Look Stranger, on this Island Now N. V. M. González, 1963 "Look, Stranger at this Island Now" Architectural Association (Great Britain), 1983 , **The Island** Nicholas Jenkins, 2024-06-11 Nicholas Jenkins explores war love and politics in the early works of W H Auden one of the twentieth century s most controversial and moving poets Auden s poems embraced both haunted meditations on World War I and lyrical visions of English national identity until in the mid 1930s he lost faith in the artistic potential of such myths Edward Upward and Left-Wing Literary Culture in Britain Benjamin Kohlmann, 2016-04-29 Offering the first book length consideration of Edward Upward 1903 2009 one of the major British left wing writers this collection positions his life and works in the changing artistic social and political contexts of the twentieth and early twenty first centuries Upward s fiction and non fiction from the 1920s onwards illustrate the thematic and formal richness of left wing writing during the twentieth century age of extremes At the same time Upward s work shows the inherent tensions of a life committed at once to writing and to politics The full range of Upward s work and a wealth of unpublished materials are examined including his early fantastic stories of the 1920s his Marxist fiction of the 1930s the extraordinary semi autobiographical trilogy *The Spiral Ascent* and his formally and thematically innovative later stories The essays collected here reevaluate Upward s central place in twentieth century British literary culture and assess his legacy for the twenty first century Archipelagic Modernism John Brannigan, 2014-12-09 Archipelagic Modernism examines the anglophone literatures of the archipelago from 1890 to 1970 for what they tell us about changing identities geographies and ecologies **A Companion to Modernist Literature and Culture** David Bradshaw, Kevin J. H. Dettmar, 2008-04-15 The Companion combines a broad grounding in the essential texts and contexts of the modernist movement with the unique insights of scholars whose careers have been devoted to the study of modernism An essential resource for students and teachers of modernist literature and culture Broad in scope and comprehensive in coverage Includes more than 60 contributions from some of the most distinguished modernist scholars on both sides of the Atlantic Brings together entries on elements of modernist culture contemporary intellectual and aesthetic movements and all the genres of modernist writing and art Features 25 essays on the signal texts of modernist literature from James Joyce s *Ulysses* to Zora Neal Hurston s *Their Eyes Were Watching God* Pays close attention to both British and American modernism **Upon Our Own Ground: 1956 to 1964** Gémino H. Abad, 2008 **A New Philosophy of Literature** Nicholas Hagger, 2012-01-27 In *The New Philosophy of Universalism* Nicholas Hagger outlined a new philosophy that restates the order within the universe the oneness of humankind and an infinite Reality perceived as Light and its applications in many disciplines including literature In this work of literary Universalism which carries forward the thinking in T S Eliot s *Tradition and the Individual Talent* and other essays Hagger traces the fundamental theme of world literature which has alternating metaphysical and secular aspects a quest for Reality and immortality and condemnation of social vices in relation to an implied virtue Since classical times these two

antithetical traditions have periodically been synthesised by Universalists Hagger sets out the world Universalist literary tradition the writers who from ancient times have based their work on the fundamental Universalist theme These can be found in the Graeco Roman world the Middle Ages and Renaissance in the Baroque Age in the Neoclassical Romantic Victorian and Modernist periods and in the modern time He demonstrates that the Universalist sensibility is a synthesis of the metaphysical and secular traditions and a combination of the Romantic inspired imagination the inner faculty by which Romantic poets approached the Light and the Neoclassical imitative approach to literature which emphasizes social order and proportion a combination found in the Baroque time of the Metaphysical poets and in Victorian and Modernist literature Universalists express their cross disciplinary sensibility in literary epic as did Homer Virgil Dante and Milton and in a number of genres within literature and in history and philosophy Universalist historians claim that every civilisation is nourished by a metaphysical vision that is expressed in its art and when it declines secular materialist writings lose contact with its central vision As Universalist literary works restate the order within the universe reveal metaphysical Being and restore the vision of Reality Hagger excitingly argues that the Universalist sensibility renews Western civilisation s health Literary Universalism is a movement that revives the metaphysical outlook and combines it with the secular materialistic approach to literature that has predominated in recent times It can carry out a revolution in thought and culture and offer a new direction in contemporary literature This work conveys Universalism s impact on literature and should be read by all who have concerns about the sickness and decline of contemporary European Western culture
