Alert for Signs: Seeing and Praying through Advent Titus Presler, 2007 **Longing for God** Paulsell, William O., 2021 A survey of the life and thought of Christian mystics from the time of Augustine of Hippo in the first centuries of the Church through mediaeval times and up to the middle of the twentieth century with Dorothy Day and Thomas Merton

Longing for God Richard J. Foster, 2014-05-10 Richard Foster and Gayle Beebe both experienced leaders in spiritual formation introduce you to people from the past who have known God deeply Each person helps you to grasp one of the seven primary paths to intimacy with God that have been developed throughout Christian history **Furnace of the Heart** Sister Margaret Magdalen (CSMV.), 1998 Each of us is born with an innate longing for the God in whose image we are made This book explores the many facets of this longing beginning with the very nature of longing itself It challenges us to

enter into the pain and the joy of longing and to dare to respond to God's call to plunge into the abyss of love and share in the compassion of Christ. It draws on the wisdom of the Early Fathers, the Spiritual Classics as well as contemporary writers in spirituality. **Furnace of the Heart** will speak powerfully to all of us who are hungering after God. **Meeting the Shadow on the Spiritual Path** Connie Zweig, 2023-05-23 A guide to rekindling spiritual inspiration after betrayal and disillusionment. Explains why we are drawn to charismatic leaders, what we unconsciously give away to them, and how to reclaim our inner spiritual authority. Explores how to recover from spiritual abuse or betrayal by a teacher or group, including breaking free of denial, projection, and dependency using psychology and shadow work. Extends MeToo into the spiritual domain and tells the stories of contemporary clergy and spiritual leaders who acted out their shadows in destructive ways, leaving their followers traumatized and lost. Within each of us is a spiritual longing that prompts us to unite with something greater than ourselves, to awaken to our unity with all of life. Yet no matter the spiritual path we choose, we inevitably encounter our own shadow, those unconscious aspects of ourselves that we suppress or deny, or the shadows of our teachers and their secret desires about money, sex, and power. Meeting the shadow can derail the journey, but according to Connie Zweig, Ph.D., we can learn to recover from loss of faith and move from spiritual naivete to spiritual maturity. Calling on us to expand our vision of religious and spiritual life, and our vision of awakening, to include the human shadow, Zweig examines the yearning that sets us on the spiritual path, showing how it can lead to ecstatic, transcendent experiences or to terrible suffering by projecting it onto an authoritarian teacher, priest, or guru who abuses power. She tells the stories of renowned teachers: Sufi poet Rumi, Hindu master Ramakrishna, and Christian saint Catherine of Siena, whose lives unfolded as they followed their spiritual yearning. And she tells the cautionary tales of contemporary teachers of Buddhism, Hinduism, and Catholicism who acted out their shadows in devastating ways, leaving their followers traumatized and lost. She explains how meeting the shadow is a painful but inevitable stage on the path to a more mature spirituality. She describes how to use spiritual shadow work to separate from abusive teachers, reclaim inner spiritual authority, and heal from betrayal. With guidance for both inspired and disillusioned seekers, the author explores how to navigate the narrow path through the darkness toward the light, rekindle the flame of longing, and once again engage in fulfilling spiritual practice. **The Cognitive Neuroscience of Religious Experience** Patrick McNamara, 2022-06-09 The Cognitive Neuroscience of Religious Experience, now updated and expanded in a new edition, updates key topics covered in the first edition, including decentering and self-transformation, supernatural agent cognitions, mystical states, religious language, ritualization, and religious group agency. It expands upon the first edition to include major findings on brain and religious experience over the past decade, focusing on methodology, future thinking, and psychedelics. It provides an up-to-date review of brain-based accounts of religious experiences and systematically examines the rationale for utilizing neuroscience approaches to religion. While it is primarily intended for religious studies scholars, people interested in comparative religion, philosophy of religion, cultural evolution, and personal self-transformation
