THE LAST DAYS OF THE CONFEDERATE GOVERNMENT

Look Away A History Of The Confederate States Of America

Archon Fung, David Moss, Odd Arne Westad

Look Away A History Of The Confederate States Of America:

Look Away! William C. Davis, 2002-04-12 William C Davis one of America's best Civil War historians here offers a definitive portrait of the Confederacy unlike any that has come before Drawing on decades of writing and research among an unprecedented number of archives Look Away tells the story of the Confederate States of America not simply as a military saga although it is that but rather as a full portrait of a society and incipient nation The first history of the Confederacy in decades the culmination of a great scholar's career Look Away combines politics economics and social history to set a new standard for its subject Previous histories have focused on familiar commanders such as Robert E Lee and Stonewall Jackson but Davis's canvas is much broader From firebrand politicians like Robert Barnwell Rhett and William L Yancey who pushed for secession long before the public supported it to Dr Samuel Cartwright who persuaded many Southerners of the natural inferiority of their slaves to the women of Richmond who rioted over bread shortages in 1863 Davis presents a rich new face of the Confederate nation He recounts familiar stories of battles won and lost but also little known economic stories of a desperate government that socialized the salt industry home front stories of the rangers and marauders who preyed on their fellow Confederates and an account of the steady breakdown of law culminating in near anarchy in some states Never has the Confederacy been so vividly brought to life as a full society riven with political and economic conflicts beneath its more loudly publicized military battles Davis's astonishingly thorough primary research has ranged across the 800 odd newspapers that were in operation during the war but also across the personal papers of over a hundred Southern leaders and ordinary citizens He quotes from letters and diaries throughout the narrative revealing the Confederacy through the words of the Confederates themselves Like any society especially in the early stages of nation building and the devastating stages of warfare the Confederacy was not one thing but many things to many people One thing however was shared by all the belief that the South offered a necessary evolution of American democracy Look Away offers a dramatic and definitive account of one of America's most searing episodes

This Mighty Scourge James M. McPherson, 2009-10-12 The author of the Pulitzer Prize winning *Battle Cry of Freedom* and the New York Times bestsellers *Crossroads of Freedom* and *Tried by War* among many other award winning books James M McPherson is America's preeminent Civil War historian In this collection of provocative and illuminating essays McPherson offers fresh insight into many of the enduring questions about one of the defining moments in our nation's history McPherson sheds light on topics large and small from the average soldier's avid love of newspapers to the postwar creation of the mystique of a Lost Cause in the South Readers will find insightful pieces on such intriguing figures as Harriet Tubman John Brown Jesse James and William Tecumseh Sherman and on such vital issues as Confederate military strategy the failure of peace negotiations to end the war and the realities and myths of the Confederacy This *Mighty Scourge* includes several never before published essays pieces on General Robert E Lee's goals in the Gettysburg campaign on Lincoln and Grant in the Vicksburg campaign and on Lincoln as Commander in Chief All of the

essays have been updated and revised to give the volume greater thematic coherence and continuity so that it can be read in sequence as an interpretive history of the war and its meaning for America and the world Combining the finest scholarship with luminous prose and packed with new information and fresh ideas this book brings together the most recent thinking by the nation's leading authority on the Civil War

Declarations of Independence James L. Erwin, 2006-11-30 From tax rebels to religious dissidents it's amazing that the United States of America haven't fallen apart though it has not been for lack of trying While the Confederate States of America is the best known secessionist movement in our history the South is far from the only example of Americans declaring independence from Washington DC and the federal government From runaway slaves to religious visionaries from Native Americans to tax shelter seeking wealthy the quest for political religious and economic independence has been a constant force in our country over the centuries

Vicksburg Samuel W. Mitcham, 2018-06-04 It was one of the bloodiest sieges of the war a siege that drove men women and children to seek shelter in caves underground where shortages of food drove people to eat mules rats even pets where the fighting between armies was almost as nothing to the privations suffered by civilians who were under constant artillery bombardment every pane of glass in Vicksburg was broken But the drama did not end there Vicksburg was a vital strategic point for the Confederacy When the city fell on July 4 1863 the Confederacy was severed from its western states of Texas Louisiana and Arkansas Its fall was simultaneous with General Robert E Lee's shattering defeat at Gettysburg far to the north For generations July 4 was no day to celebrate for Southerners It was a day of mourning especially for the people of Mississippi Yet this epic siege has long been given secondary treatment by popular histories focused on the Army of Northern Virginia and the Gettysburg campaign The siege of Vicksburg was every bit as significant to the outcome of the war The victorious Union commander Major General Ulysses S Grant learned hard lessons assaulting Vicksburg the Confederate Gibraltar which he attempted to take or bypass no less than nine times only to be foiled by the outnumbered Northern born Confederate commander Lieutenant General John C Pemberton At the end despite nearly beating the odds Pemberton's army was left for dead without reinforcements and the Confederacy's fate was ultimately sealed This is the incredible story of a siege that lasted more than forty days that brought out extraordinary heroism and extraordinary suffering and that saw the surrender of not just a fortress and a city but the Mississippi River to the conquering Federal forces

The Confederacy's Last Northern Offensive Steven Bernstein, 2014-01-10 By spring 1864 the administration of Abraham Lincoln was in serious trouble with mounting debt low morale and eroding political support As spring became summer a force of Confederate troops led by Lieutenant General Jubal Anderson Early marched north through the Shenandoah Valley and crossed the Potomac as Washington D C and Maryland lay nearly undefended This Civil War history explores what could have been a decisive Confederate victory and the reasons Early's invasion of Maryland stalled

American Civil War Spencer C. Tucker, 2013-09-30 This expansive multivolume reference work provides a broad multidisciplinary examination of the Civil

War period ranging from pre Civil War developments and catalysts such as the Mexican American War to the rebuilding of the war torn nation during Reconstruction The Civil War was undoubtedly the most important and seminal event in 19th century American history Students who understand the Civil War have a better grasp of the central dilemmas in the American historical narrative states rights versus federalism freedom versus slavery the role of the military establishment the extent of presidential powers and individual rights versus collective rights Many of these dilemmas continue to shape modern society and politics This comprehensive work facilitates both detailed reading and quick referencing for readers from the high school level to senior scholars in the field The exhaustive coverage of this encyclopedia includes all significant battles and skirmishes important figures both civilian and military weapons government relations with Native Americans and a plethora of social political cultural military and economic developments The entries also address the many events that led to the conflict the international diplomacy of the war the rise of the Republican Party and the growing crisis and stalemate in American politics slavery and its impact on the nation as a whole the secession crisis the emergence of the total war concept and the complex challenges of the aftermath of the conflict

Ambivalent Nation Hugh Dubrulle, 2018-06-11 In Ambivalent Nation Hugh Dubrulle explores how Britons envisioned the American Civil War and how these conceptions influenced their discussions about race politics society military affairs and nationalism Contributing new research that expands upon previous scholarship focused on establishing British public opinion toward the war Dubrulle offers a methodical dissection of the ideological forces that shaped that opinion many of which arose from the complex Anglo American postcolonial relationship Britain's lingering feeling of ownership over its former colony contributed heavily to its discussions of the American Civil War Because Britain continued to have a substantial material interest in the United States its writers maintained a position of superiority and authority in respect to American affairs British commentators tended to see the United States as divided by two distinct civilizations even before the onset of war a Yankee bourgeois democracy and a southern oligarchy supported by slavery They invariably articulated mixed feelings toward both sections and shortly before the Civil War the expression of these feelings was magnified by the sudden emergence of inexpensive newspapers periodicals and books The conflicted nature of British attitudes toward the United States during the antebellum years anticipates the ambivalence with which the British reacted to the American crisis in 1861 Britons used prewar stereotypes of northerners and southerners to help explain the course and significance of the conflict Seen in this fashion the war seemed particularly relevant to a number of questions that occupied British conversations during this period the characteristics and capacities of people of African descent the proper role of democracy in society and politics the future of armed conflict and the composition of a durable nation These questions helped shape Britain's stance toward the war and in turn the war informed British attitudes on these subjects Dubrulle draws from numerous primary sources to explore the rhetoric and beliefs of British public figures during these years including government papers manuscripts from press archives private correspondence and samplings from a

variety of dailies weeklies monthlies and quarterlies The first book to examine closely the forces that shaped British public opinion about the Civil War *Ambivalent Nation* contextualizes and expands our understanding of British attitudes during this tumultuous period

When Democracy Breaks Archon Fung, David Moss, Odd Arne Westad, 2024 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations Democracy is often described in two opposite ways as either wonderfully resilient or dangerously fragile Both characterizations can be correct depending on the context *When Democracy Breaks* aims to deepen our understanding of what separates democratic resilience from democratic fragility by focusing on the latter The volume's collaborators experts in the history and politics of the societies covered in their chapters explore eleven episodes of democratic breakdown from ancient Athens to Weimar Germany to present day Russia Turkey and Venezuela Strikingly in every case various forms of democratic erosion long preceded the final democratic breakdown Although no single causal factor emerges as decisive linking together all of the episodes some important commonalities including extreme political polarization explicitly anti democratic political actors and significant political violence stand out across the cases Moreover the notion of democratic culture while admittedly difficult to define and even more difficult to measure may play a role in all of them Throughout the volume the contributors show again and again that the written rules of democracy are insufficient to protect against tyranny While each case of democratic decay is unique the patterns that emerge shed much light on the continuing struggle to sustain modern democracies and to assess and respond to the threats they face

Did Lincoln and the Republican Party Create the Civil War? Robert P.

Broadwater, 2008-07-30 The author seeks to challenge the long held perceptions of the politics of the American Civil War He argues that the war was fought not to preserve the Union or free the slaves but rather to establish the political power of the Republican Party within the federal government The author argues further that Abraham Lincoln and the Republican Party manipulated events to bring about the Civil War in the first place and used the war as a pretext for the establishment of the modern central government

[The Papers of Jefferson Davis](#) Jefferson Davis, 2015-05-12 The final volume of *The Papers of Jefferson Davis* follows the former president of the Confederacy through the completion of his two monumental works on the history of the Confederate States of America In the first *The Rise and Fall of the Confederate Government* 1881 Davis sought to recast the Confederacy as a just and moral nation that was constitutionally correct in standing up for its rights Himself the subject of heated debates about why the Confederacy lost Davis also used the book to castigate Confederate government and military officials who he believed had failed the cause Later *A Short History of the Confederate States* 1890 attempted to burnish the image of the former Confederacy and to refute accusations of intentional mistreatment of Union prisoners While completing these books Davis attended and spoke at numerous Confederate memorial services and monument dedications all the while waging a bitter feud with two of his former top generals Joseph E Johnston and P G T Beauregard over the reasons

for the fall of the Confederacy In late 1889 having returned to New Orleans from a trip to his plantation Brierfield Davis succumbed to pneumonia His funeral procession attracted an estimated 150 000 mourners a testament to the lasting popularity of the Confederacy s only president In volume 14 of The Papers of Jefferson Davis the editors have drawn from over one hundred manuscript repositories and private collections in addition to numerous published sources to offer a compelling portrait of Davis over the last decade of his life

Look Away A History Of The Confederate States Of America Book Review: Unveiling the Magic of Language
