The Colors of Jews Melanie Kaye/Kantrowitz, 2007-06-14 Exposes and challenges the common assumptions about whom and what Jews are by presenting in their own voices Jews of color from the Iberian Peninsula Asia Africa and India Kaye Kantrowitz delves into the largely uncharted territory of Jews of color and argues that Jews are an increasingly multiracial people From publisher description

The Identity Question Robert Philipson, 2010-02-11 Despite the Enlightenment's promise of utopian belonging among all citizens blacks and Jews were excluded from the life of their host countries In their diasporic exile both groups were marginalized as slaves aliens unbelievers and frequently not fully human *The Identity Question Blacks and Jews in Europe and America* explores the effects of diaspora upon black and Jewish consciousness demonstrating similar histories of marginality and oppression Casting off the fixed social categories of an earlier age Enlightenment thinkers argued that all men in their capacity as citizens of a secular state had the right to full civic participation and equal protection under the law In theory such an ideology did not recognize classes or races of men automatically excluded from citizenship In fact negative images of blacks and Jews continued to inform European thought and policy providing a rationale for a thriving slave trade abroad and continued oppression of Jews at home Thus blacks and Jews were forced to define themselves in accordance with or in opposition to European ideas about who they were Of necessity blacks struggled against the stereotypes of black barbarism and bestiality Jewish intellectuals protested their alleged moral unfitness to participate in society while proclaiming primary allegiance to their host country rather than to other Jews Central to this examination are four key autobiographies two from the late 1700s and two from recent history The autobiographies of Richard Wright and Alfred Kazin taken as prime twentieth century American expressions of racial and ethnic identity reveal striking similarities to their Enlightenment counterparts in Europe the black Olaude Equiano and the Jewish Salomon Maimon Equiano Maimon Kazin and Wright all accept the ultimate desirability of Western culture All believe in the Enlightenment promise All were ostracized by the larger political cultures of Great Britain Germany and America but each made an arduous journey from the ethnic margins of language culture and tribal loyalty to the cosmopolitan center of London Berlin Chicago or New York These modern European conceptions of black and Jewish identity as well as the modern forms of racism that came to term in the eighteenth century entered America

whole cloth Consequently American intellectual and social history of the twentieth century mirrors the same movements toward acceptance and ostracism that had existed in Enlightenment Europe **Race, Color, Identity** Efraim

Sicher,2013-05-01 Advances in genetics are renewing controversies over inherited characteristics and the discourse around science and technological innovations has taken on racial overtones such as attributing inherited physiological traits to certain ethnic groups or using DNA testing to determine biological links with ethnic ancestry This book contributes to the discussion by opening up previously locked concepts of the relation between the terms color race and Jews and by engaging with globalism multiculturalism hybridity and diaspora The contributors leading scholars in anthropology sociology history literature and cultural studies discuss how it is not merely a question of whether Jews are acknowledged to be interracial but how to address academic and social discourses that continue to place Jews and others in a race color category

Imagining Each Other Ethan Goffman,2012-02-01 Imagining Each Other explores Black Jewish relations by examining the complex ways they have portrayed each other in recent American literature It illuminates their dramatic alliances and conflicts and their dilemmas of identity and assimilation and addresses the persistent questions of ethnic division and economic inequality that have so encompassed the Black Jewish narrative in America Focusing primarily on the 1960s and its aftermath the book reveals how Jewish and African Americans view each other through a complex dialectic of identification and difference channeled by ever shifting positions within American society Through the works of Richard Wright Saul Bellow Bernard Malamud Amiri Baraka Paule Marshall Grace Paley and others Goffman unfolds a story of two peoples with powerful biblical and mythic connections that replay themselves in contemporary circumstances In doing so he uncovers layers of meaning in works that dramatize this turbulent paradoxical relationship and reveals how this relationship is paradigmatic of multicultural American self invention **Studies in Contemporary Jewry: VIII: A New Jewry?** Peter Y.

The Soul of Judaism Bruce D Haynes, 2018-08-14 A study of the history of Black Jews in the United States and the counter narratives they have put forward as they stake their claims to Jewishness The Soul of Judaism offers the first exploration of the full diversity of Black Jews including bi racial Jews of both matrilineal and patrilineal descent adoptees black converts to Judaism and Black Hebrews and Israelites who trace their Jewish roots to Africa and challenge the dominant western paradigm of Jews as white and of European descent Blending historical analysis and oral history Haynes showcases the lives of Black Jews within the Orthodox Conservative Reconstruction and Reform movements as well as the religious approaches that push the boundaries of the common forms of Judaism we know today He illuminates how in the quest to claim whiteness American Jews of European descent gained the freedom to express their identity fluidly while African Americans have continued to be seen as a fixed racial group This book demonstrates that racial ascription has been shaping Jewish selfhood for centuries Pushing us to reassess the boundaries between race and ethnicity it offers insight into how Black Jewish individuals strive to assert their dual identities and find acceptance within their respective communities Putting to rest the simplistic notion that Jews are white and that Black Jews are therefore a contradiction the volume argues that we can no longer pigeonhole Black Hebrews and Israelites as exotic militant and nationalistic sects outside the boundaries of mainstream Jewish thought and community life The volume spurs us to consider the significance of the growing population of self identified Black Jews and its implications for the future of American Jewry

[From Left to Right](#) Nancy Sinkoff, 2020-03-10 Intellectual biography of Holocaust historian Lucy S Dawidowicz From Left to Right Lucy S Dawidowicz the New York Intellectuals and the Politics of Jewish History is the first comprehensive biography of Dawidowicz 1915 1990 a pioneer historian in the field that is now called Holocaust studies Dawidowicz was a household name in the postwar years not only because of her scholarship but also

due to her political views Dawidowicz like many other New York intellectuals was a youthful communist became an FDR democrat midcentury and later championed neoconservatism Nancy Sinkoff argues that Dawidowicz's rightward shift emerged out of living in prewar Poland watching the Holocaust unfold from New York City and working with displaced persons in postwar Germany Based on over forty five archival collections From Left to Right chronicles Dawidowicz's life as a window into the major events and issues of twentieth century Jewish life Three Perspectives Steven H. Propp, 2009-12

You're Jewish aren't you This blunt question is the way that college freshman Richard Cohn is introduced to an outspoken fellow student named Dov Epstein who calls himself a Messianic Jew and believes that God has a special purpose for the Jewish people in these Last Days Raised by secular Jewish parents Richard is completely oblivious to his own Jewish background until this ongoing dialogue forces him to confront his own heritage The two young men vigorously argue with each other over the interpretation of the Hebrew Bible particularly its reputed predictions of a Messiah Christian doctrines such as the Trinity and most significantly about the identity and significance of Jesus of Nazareth The rigorous process of self examination this initiates leads Richard to embrace his Jewish identity even as he vehemently denies the same for Dov The two ultimately become fast friends but as they progress from an academic environment to the professional world they are challenged by racist statements made by prominent national figures anti Semitic doctrines such as Christian Identity which teaches that white Anglo Saxons are the true Israel and also purported scholars who deny the reality of the Holocaust itself Circumstances in life connect them with a young Iranian migr named Jahangir Khatami whose Muslim beliefs conflict strongly with their own Yet when a violent incident brings the three of them together they are forced to reexamine not just their differences but their similarities While they clash over the ideals of Zionism and its ramifications in the modern State of Israel they are united in their horror over the terrorist attacks of September 11 2001 Join a diverse cast of characters some of whom appeared in the author's earlier book Beyond Heaven and Earth in a probing exploration that may help you reconsider just what it means to be Jewish Christian or Muslim in the modern world The Price of Whiteness Eric L. Goldstein, 2019-12-31

What has it meant to be Jewish in a nation preoccupied with the categories of black and white The Price of Whiteness documents the uneasy place Jews have held in America's racial culture since the late nineteenth century The book traces Jews' often tumultuous encounter with race from the 1870s through World War II when they became vested as part of America's white mainstream and abandoned the practice of describing themselves in racial terms American Jewish history is often told as a story of quick and successful adaptation but Goldstein demonstrates how the process of identifying as white Americans was an ambivalent one filled with hard choices and conflicting emotions for Jewish immigrants and their children Jews enjoyed a much greater level of social inclusion than African Americans but their membership in white America was frequently made contingent on their conformity to prevailing racial mores and on the eradication of their perceived racial distinctiveness While Jews consistently sought acceptance as whites their tendency to express their own group bonds

through the language of race led to deep misgivings about what was required of them Today despite the great success Jews enjoy in the United States they still struggle with the constraints of America s black white dichotomy The Price of Whiteness concludes that while Jews status as white has opened many doors for them it has also placed limits on their ability to assert themselves as a group apart *Going South* Debra L. Schultz,2001-03 Compelling first hand stories of Jewish women fighting racism in the American south while coming of age in the shadow of the Holocaust **The Ungovernable City** Vincent Cannato,2009-07-21 Vincent Cannato takes us back to the time when John Lindsay stunned New York with his liberal Republican agenda WASP sensibility and movie star good looks With peerless authority Cannato explores how Lindsay Liberalism failed to save New York and in the opinion of many left it worse off than it was in the mid 1960 s In the Camp of Angels of Freedom Arlene Goldbard,2023-01-24 An autodidact explores issues of education itself through memoir essays and personal portraits of the key minds who influenced her Part One includes the author s color paintings of Toulouse Lautrec James Baldwin Nina Simone Paul Goodman Doris Lessing Alice Neel Paulo Freire Isaiah Berlin John Trudell Abraham Joshua Heschel and Jane Jacobs Part Two presents observations relating both to Goldbard s self education and to education as an undertaking Recovering Jewishness Frederick S. Roden,2016-02-22 Judaism and Jewish life reflect a diversity of identity after the past two centuries of modernization This work examines how the early reformers of the 19th century and their legacy into the 20th century created a livable liberal Jewish identity that allowed a reinvention of what it meant to be Jewish a process that continues today Many scholars of the modern Jewish identity focus on the ways in which the past two centuries have resulted in the loss of Jewishness through assimilation intermarriage conversion to other faiths genocide in the Holocaust and decline in religious observance In this work author Frederick S Roden presents a decidedly different perspective that the changes in Judaism throughout the 19th and 20th centuries resulted in a malleable welcoming and expanded Jewish identity one that has benefited from intermarriage and converts to Judaism The book examines key issues in the modern definition of Jewish identity who is and is not considered a Jew and why issues of Jewish authenticity and the recent history of the debate Attention is paid to the experiences of individuals who came to Judaism from outside the tradition through marrying into Jewish families and or choosing Judaism as a religion In his consideration of the tragedy of the Holocaust the author examines how a totalitarian regime s racial policing of Jewish identity served to awaken a connection with and reconfiguration of what that Jewish identity meant for those who retrospectively realized their Jewishness in the postwar era
