cultural sciences based on symbolic forms Given that the colossal amount of information and knowledge of philosophy arts humanities logic mathematics social sciences and natural sciences cannot be comprised analyzed and comprehended per se it is the organon's objective to extract the main principles ideas postulates theorems and theories of the cultural sciences and subsequently to shape and restructure them as symbolic forms Since all these principles are grounded on Becoming which is not a stable or fixed entity such as Being substance or thing the symbolic forms preserve and change elevate and further the organon of the cultural sciences via a critical dialectical process
