**Low Carb, High Fat Food Revolution** Andreas Eenfeldt, 2017-03-28 You hear miraculous stories in the news all the time a man loses 370 pounds another is able to return ten of his twelve medications at the pharmacy and an epileptic child suddenly stops having seizures each experiences a miraculous change in health all from simply changing his or her diet Fascinatingly these stories all have one thing in common the subjects started eating the opposite of what they had previously been told was healthy The dietary guidelines they had learned growing up had failed them Medical science has long turned a blind eye to such stories But now the tide is changing as more and more major studies are being conducted on what the body truly needs to survive and the findings are alarming The belief in eating less fat and less saturated fat is mistaken Inadvertently this advice may be the biggest reason behind the obesity and diabetes epidemic It s time to take a stand it s time for real food again In Low Carb High Fat Food Revolution Dr Andreas Eenfeldt takes the offensive by exploring the severe systematic failures on which many of today s dietary guidelines are based For Eenfeldt s patients the solution has been a low carb high fat diet that allows you to eat your fill and still lose weight The book concludes with a guide section full of tips and recipes everything you need to start your own food revolution The Publishers' Trade List Annual ,1976 The Publishers' Trade List Annual R.
