M. Bourke-White. (Third Printing.). Margaret Bourke WHITE, 1943 **1941: Fighting the Shadow War** Marc Wortman, 2016-04-19 A wide ranging examination of America's entry into World War II Kirkus Reviews starred review In 1941 *Fighting the Shadow War A Divided America in a World at War* historian Marc Wortman thrillingly explores the little known history of America's clandestine involvement in World War II before the attack on Pearl Harbor Prior to that infamous day America had long been involved in a shadow war Winston Churchill England's beleaguered new prime minister pleaded with Franklin D Roosevelt for help FDR concocted ingenious ways to come to his aid without breaking the Neutrality Acts Launching Lend Lease conducting espionage at home and in South America to root out Nazi sympathizers and waging undeclared war in the Atlantic were just some of the tactics with which FDR battled Hitler in the shadows FDR also had to contend with growing isolationism and anti-Semitism as he tried to influence public opinion While Americans were sympathetic to those being crushed under Axis power they were unwilling to enter a foreign war Wortman tells the story through the eyes of the powerful as well as ordinary citizens Their stories weave throughout the intricate tapestry of events that unfold during the crucial year of 1941 Combining military and political history Wortman's brisk narrative takes us across nations and oceans with a propulsive vigor that speeds the book along like a good thriller *The Wall Street Journal* A

fascinating narrative of a domestic conflict presaging America's plunge into global war Booklist starred review

**Rendezvous with Destiny** Michael Fullilove, 2013-07-03 The remarkable untold story of Franklin D. Roosevelt and the five extraordinary men he used to pull America into World War II. In the dark days between Hitler's invasion of Poland in September 1939 and Japan's attack on Pearl Harbor in December 1941, Franklin D. Roosevelt sent five remarkable men on dramatic and dangerous missions to Europe. The missions were highly unorthodox and they confounded and infuriated diplomats on both sides of the Atlantic. Their importance is little understood to this day. In fact, they were crucial to the course of the Second World War. The envoys were magnificent unforgettable characters. First off the mark was Sumner Welles, the chilly patrician under secretary of state later ruined by his sexual misdemeanors, who was dispatched by FDR on a tour of European capitals in the spring of 1940. In summer of that year, after the fall of France, William Wild Bill Donovan, war hero and future spymaster, visited a lonely United Kingdom at the president's behest to determine whether she could hold out against the Nazis. Donovan's report helped convince FDR that Britain was worth backing. After he won an unprecedented third term in November 1940, Roosevelt threw a lifeline to the United Kingdom in the form of Lend Lease and dispatched three men to help secure it: Harry Hopkins, the frail social worker and presidential confidant, was sent to explain Lend Lease to Winston Churchill; Averell Harriman, a handsome ambitious railroad heir, served as FDR's man in London expediting Lend Lease aid and romancing Churchill's daughter-in-law; Roosevelt even put to work his ruffled charismatic opponent in the 1940 presidential election, Wendell Willkie, whose visit lifted British morale and won wary Americans over to the cause. Finally, in the aftermath of Germany's invasion of the Soviet Union, Hopkins returned to London to confer with Churchill and traveled to Moscow to meet with Joseph Stalin. This final mission gave Roosevelt the confidence to bet on the Soviet Union. The envoys' missions took them into the middle of the war and exposed them to the leading figures of the age. Taken together, they plot the arc of America's transformation from a divided and hesitant middle power into the global leader. At the center of everything, of course, was FDR himself, who moved his envoys around the globe with skill and panache. We often think of Harry S. Truman, George Marshall, Dean Acheson, and George F. Kennan as the authors of America's global primacy in the second half of the twentieth century. But all their achievements were enabled by the earlier work of Roosevelt and his representatives, who took the United States into the war and by defeating domestic isolationists and foreign enemies into the world. In these two years, America turned. FDR and his envoys were responsible for the turn. Drawing on vast archival research, *Rendezvous with Destiny* is narrative history at its most delightful, stirring, and important.

**American Women in a World at War** Judy Barrett Litoff, David Clayton Smith, 1997 This title brings together twenty-five writings by women who share their rich and varied World War II experiences from serving in the military to working on the home front to preparing for the postwar world. By providing evidence of their active and resourceful roles in the war effort as workers, wives, and mothers, these women offer eloquent testimony that World War II was indeed everybody's war. Litoff and Smith combine pieces by well-known writers

such as Margaret Culkin Banning and Nancy Wilson Ross with important but largely forgotten personal accounts by ordinary women living in extraordinary times This volume is divided into the six sections listed below Preparing for War In the Military At Far Flung Fronts On the Home Front War Jobs Preparing for the Postwar World      **American Girls in Red Russia** Julia L. Mickenberg, 2017-04-25 If you were an independent adventurous liberated American woman in the 1920s or 1930s where might you have sought escape from the constraints and compromises of bourgeois living Paris and the Left Bank quickly come to mind But would you have ever thought of Russia and the wilds of Siberia This choice was not as unusual as it seems now As Julia L Mickenberg uncovers in *American Girls in Red Russia* there is a forgotten counterpoint to the story of the Lost Generation beginning in the late nineteenth century Russian revolutionary ideology attracted many women including suffragists reformers educators journalists and artists as well as curious travelers Some were famous like Isadora Duncan or Lillian Hellman some were committed radicals though more were just intrigued by the Soviet experiment But all came to Russia in search of social arrangements that would be more equitable just and satisfying And most in the end were disillusioned some by the mundane realities others by horrifying truths Mickenberg reveals the complex motives that drew American women to Russia as they sought models for a revolutionary new era in which women would be not merely independent of men but also equal builders of a new society Soviet women after all earned the right to vote in 1917 and they also had abortion rights property rights the right to divorce maternity benefits and state supported childcare Even women from Soviet national minorities many recently unveiled became public figures as African American and Jewish women noted Yet as Mickenberg's collective biography shows Russia turned out to be as much a grim commune as a utopia of freedom replete with economic social and sexual inequities *American Girls in Red Russia* recounts the experiences of women who saved starving children from the Russian famine worked on rural communes in Siberia wrote for Moscow or New York newspapers or performed on Soviet stages Mickenberg finally tells these forgotten stories full of hope and grave disappointments      Observers from Abroad Martin A. Miller, 2025-03-31 *Observers from Abroad* offers an examination of published and archival images of Soviet Russia providing a deeper understanding of the complexities and vicissitudes of its political culture The book argues that photography when accurately interpreted can be utilized as primary historical evidence that has the potential to both enhance and counter traditional verbal analysis Employing a number of images of the Soviet Union captured by gifted documentary photographers from the West who received visas to work in Moscow from the Bolshevik seizure of power in 1917 to the collapse of the USSR in 1991 the book also assesses the intentions of the photographers who acted as conscious observers capturing visual evidence under the restraining conditions of state surveillance Each chapter provides a closer look at the life and work of these photographers with a wealth of historical images and discussion Richly illustrated and engaging this volume will be ideal for students scholars and readers interested in Soviet history twentieth century history and the history of photography      **Stalin's Holy War** Steven Merritt Miner, 2003

**No Time for Glory** D.M. Foy, 2004-12-28 This is an incredible story of a once obscure social welfare worker's rise from a deathbed and subsequent catapult into a position of worldwide power and influence Harry Hopkins was an improbable hero living on borrowed time at the epicenter of world chaos during World War II By means of exceptional cunning sustenance valor and patriotism his achievements and services alter the course of history during the mid twentieth century His noble quest for the plight of the poor the weak and the hungry are surpassed only by a passion to defeat the tyrannical daring to live only to die for altruistic causes of country and humanity These events of intrigue mined from archives of faded footnotes when mended in chronological order and held to the light of a new era reveals the tribulations of a forsaken legend No Time for Glory This in hope of preserving from decay the remembrance of what men have done Of preventing great and wonderful actions from losing their meed of glory And withal to put on record what were their grounds of feud Herodotus 440 BC

**Afghanistan and the Anglo-Russian Dispute and History of the War in Afghanistan (Complete)** Various Authors, 2020-09-28 By a coincidence of singular interest in Central Asian affairs the completion of the Orenburg Tashkent railway occurred simultaneously with the evacuation of Lhasa by the troops of the Tibetan Mission the two events measuring in a manner the character of the policies pursued by the respective Governments of Great Britain and Russia in Mid Asia Moreover if consideration be given to them and the relation of each to contemporary affairs appreciated it becomes no longer possible to question the causes which have determined the superior position now held in Asia by our great opponent If this situation were the result of some sudden cataclysm of nature by which Russia had been violently projected from her territories in Europe across the lone wastes of the Kirghiz steppe into and beyond the region of the Pamirs or over the desert sands of the Kara Kum to the southern valleys of the Murghab river our periodic lament at the mastery of Central Asia by Russia would be

more comprehensible But unfortunately the forward advance of Russia to the borders of Persia along the frontiers of Afghanistan to the north eastern slopes of the Hindu Kush has been gradual so gradual indeed that as each successive step became accomplished we have had time to register recognition of the fact in bursts of indignant chatter accompanied as is not unusual with us by a frothy clamour of empty threats Unluckily noisy outcry has been mistaken for action but from the moment when Russia first moved into Trans Caspian territory there appears to have been nothing but vague realisation of the acute possibilities with which the situation in Central Asia from that hour became impressed As time passed and the several phases vanished our indifference and supineness have increased until no chapter in the history of our Imperial affairs offers more melancholy reading than that which deals with the period covering the peaceful penetration of Asia by Russia In order to secure sufficient momentum for her descent railways were needed and while the line so lately completed between Orenburg and Tashkent is a more material factor in the situation than hitherto has been recognised the laying of the permanent way between Samarkand and Termez Askhabad and Meshed approximately gauges the duration of the interval separating Russia from the day when she will have rounded off her position in Mid Asia Just now therefore and for ten years to come strategic requirements should alone be permitted to influence the arrangement of our policy in High Asia Commercial developments within the vexed sphere of the Russian and British territories in this region should be regulated by circumstances which actually inherent in our Asiatic position have been too long ignored No question of sentiment no considerations of trade influenced the creation of railway communication between Orenburg and Tashkent the construction of the Murghab Valley line or the extension of the Trans Caspian system from Samarkand to Osh Strategy steely and calculating required Mid Russia to be linked with Mid Asia the irresistible expansion of empire following not so much the line of least resistance as the direction from which it would be placed in position for the next move Continents have been crossed kingdoms annihilated and provinces absorbed by Russia in her steady inimical progression towards the heart of Central Asia until there is nothing so important nor so intimately associated with our position in Afghanistan to day as the intricate perplexities which have emanated from this untoward approach From time to time attempts have been made to effect an adjustment of the points at issue The result has been unsatisfactory since the patchwork application of pen and paper has come as a rule in response to some accomplished coup upon the part of our astute opponent Indeed there is nothing in the result of any of these compromises which can be said to do credit to our knowledge of the existing situation Indifference coupled with a really lamentable ignorance distinguishes the conditions if not the atmosphere under which these rectifications of frontier and modifications of clauses in previously accepted treaties have been carried out But now that we have witnessed the joining of the rails between Orenburg and Tashkent let us put an end to our absurd philandering and appraising properly the true position of affairs let us be content to regard all further extension of the Russian railway system in Mid Asia as the climax of the situation To do this we must understand the points at issue and to day in Central Asia there

are many causes which of themselves are sufficient to direct attention to them      Russian Political War Mark Galeotti, 2019-03-04 This book cuts through the misunderstandings about Russia's geopolitical challenge to the West presenting this not as hybrid war but political war Russia seeks to antagonise its diplomats castigate Western Russophobia and cultivate populist sentiment abroad while its media sells Russia as a peaceable neighbour and a bastion of traditional social values Its spies snoop and even kill and its hackers and trolls mount a 24/7 onslaught on Western systems and discourses This is generally characterised as hybrid war but this is a misunderstanding of Russian strategy Drawing extensively not just on their writings but also decades of interactions with Russian military security and government officials this study demonstrates that the Kremlin has updated traditional forms of non military political war for the modern world Aware that the West if united is vastly richer and stronger Putin is seeking to divide and distract in the hope it will either accept his claim to Russia's great power status or at least be unable to prevent him In the process Russia may be foreshadowing how the very nature of war is changing political war may be the future This book will be of much interest to students of strategic studies war studies Russian politics and security studies      **Shooting and Fishing**, 1904
