Sheila Power:

Doing Practitioner Research Mark Fox, Gill Green, Peter Martin, 2007-03-21 Doing Practitioner Research focuses on helping practitioners conduct research in their own organisations and attention is given to the best methods for doing this effectively and sensitively. The authors also attend to the theoretical, political and organisational context of doing research as well as addressing the ethical and practical issues of undertaking research. The authors cover in detail the range of skills and techniques necessary to make a successful start to the process of becoming an effective practitioner researcher. This is an ideal text for growing number of practitioners working in health education and social care who are undertaking research. Fox et al have provided the perfect introduction to why practitioners are in the unique position to conduct research that actually improves professional practice. This book will be essential reading for those professionals/practitioners engaged in research in their own organisation or undertaking a post graduate qualification in Health, Social Care or Education. All the Power in the World Peter K. Unger, 2006 Unger provocatively breaks with what he terms the conservatism of present day philosophy and returns to central themes from Descartes, Locke, Hume and others. He sets out to answer profoundly difficult human questions about ourselves and the world in this philosophical journey into the nature of reality. Possession, Power and the New Age Mr Matthew Wood, 2013-05-28 This book provides a new sociological account of contemporary religious phenomena such as channelling, holistic healing, meditation and divination which are usually classed as part of a New Age Movement. Drawing on his extensive ethnography carried out in the UK alongside comparative studies in America and Europe, Matthew Wood criticises the view that such phenomena represent spirituality in which self authority is paramount. Instead, he emphasises the role of social authority and the centrality of spirit possession, linking these to participants' class positions and experiences of secularisation. Informed by sociological and anthropological approaches to social power and practice, especially the work of Pierre Bourdieu and Michel Foucault, Wood's study explores what he calls the nonformative regions of the religious field and charts similarities and differences with pagan spiritualist and Theosophical traditions. Creative Writing Studies Graeme Harper, Jeri Kroll, 2008 Here creative writers who are also university teachers monitor their contribution to this popular discipline in essays that indicate how far it has come in the USA, the UK and Australia. **Local Time: a memoir of cities, friendships and the writing life** Inez Baranay, 2015-06-09 One last look at Europe that was the idea behind a 3 month trip in 2006. The weather was always good and that 3 months led to a life of unanchored travels for years moving among countries and continents. In *Local Time: a memoir of cities, friendships and the writing life* New York, London, Bristol, Amsterdam, Berlin, Prague, Barcelona all have a chapter devoted to them and Rome has more. Other chapters explore themes like sexuality, Europe, identity among hybrids and hyphens, family secrets, the self-fiction, creating ageing beginnings, the history of friendships and a life in which writing has been the centre. Known for her stylish, provocative work, the author has once more gone in new directions in this memoir. Possession, Power and the New Age Matthew

Hajer,Jeroen Oomen,2025-05-14 Environmental politics as we know it cannot deliver Despite all efforts politics is unable to bend the ecological trends Maarten A Hajer and Jeroen Oomen argue that this is because environmental politics is captured This capture doesn t just express itself in lobbying or a lack of political will but in a capture of the imagination we seem unable to imagine futures that are meaningfully different from the present Examining environmental politics as drama reveals how all actors play their particular roles in this capture scientists funnel narrow policy futures through their models activists adopt politically expedient language and policymakers look for safe technologically sound win win solutions All are captured in a regime of ecological modernization that entertains too narrow a solution space For Hajer and Oomen this is cause for concern we have entered a radical age in which persistent policy failure leads to increased suggestions to engage with speculative geoengineering technologies in a desperate attempt to safeguard the future On the other hand they point at the growing societal backlash against environmental policies Yet in the third part of the book discourse and dramaturgical analysis appear as a reason for hope sketching an alternative perspective on environmental politics It suggests that a new more cultural approach to environmental politics could have more leverage on the societal imagination Combining this with the formulation of new discourses and using alternative dramaturgies of change **Captured Futures** highlights how to find more effective and more inspiring ideas about how to approach the future and ultimately liberate environmental politics **Personnel Literature** ,1983 *Empowerment Practice with Families in Distress* Judith Bula Wise,2005-02-05 This book integrates time honored approaches to empowerment practice with today s more modest goals mindful of what empowerment can and cannot do Synthesizing several theoretical supports the strengths

Reid's captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Sheila Power : Delia Owens' "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and gripping novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
