Christine, the ethereal child-woman, who reveled in her sensuality and loved to roam naked, now withdrew to her attic room. Her husband could no longer reach her. It was as if she were saving herself now, waiting for some greater, darker power to embrace her.

Soon she would be made whole again—even as her family was being torn apart.

Soon she would be taken.

The menacing presence had come—at last—to claim his prize.

He Descended into Hell Elikana Asheri Lova, Elia Shabani Mligo, 2015-02-09 The Apostles Creed is one of the most prominent creeds in Christianity perhaps even the most recited creed by normal believers in church services However the creed holds a clause that seems controversial to Christian mission in some contexts especially African contexts The clause He descended into Hell is the main concern of this book In African context where ancestral cult is prominent in both people's worldview and practice this clause poses a tangible problem of religious syncretism The phrase suggests a life after immediate death that a person can continue to live in a certain realm soon after death Since the clause depicts Jesus descending into hell after death and burial and preaching to the other souls of the dead in hell it suggests the possibility of hearing a message of salvation after death a doctrine hardly held by Christianity The doctrine therefore becomes good news for those Africans who hold firm the ancestral cult and those whose relatives had died in sin on earth Therefore this book

critically examines the origin and use of this doctrine in the church and its validity in an African context **About the Author** Alfred Glossbrenner, Emily Glossbrenner, 2000 From Jane Austen to John Steinbeck to Don Delillo to Danielle Steel this book offers a detailed and comprehensive resource revealing fascinating facts about the authors you love along with great introductions to authors you've yet to read **Dreams and Lives in Ottoman Istanbul** Asli Niyazioglu, 2016-10-04 Dreams and Lives in Ottoman Istanbul explores biography writing and dream narratives in seventeenth century Istanbul It focuses on the prominent biographer Ad 1637 and with his help shows how learned circles narrated dreams to assess their position in the Ottoman enterprise This book demonstrates that dreams provided biographers not only with a means to form learned communities in a politically fragile landscape but also with a medium to debate the correct career paths and social networks in late sixteenth and early seventeenth century Istanbul By adopting a comparative approach this book engages with current scholarly dialogues about life writing dreams and practices of remembrance in Habsburg Spain Safavid Iran Mughal India and Ming China Recent studies have shown the shared rhythms between these contemporaneous dynasties and the Ottomans and there is now a strong interest in comparative approaches to examining cultural life This first English language monograph on Ottoman dreamscapes addresses this interest and introduces a world where dreams changed lives the dead appeared in broad daylight and biographers invited their readers to the gardens of remembrance [A Living Shakespeare](#) Luke William, 2022-04-21 At the heart of A Living Shakespeare is the belief that contemporary poetry can bring us into an encounter with Shakespeare that has new and genuine vitality Shakespeare himself predicted that language would change and his poems would lose their modernity but asked that we continue to read them not for their style but for their love Luke William's poems coupled here with Shakespeare's breathe life into the sonnets and awaken fresh desire to become truly intimate with these works of art [Art, Agency and Living Presence](#) Caroline van Eck, 2015-03-10 Throughout history and all over the world viewers have treated works of art as if they are living beings speaking to them falling in love with them kissing or beating them Although over the past 20 years the catalogue of individual cases of such behavior towards art has increased immensely there are few attempts at formulating a theoretical account of them or writing the history of how such responses were considered defined or understood That is what this book sets out to do to reconstruct some crucial chapters in the history of thought about such reflections in Western Europe and to offer some building blocks towards a theoretical account of such responses drawing on the work of Aby Warburg and Alfred Gell
