The European Roots of Canadian Identity Philip Resnick,2005-04-01 What makes Canada a different kind of society from the United States In this book length essay Philip Resnick argues that in more ways than one Canada has been profoundly marked by its European origins This is most apparent where the European historical underpinnings both of English speaking and French speaking Canada are concerned but it is no less true when one examines Canada s multiple national identities robust social programs increasingly secular values and multilateral outlook on international affairs today As the war in Iraq brought home and the 2004 federal election reinforced Canada is a more European type society than is our neighbour to the south This does not come without its own complexities or problems On the contrary there are significant parallels between the ambiguous versions of national identity that one finds in Canada and what one finds on the European continent There are parallels too between the elements of self doubt that characterize

Canadians overall when they think about their country and those of Europeans caught up in their own often fractious attempts to forge a more integrated Europe The author argues that Canada needs Europe as an effective counter weight to the influence of the United States He further argues that at a deeper existential level Canadians need relevant European references to better understand what makes them the kind of North Americans that they are *Making Sense of the Canadian Charter of Rights and Freedoms* Jonathan L. Black-Branch, Canadian Education Association, 1995 The purpose of this guide is to provide a user friendly handbook to inform school administrators and teachers about the Canadian Charter of Rights and Freedoms highlighting some of its more prevalent implications for educational practice The guide begins with a brief introduction to the Charter followed by a synopsis of the pertinent rights and freedoms The text then focuses on ten main concerns under the Charter and how they relate to both denominational and non denominational schools and school systems throughout Canada The sections of the guide cover legal religious equality and minority language rights plus rights relating to special education and school attendance Where applicable each section presents true to life case scenarios which highlight suggestions for dealing with those and similar situations
