Sharks Popup:

Sharks Gene Helfman, George H. Burgess, 2014-05-15 Do sharks lay eggs or give birth to live young Do sharks sleep How long do they live How likely are shark attacks This book answers your questions about some of nature's most misunderstood animals Answering every conceivable question about sharks authors Gene Helfman and George H Burgess describe the fascinating biology behavior diversity there are more than 1 000 species worldwide and cultural importance of sharks their close relationship to skates and rays and their critical role in healthy ecosystems Helfman and Burgess take readers on a round the world tour of shark habitats which include oceans as well as lakes and even rivers as far up the Mississippi as St Louis They describe huge ferocious predators like Great White and Tiger sharks and species such as Basking and Whale sharks that feed on microscopic prey yet can grow to lengths of more than 40 feet The mysterious and powerful Greenland shark the authors explain reaches a weight of 2 200 pounds on a diet of seal flesh Small less than 2 foot long Cookiecutter sharks attack other sharks and even take a chunk out of the occasional swimmer Despite our natural fascination with sharks we have become their worst enemy Many shark species are in serious decline and a number are threatened with extinction as a result of overfishing and persecution *Sharks The Animal Answer Guide* presents a perfect mix of current science history anthropology intriguing facts and gripping photographs Whether your fascination with sharks stems from fear or curiosity your knowledge of these animals will improve immensely when you consult this book

Movement and Connectivity of Large Pelagic Sharks Mark Meekan, J. Marcus Drymon, David Wells, Clive N. Trueman, Yannis Peter Papastamatiou, Johann Mourier, 2023-09-08 *Shark Attacks* Blake Chapman, 2017-11-01 Humans spend more time in or on the water than ever before We love the beach But for many people getting in the water provokes a moment's hesitation Shark attacks are big news events and although the risk of shark attack on humans is incredibly low the fact remains that human lives are lost to sharks every year *Shark Attacks* explores the tension between risk to humans and the need to conserve sharks and protect the important ecological roles they play in our marine environments Marine biologist Blake Chapman presents scientific information about shark biology movement patterns and feeding behaviour She discusses the role of fear in the way we think about sharks and the influence of the media on public perceptions Moving first hand accounts describe the deep and polarising psychological impacts of shark attacks from a range of perspectives This book is an education in thinking through these emotive events and will help readers to navigate the controversial issues around mitigating shark attacks while conserving the sharks themselves

Pop-Up Books Nancy Larson Bluemel, Rhonda Harris Taylor, 2012-02-02 A convincing explanation of why interactive or movable books should be included in the library collection that documents their value as motivational instructional tools in all areas of the school curriculum across many grade levels Pop up books possess universal appeal Everyone from preschoolers to adults loves to see and tactilely experience the beautiful three dimensional work of Robert Sabuda David A Carter and other pop up book creators Sabuda himself was inspired to become a pop up book artist

after experiencing the 1972 classic pop up The Adventures of Super Pickle The effect of these movable books on young minds is uniquely powerful Besides riveting children s attention pop up books can also help build motor skills teach cause and effect and develop spatial understanding of objects Based on their direct experience and many presentations to teachers and librarians the authors have provided template lesson plans with curriculum and standards links for using the best pop up books currently available in the instructional program of the school The book also includes profiles of the most notable authors a history of the format definitions of terms such as flap book and paper engineer and information on how to create movable books Librarians will find the section regarding collection development with the format how and where to acquire them proper storage methods and the annotated listing of the authors 50 favorite pop ups extremely helpful
