

An aerial photograph of a river winding through a forest. The river is a light brown color, contrasting with the surrounding green and yellow foliage. The river flows from the top left towards the bottom right, with several bends. The forest is dense, and the colors suggest an autumn setting. The river's path is highlighted by its lighter color against the darker green of the trees.

Life is either about moving forward

forget what's back there behind us.

Moving Forward, Looking Back Malte Hagener,2007 This book the first full critical overview of the film avant garde ushers in a new approach and in the process creates its own subject While many books have studied particular aspects of the European film avant garde of the 1920s and 1930s Moving Forward Looking Back provides a much needed summary of the theory and practice of the movement while also emphasizing aspects of the period that have been overlooked Arguing that a European perspective is the only way to understand the transnational movement the book also pioneers a new approach to the alternative cinema network that sustained the avant garde paying particular attention to the emergence of film culture as visible in screening clubs film festivals and archives It will be essential to anyone interested in the influential movement and the film culture it created

Moving Forward, Looking Back Sarah M. Misemer,2010 Many critical shifts in concepts of time and society s consciousness of modernity were derived from the railway and World Standard Time in the nineteenth century These innovations restructred the way people viewed the world and dealt with public and private time The forward projectile motion along a linear track mimicked the passage of public chronological time Conversely the train also invoked a private nostalgic view of tim as the traveler was yanked from his her traditional view of the space time continuum via the train s velocity Travelers observed the landscape disappear in their backward glance from the window although the landscape and interior compartment s space remained stagnant This optical illusion caused passengers to perceive the world in new ways Thus the train unveils a conflictive blend of nostalgia and progress in the River Plate as these countries move forward but look back
