Megan Faragher,2021-08-19 Whereas modernist writers lauded the consecrated realm of subjective interiority mid century writers were engrossed by the materialization of the collective mind An obsession with group thinking was fuelled by the establishment of academic sociology and the ubiquitous infiltration of public opinion research into a bevy of cultural and governmental institutions As authors witnessed the materialization of the once opaque realm of public consciousness for the first time their writings imagined the potentialities of such technologies for the body politic Polling opened new horizons for mass politics *Public Opinion Polling in Mid Century British Literature* traces this most crucial period of group psychology s evolution the mid century when psychography a term originating in Victorian spiritualism transformed into a scientific praxis The imbrication of British writers within a growing institutionalized public opinion infrastructure bolstered an aesthetic turn towards collectivity and an interest in the political ramifications of meta psychological discourse Examining works by H G Wells Evelyn Waugh Val Gielgud Olaf Stapledon Virginia Woolf Naomi Mitchison Celia Fremlin Cecil Day Lewis and Elizabeth

To Come H.G. Wells, 2017-06-08 When Dr Philip Raven a diplomat working for the League of Nations dies in the 1930s he leaves behind a book of dreams outlining the visions he has been experiencing for many years These visions seem to be glimpses into the future detailing events that will occur on Earth for the next two hundred years This fictional history of the future proved prescient in many ways as Wells predicted events such as the Second World War the rise of chemical warfare climate change and the growing instability of the Middle East **Things to Come** Christopher Frayling, 2019-07-25 The release of *Things to Come* in 1936 was one of the key moments in the history of science fiction in the cinema The film was the brainchild of H G Wells whose worldwide reputation as a thinker had persuaded its producer Alexander Korda to offer him a contract giving him virtually total control over the project Korda drafted a dazzling array of talents to render into pictures Wells s ideas of the future a hundred years hence His brother Vincent Korda a distinguished painter was employed as art director and the Bauhaus artist Laszlo Moholy Nagy contributed ideas for futuristic sets As director Korda hired William Cameron Menzies who had practically invented the profession of Hollywood art director through his work with Douglas Fairbanks on *The Thief of Baghdad* and Rudolf Valentino on *Son of the Sheik* and whose career would climax with *Gone With the Wind* The result was a landmark in cinematic design Christopher Frayling shows with a wealth of illustrations how the boldness and brilliance of the sets and costumes mark out *Things to Come* as British cinema s greatest contribution to the science fiction genre amply justifying his judgement that *Things to Come* is to modernism as *Blade Runner* is to postmodernism *H.G. Wells and the Twenty-First Century* Bill Cooke, 2023-09-15 H G Wells has been branded as a novelist who betrayed his vocation But Wells saw himself as what we would today call a public intellectual How credible is this claim And what happens when we look at him in this way So typecast has Wells s reputation become that neither of these questions has been previously asked but when we look at Wells as a thinker we find a whole new quality to his later works which have invariably been dismissed by literary scholars as of low quality or even not worth reading In particular Wells s prescience as a prophet of our current environmental problems stands out for example he foresaw anthropogenic climate change as early as 1931 Popular conceptions of Wells as racist imperialist and eugenicist are also challenged What emerges is a new perspective on a significant public intellectual and pioneering prophet of the twenty first century
