Shedding And Literally Dreaming:

Shedding and Literally Dreaming Verena Stefan, 1994 A A A This volume brings together prose from three decades of writing by Verena Stefan one of the most influential contemporary feminist writers in the world A A A The original 1975 German publication of *Shedding* a novella that narrates the radical transformation of a young woman against the backdrop of the early 1970s women's civil rights and health care movements created such a stir that the work has been hailed as the feminist equivalent to Mao's little red book To date over 300 000 copies of *Shedding* have been sold in Germany Included here is the first English translation of *Literally Dreaming* a delightful collection of eight stories written in the 1980s drawing a portrait of life as the narrator of *Shedding* may have envisioned it women living together in natural and rural settings independent of men Stefan has written for this volume a new essay *Euphoria and Cacophony* which traces the extraordinary reception and backlash that greeted *Shedding* in the 1970s and the effect on her both as a writer and as a symbol of the German women's movement A A A In resonant prose and with a refreshing honesty Stefan speaks to the universality of women's lives a concept popular in the 1970s and 1980s and ripe for re discussion now in the 1990s Stefan was a pioneer in experimental writing before the phrase was coined and her writing about women's lives is as immediate today as when it first exploded on the German literary scene A A A

The Women's Liberation Movement Kristina Schulz, 2017-07-01 For over half a century the countless organizations and initiatives that comprise the Women's Liberation movement have helped to reshape many aspects of Western societies from public institutions and cultural production to body politics and subsequent activist movements This collection represents the first systematic investigation of WLM's cumulative impacts and achievements within the West Here specialists on movements in Europe systematically investigate outcomes in different countries in the light of a reflective social movement theory comparing them both implicitly and explicitly to developments in other parts of the world

A History of Women's Writing in Germany, Austria and Switzerland Jo Catling, 2000-03-23 This volume makes the wide ranging work of German women writers visible to a wider audience It is the first work in English to provide a chronological introduction to and overview of women's writing in German speaking countries from the Middle Ages to the present day Extensive guides to further reading and a bibliographical guide to the work of more than 400 women writers form an integral part of the volume which will be indispensable for students and scholars of German literature and all those interested in women's and gender studies

Sexual Culture in Germany in the 1970s Janin Afken, Benedikt Wolf, 2019-12-11 This book is the first attempt to present a comprehensive picture of LGBT culture in the two German states in the 1970s Starting from the common view of the decade between the moderation of the German anti sodomy law in 1968 East and 1969 West and the first documented case of AIDS 1982 as a golden age for queer politics and culture this edited collection traces the way this impression has been shaped by cultural production The chapters ask What exactly made the 1970s a legendary decade What was its revolutionary potential and what were its path breaking political and aesthetic

strategies Which elements movements and memories had to be marginalized in order to facilitate the historical construction of the legendary decade Exploring the complex picture of gay lesbian and to a lesser extent trans cultures from this time the volume provides fascinating insights into both canonized and marginalized texts and films from and about the decade *The Pragmatics of Literary Testimony* Chantelle Warner,2013 In this book Warner examines a number of German language literary autobiographies that are connected to diverse social movements of the last forty years These books have all received critical attention from the popular press topped bestseller lists and have been pivotal in discussions of authenticity subjectivity and referentiality Because of the thematic diversity of these works scholars within literary and cultural studies have tended to treat them separately under topical categories such as women s literature the post war generation migration and multiculturalism etc Underlying Warner s analysis is the belief that the social construction of autobiographical acts is as much a matter of textuality as it is of topicality i e how language means rather than what it means and that a pragmatic stylistic approach is well suited to describing how literary autobiographies come to function as testimonies to certain collective experiences By presenting a model for an integrative stylistics approach *The Pragmatics of Literary Testimony* participates in current discussions within fields of literary linguistic scholarship as well as autobiographical theory In its analysis of key examples of German social testimonies from the late twentieth century this book incorporates insights from discourse analysis pragmatics cognitive poetics and sociolinguistics in order to demonstrate that this diverse body of works constitutes a particular form of textual practice defined by what the author calls authenticity effects feelings of realism immediacy exemplarity genuineness and social relevance Such a study of authenticity as a poetic effect can help us to better understand the testimonial glamour owned by various types of autobiographical narration
