Utopianism for a Dying Planet Gregory Claeys,2024-12-10 How the utopian tradition offers answers to today s environmental crises In the face of Earth s environmental breakdown it is clear that technological innovation alone won t save our planet A more radical approach is required one that involves profound changes in individual

and collective behavior Utopianism for a Dying Planet examines the ways the expansive history of utopian thought from its origins in ancient Sparta and ideas of the Golden Age through to today's thinkers can offer moral and imaginative guidance in the face of catastrophe The utopian tradition which has been critical of conspicuous consumption and luxurious indulgence might light a path to a society that emphasizes equality sociability and sustainability Gregory Claeys unfolds his argument through a wide ranging consideration of utopian literature social theory and intentional communities He defends a realist definition of utopia focusing on ideas of sociability and belonging as central to utopian narratives He surveys the development of these themes during the eighteenth and nineteenth centuries before examining twentieth and twenty first century debates about alternatives to consumerism Claeys contends that the current global warming limit of 1.5C (2.7F) will result in cataclysm if there is no further reduction in the cap In response he offers a radical Green New Deal program which combines ideas from the theory of sociability with proposals to withdraw from fossil fuels and cease reliance on unsustainable commodities An urgent and comprehensive search for antidotes to our planet's destruction Utopianism for a Dying Planet asks for a revival of utopian ideas not as an escape from reality but as a powerful means of changing it The Promise of Paradise Andrew Scott, 2017-03-25 The West has long attracted visionaries and schemers from around the world And no other region in North America can outstrip British Columbia for the number of utopian or intentional settlement attempts in the past 150 years Andrew Scott delves into the dramatic stories of these fascinating but often doomed communities From Doukhobor farmers to Finnish coal miners Quakers and hippies many groups have struggled to build idealistic colonies in BC's inspiring landscape While most discovered hardship disillusionment and failure new groups sprang up and continue to spring up to take their place Meet the quick tempered slave driving Madame Zee partner of the infamous Brother XII who reportedly beat followers with a riding crop Hear from Richard The Troll Schaller who founded the Legal Front Commune General Store and Funny Food Farm on the Sunshine Coast setting off a storm of hostility from locals Congregate with Jerry LeBourdais and fellow members of the Ochiltrie Organic Commune who rebelled from hippie communes by embracing meat eating and coffee drinking With careful research and engaging first person accounts Scott sifts through the wreckage of the utopia seekers dreams and delves into the practices and philosophies of contemporary intentional communities This book is a compendium of astounding misadventures as well as an intriguing analysis of what moves people to search for paradise **Communities Directory** Fellowship for Intentional Community, 2000 An international community is made up of a group of people who live or work together in pursuit of a common ideal or vision This guide includes more than 700 listings of communities around the world maps of those located in North America 33 illustrated articles about community living a resources section with indices and more
