Long Shot Odyssey A Poem:

Long Shot Odyssey Walter Bruno,1996 *Shadow Philosophy: Plato's Cave and Cinema* Nathan Andersen,2014-04-16

Shadow Philosophy Plato's Cave and Cinema is an accessible and exciting new contribution to film philosophy which shows that to take film seriously is also to engage with the fundamental questions of philosophy Nathan Andersen brings Stanley Kubrick's film *A Clockwork Orange* into philosophical conversation with Plato's *Republic* comparing their contributions to themes such as the nature of experience and meaning the character of justice the contrast between appearance and reality the importance of art and the impact of images At the heart of the book is a novel account of the analogy between Plato's allegory of the cave and cinema developed in conjunction with a provocative interpretation of the most powerful image from *A Clockwork Orange* in which the lead character is strapped to a chair and forced to watch violent films Key features of the book include a comprehensive bibliography of suggested readings on Plato on film on philosophy and on the philosophy of film a list of suggested films that can be explored following the approach in this book including brief descriptions of each film and suggestions regarding its philosophical implications a summary of Plato's *Republic* book by book highlighting both dramatic context and subject matter Offering a close reading of the controversial classic film *A Clockwork Orange* and an introductory account of the central themes of the philosophical classic *The Republic* this book will be of interest to both scholars and students of philosophy and film as well as to readers of Plato and fans of Stanley Kubrick

Poems of Charles Alan Long Charles Alan Long, 2017-05-16 This book is a compilation of poems written by inspiration by Professor Emeritus Charles Alan Long that reflect a long career of scholarship with many historical and lyrical expressions hidden by layers of research and teaching A chronology of sorts it begins in Dr Long s youth in college over sixty years ago and continued until he was 80 as a teacher professor of research museum director soldier with success in bio mathematics natural history as a philosopher critic and member of a progressive family Some current practical problems studied from the vantage of evolutionist ecologist biblical critic naturalist and offended American include the sudden rise of marijuana political rhetoric usury beyond decency and by liberals and conservatives alike the erosion of personal liberty especially of speech and universities But the poems from laments to loves to joy to pathos and death poverty to wealth nature art music and poetry itself are presented in almost musical sadness or joy The history of an intellectual s scholarly travels whereas some poems are for children some for society some attacking evils some praising good people with merit even in deference to religions many nations and his beloved homeland The poems are in large part visits into nostalgia and sentiment Cultures of many peoples in many nations are described as are many situations in America There is of course an American core but surely this poet loves good peoples and the history of Greece France Scotland Africa Russia and other places Loves genuine for many

women inspired many lovely poems a lot of romance But profound in its argument is love for the poor and unhappy people love for art nature philosophy even sports science and math even religions It becomes unified by reason his active caring and his bursts of singing Much attention is given to geography history science and nature **Virgil's Cinematic Art** Kirk Freudenburg,2022-12-27 Through a series of close readings centered primarily on Virgil's Aeneid Kirk Freudenburg shows that the experiential effects that Virgil puts into play do serious narrative work of their own by structuring lines of sight both visual and emotive and shifting them about in ways that move readers interpellated as viewers into and out of the visual and emotional worlds of the story's characters **Shooting the Messenger** Paul L. Moorcraft, Philip M. Taylor, 2008 As the literature on military media relations grows it is informed by antagonism either from journalists who report on wars or from ex soldiers in their memoirs Academics who attempt more judicious accounts rarely have any professional military or media experience A working knowledge of the operational constraints of both professions underscores Shooting the Messenger A veteran war correspondent and think tank director Paul L Moorcraft has served in the British Ministry of Defence while historian by training Philip M Taylor is a professor of international communications who has lectured widely to the U S military and at NATO institutions Some of the topics they examine in this wide ranging history of military media relations are the interface between soldiers and civilian reporters covering conflicts the sometimes grey area between reporters right or need to know and the operational security constraints imposed by the military the military's manipulation of journalists who accept it as a trade off for safer battlefield access the resultant gap between images of war and their reality the evolving nature of media technology and the difficulties and opportunities this poses to the military journalistic performance in reporting conflict as an observer or a participant Moorcraft and Taylor provide a bridge over which each side can pass and a path to mutual understanding **Shooting the Messenger** Paul Moorcraft, 2011-10-31 Wars have dominated politics since history began In the modern era most of what the media reports on foreign conflicts comes from a small band of war correspondents As the furore over the Iraq Afghan and now the Libyan wars demonstrates Western governments and militaries often collude to keep their voters in the dark about the causes and the conduct of wars waged in their name In this entertaining and unspun account of modern war reporting the authors ask whether the media itself drives democracies to war Or does it serve to constrain evil ignorant and messianic leaders Are the heirs of William Howard Russell the first modern war reporter watchdogs or lapdogs In the age of Wikileaks and corrupt media empires what is the political impact of war correspondents Are they the heroes or harlots of their profession **A Grammar of Cinepoiesis** Silvia Carlorosi, 2015-09-17 Cinepoiesis or cinema of poetry strikes us as a strange combination a phrase we initially read as an oxymoron Poetry is often associated with the abstract and the evocative while cinema suggests the concrete and the visible Yet various visual media use strong and often contradictory images whose symbolic force and visual impact stimulate the public's attention Abstract and emblematic images surround us and the poetic nature of these images lies in the way they

speak beyond their apparent limits and stimulate connections on a subjective level A prosaic world like the contemporary one though no longer seems to hold a place for poetry We are inundated by the need to tell and to be told the need to build our lives through narratives But it is precisely here in this contemporary landscape that the cinema of poetry attempts to establish a space for itself exchanging the productive and industrial apparatus for the poetic stimulus of a sensory experience A Grammar of Cinepoiesis is a theoretical and practical guide to the cinema of poetry to its tools and forms It examines how the language of a cinema of poetry works both in its theoretical foundations and in its modes of representation and how it takes shape in the exemplary practice of Italian authors such as Pier Paolo Pasolini Michelangelo Antonioni Federico Fellini and the more recent Franco Piavoli and Matteo Garrone

Harbingers of Books to Come Dave Oliphant, 2009-09 The first major autobiography by a Texas poet this noteworthy account traces the life and times of a poet publisher critic and teacher from his childhood to the present day This remarkable life is examined through the works it produced 25 books in the fields of poetry fiction translation jazz history and book reviewing Proving that the literary and intellectual life in Texas far surpasses the state's stereotypes this record shows how the poet was instrumental in connecting Texas with many Latin American writers as well as with a wide world of music
