Bibliographical Note [The First World War and Its Aftermath](#) T. G Fraser, T.G. Fraser, 2015-09-15 Think of a map of World War I and chances are that map will be of Europe but the First World War had just as heavy an impact on the Middle East shaping the region into what we know it as today This book gathers together leading scholars in the field to examine this impact which is crucial to understanding the region's current problems and the rise of groups like the Islamic State In addition to recounting the crucial international politics that drew fierce lines in the sands of the Middle East a story of intrigue between the British Russians Ottomans North Africans Americans and others the contributors engage topics ranging from the war's effects on women the experience of the Kurds sectarianism the evolution of Islamism and the importance of prominent intellectuals like Ziya G kalp and Michel Aflaq They examine the dissolution of the Ottoman empire the exploitation of notions of Islamic unity and pan Arabism the influences of Woodrow Wilson and American ideals on Middle East leaders and likewise the influence of Vladimir Lenin's vision of a communist utopia Altogether they tell a story of promises made and promises broken of the struggle between self determination and international recognition of centuries old empires laying in ruin and of the political poker of the twentieth century that carved up the region separating communities into the artificial states we know today

[Passion for Islam](#) Caryle Murphy, 2002-10-22 Islam's revival is reshaping Egypt and other Arab countries in ways beyond violent politics The yearning for personal solace a just political system indigenous lifestyles and relevant theology all await satisfaction Just as the Nile runs through Egypt for almost eight hundred miles giving it life so also the Straight Way the way of Allah runs through it beckoning its people The search by Egypt's Muslims for a modern understanding of the Straight Way is the essence of today's passion for Islam from Chapter 1 First Verses Written by a Pulitzer Prize winning journalist this authoritative and enthralling primer on the modern face of

Islam provides one of the most comprehensive accountings for the roots of religious terrorism and Middle Eastern strife. Over decades a myriad of social, political, and religious factors has made today's Middle East a combustible region and has contributed to Islam's new power and turmoil. *Passion for Islam* uses one particular country, Egypt, as a lens through which to show how these forces play out across the area, allowing terrorism to gain a foothold. Through the personal experiences and observations of individual Egyptians encountered during her five years as the Washington Post's Cairo bureau chief, veteran journalist Caryle Murphy explores how Islam's contemporary revival is unfolding on four different levels. Pious Islam highlights the groundswell of grassroots piety that has created more Islamic societies. Political Islam examines how Islamists, using both violent and peaceful means, are reshaping the region's authoritarian secular political order and redefining Islam's role in the public arena. Cultural Islam looks at Egyptian efforts to resist a ubiquitous Western culture by asserting an Islamic identity. Thinking Islam reveals how intellectuals are reexamining their theological heritage with the aim of modernizing Islam. Representing years of exhaustive research, *Passion for Islam* also looks at how the tortured Israeli-Palestinian conflict has contributed to the region's religious ferment and political tumult. By revealing the day-to-day ramifications of all these issues through the eyes of Egyptian intellectuals, holy men, revolutionaries, and ordinary citizens, *Passion for Islam* brings an unparalleled vitality and depth to Western perceptions of Middle Eastern conflict.

[Islam and Politics in the Middle East](#)
Mark Tessler, 2015-06-22

Some of the most pressing questions in the Middle East and North Africa today revolve around the proper place of Islamic institutions and authorities in governance and political affairs. Drawing on data from 42 surveys carried out in fifteen countries between 1988 and 2011, representing the opinions of more than 60,000 men and women, this study investigates the reasons that some individuals support a central role for Islam in government while others favor a separation of religion and politics. Utilizing his newly constructed Carnegie Middle East Governance and Islam Dataset, which has been placed in the public domain for use by other researchers, Mark Tessler formulates and tests hypotheses about the views held by ordinary citizens, offering insights into the individual and country-level factors that shape attitudes toward political Islam.

The Clergy and the Modern Middle East Mohammad R. Kalantari,2021-09-23 The Shi i clergy are amongst the most influential political players in the Middle East For decades scholars and observers have tried to understand the balance of power between Shi i quietism and activism The book is based on exclusive interviews with high profile Shi i clerics in order to reveal how the Shi i clerical elite perceives its role and engages in politics today The book focuses on three ground breaking events in the modern Middle East the 1979 Islamic Revolution in Iran the 2003 Iraq War and the 2006 July war in Lebanon By examining the nature and evolution of a Shi i clerical network the book finds that far from there being strategic differences between quietest and activist clerics Shi i mujtahid statesmen matured from 1979 in Iran to 2003 Iraq by way of a pragmatism which led to a strong form of transnational and associated whole in Lebanon in 2006 In doing so the book breaks down the established and misleading dichotomisation of the Shi i clergy into quietists and activists and discovers that the decision of Shi i clerical elites to become politically active or to stay out of politics are attributable to their ability to adapt to their political environments

for the destiny of empires and nations Over the course of the nineteenth and early twentieth centuries European empires fought for influence and control over this cradle of civilization empire and monuments and local powers and people in the Middle East worked with and against these historical and heritage frameworks in their own quests for self determination In this volume contributors from the fields of history archaeology and heritage explore how historical consciousness about the Middle East was contested in the nineteenth and early twentieth century through excavation and interpretation of the past Chapters span West Asia and North Africa covering Turkey Iraq Iran Syria Lebanon Israel Palestine Egypt and Tunisia and the imperial history of Britain France Germany and the Ottoman Empire The result is an original contribution to our understanding of the origins and influence of Middle Eastern archaeology which resonates today in contemporary discussions on heritage discourses and practices
