Turner, 2014-06-01 Volume 1 The History and Practice of Indigenous Plant Knowledge Volume 2 The Place and Meaning of Plants in Indigenous Cultures and Worldviews Nancy Turner has studied Indigenous peoples knowledge of plants and environments in northwestern North America for over forty years In Ancient Pathways Ancestral Knowledge she integrates her research into a two volume ethnobotanical tour de force Drawing on information shared by Indigenous botanical experts and collaborators the ethnographic and historical record and from linguistics palaeobotany archaeology phytogeography and other fields Turner weaves together a complex understanding of the traditions of use and management of plant resources in this vast region She follows Indigenous inhabitants over time and through space showing how they actively participated in their environments managed and cultivated valued plant resources and maintained key habitats that supported their dynamic cultures for thousands of years

as well as how knowledge was passed on from generation to generation and from one community to another To understand the values and perspectives that have guided Indigenous ethnobotanical knowledge and practices Turner looks beyond the details of individual plant species and their uses to determine the overall patterns and processes of their development application and adaptation Volume 1 presents a historical overview of ethnobotanical knowledge in the region before and after European contact The ways in which Indigenous peoples used and interacted with plants for nutrition technologies and medicine are examined Drawing connections between similarities across languages Turner compares the names of over 250 plant species in more than fifty Indigenous languages and dialects to demonstrate the prominence of certain plants in various cultures and the sharing of goods and ideas between peoples She also examines the effects that introduced species and colonialism had on the region s Indigenous peoples and their ecologies Volume 2 provides a sweeping account of how Indigenous organizational systems developed to facilitate the harvesting use and cultivation of plants to establish economic connections across linguistic and cultural borders and to preserve and manage resources and habitats Turner describes the worldviews and philosophies that emerged from the interactions between peoples and plants and how these understandings are expressed through cultures stories and narratives Finally she explores the ways in which botanical and ecological knowledge can be and are being maintained as living adaptive systems that promote healthy cultures environments and indigenous plant populations Ancient Pathways Ancestral Knowledge both challenges and contributes to existing knowledge of Indigenous peoples land stewardship while preserving information that might otherwise have been lost Providing new and captivating insights into the anthropogenic systems of northwestern North America it will stand as an authoritative reference work and contribute to a fuller understanding of the interactions between cultures and ecological systems **Governing**

the Sacred Yuval Jobani,Nahshon Perez,2020 Holy sites are often at the center of intense contestation between different groups regarding a wide variety of issues including ownership access usage rights permissible religious conduct and many others They are often the source intractable long standing conflicts and extreme violence These difficulties are exemplified by the five sites profiled in Governing the Sacred Devils Tower National Monument Wyoming US Babri Masjid Ram Janmabhoomi Uttar Pradesh India the Western Wall Jerusalem the Church of the Holy Sepulchre Jerusalem and the Temple Mount Haram esh Sharif Jerusalem Telling the fascinating stories of these high profile contested sites the authors develop and critically explore five different models of governing such sites non interference separation and division preference status quo and closure Each model relies on different sets of considerations central among them are trade offs between religious liberty and social order This novel typology aims to assist democratic governments in their attempt to secure public order and mutual toleration among opposed groups in contested sacred sites Forest Communities in the Third Millennium

,2001 **Women of the Wall** Yuval Jobani,Nahshon Perez,2017-06-01 The Women of the Wall are leading a groundbreaking struggle to gain the Israeli authorities permission to pray according to their manner at Judaism s holiest

prayer site the Western Wall This book is the first comprehensive academic study of their struggle placing it in a comparative and theoretical context of wider religion state conflicts and models **Earth Matters** Ciaran O'Faircheallaigh, Saleem Ali, 2017-09-08 Indigenous peoples have historically gained little from large scale resource development on their traditional lands and have suffered from its negative impacts on their cultures economies and societies During recent decades indigenous groups and their allies have fought hard to change this situation in some cases by opposing development entirely in many others by seeking a fundamental change in the distribution of benefits and costs from resource exploitation In doing so they have utilised a range of approaches including efforts to win greater recognition of indigenous rights in international fora pressure for passage of national and state or provincial legislation recognising indigenous land rights and protecting indigenous culture litigation in national and international courts and direct political action aimed at governments and developers often in alliance with non governmental organisations NGOs At the same time and partly in response to these initiatives many of the corporations that undertake large scale resource exploitation have sought to address concerns regarding the impact of their activities on indigenous peoples by adopting what are generally referred to as corporate social responsibility CSR policies This book focuses on such corporate initiatives It does not treat them in isolation recognising that their adoption and impact is contextual and is related both to the wider social and political framework in which they occur and to the activities and initiatives of indigenous peoples It does not treat them uncritically recognising that they may in some cases consist of little more than exercises in public relations However neither does it approach them cynically recognising the possibility that even if CSR policies and activities reflect hard headed business decisions and indeed perhaps particularly if they do so they can generate significant benefits for indigenous peoples if appropriate accountability mechanisms are in place In undertaking an in depth analysis of CSR and indigenous peoples in the extractive industries the book seeks to answer the following questions What is the nature and extent of CSR initiatives in the extractive industries and how should they be understood What motivates companies to pursue CSR policies and activities How do specific political social and legal contexts shape corporate behaviour What is the relationship between indigenous political action and CSR How and to what extent can corporations be held accountable for their policies and actions Can CSR help bring about a fundamental change in the distribution of benefits and costs from large scale resource exploitation and if so under what conditions can this occur Earth Matters gathers key experts from around the world who discuss corporate initiatives in Alaska Ecuador Australia Canada Peru Papua New Guinea Indonesia and Russia The book explores the great diversity that characterises initiatives and policies under the name of corporate social responsibility the highly contingent and contextual nature of corporate responses to indigenous demands and the complex and evolving nature of indigenous corporate relations It also reveals much about the conditions under which CSR can contribute to a redistribution of benefits and costs from large scale resource development Earth Matters will be essential reading for those working in and studying the extractive industry

worldwide as well as those readers looking for a state of the art description of how CSR is functioning in perhaps its most difficult setting **Keeping it Living** Douglas Deur, Nancy J. Turner, 2005 The European explorers who first visited the Northwest Coast of North America assumed that the entire region was virtually untouched wilderness whose occupants used the land only minimally hunting and gathering shoots roots and berries that were peripheral to a diet and culture focused on salmon Colonizers who followed the explorers used these claims to justify the displacement of Native groups from their lands Scholars now understand however that Northwest Coast peoples were actively cultivating plants well before their first contact with Europeans This book is the first comprehensive overview of how Northwest Coast Native Americans managed the landscape and cared for the plant communities on which they depended Bringing together some of the world s most prominent specialists on Northwest Coast cultures Keeping It Living tells the story of traditional plant cultivation practices found from the Oregon coast to Southeast Alaska It explores tobacco gardens among the Haida and Tlingit managed camas plots among the Coast Salish of Puget Sound and the Strait of Georgia estuarine root gardens along the central coast of British Columbia wapato maintenance on the Columbia and Fraser Rivers and tended berry plots up and down the entire coast With contributions from ethnobotanists archaeologists anthropologists geographers ecologists and Native American scholars and elders Keeping It Living documents practices many unknown to European peoples that involve manipulating plants as well as their environments in ways that enhanced culturally preferred plants and plant communities It describes how indigenous peoples of this region used and cared for over 300 different species of plants from the lofty red cedar to diminutive plants of backwater bogs Nature Canada , 1999
