms of public opinion. At the same time there has been cause for concern, not least to do with the confusion on aims that has accompanied the rapid spread of restorative justice practices, an over estimate of its possibilities, a blurring of concepts and a lack of attention to legal rights and processes. This book, based on papers presented at the 5th international conference held at Leuven, Belgium in 2002, aims to provide an overview of recent experience of restorative justice in the light of these concerns. The central theme is the positioning or repositioning of restorative justice in contexts where it can offer hope to communities both fearful of crime and looking for more socially constructive responses to crime. At the same time, restorative justice practitioners seek definition in relation to the kinds of crime it is appropriate to apply restorative justice to, how it relates to different forms of punishment, to rehabilitation and how it fits in with criminal justice systems and the law of different countries, how to reconcile the informal participatory philosophy of restorative justice with formal legal processes and the need for legal safeguards.

Handbook of Restorative Justice Dennis Sullivan, Larry Tifft, 2007-05-07 *Handbook of Restorative Justice* is a collection of original, cutting edge essays that offer an insightful and critical assessment of the theory, principles and practices of restorative justice around the globe. This much awaited volume is a response to the cry of students, scholars and practitioners of restorative justice for a comprehensive resource about a practice that is radically transforming the way the human community responds to loss, trauma and harm. Its diverse essays not only explore the various methods of responding nonviolently to harms done by persons, groups, global corporations and nation states but also examine the dimensions of restorative justice in relation to criminology, victimology, traumatology and feminist studies. In addition, they contain prescriptions for how communities might re-structure their family, school and workplace life according to restorative values.

This Handbook is an essential tool for every serious student of criminal social and restorative justice Encyclopedia of Victimology and Crime Prevention Bonnie S. Fisher, Steven P.
