

Low Flying Aircraft

James Graham Ballard

Low Flying Aircraft:

Low Flying Aircraft T. M. McNally, 2008 *Low Flying Aircraft* is a collection of interrelated stories in which one life is equally capable of influencing another under a sky the size of history. Spanning a period of fourteen years the stories are connected by the pasts of Orion McClenahan and Helen Jowalski childhood friends whose fathers shared a law practice in Chicago. In 1976 a freak accident changes their lives irrevocably and the stories are about the people Orion and Helen grow up to be the people they love and the people they lose along the way. In *Paris the Easy Way* Sam is a stable manager who steps in to the lives of others while trying to avoid his own. Troubled by the disappearance of his brother in Cambodia and his own complicated relationship with his brother's wife Sam finally accepts the mysteries that surround him. *Lightning gravity* love I've never properly understood any of it. Anna a columnist writing on the complexities that face young modern women loses all sense of her identity while visiting her father a dying man who wants a grandson almost as much as he wants a daughter like Milly the heroine of his favorite western novel. The voices in this collection describe a world of uncertain borders where individuals are sustained by thin brief moments of direction. Orion a disillusioned photojournalist sets himself free from his wealthy family and their Midwestern habits by discarding the things of his life a clock radio a blender paperbacks. He will board a plane and fly to Central America in order to document the situation do some good. In *Breathing is Key* Sarah momentarily decides to stay with her abusive boyfriend because she doesn't know where else to go. I think we have a lot here she says and not all of it's bad. In story after story personal histories unfold always what lies in wait is the possibility for connection. A brother who dies young a first love an abandoned husband each persists in the realm of memory adding texture and meaning to the lives they influence. In *The Future of Ruth* a woman comes to understand that the proof of one's life lay in her death and the trees that might spread out and over a soul. In revolutionary Nicaragua on a ranch in Arizona from a Vermont Ski slope the souls in *Low Flying Aircraft* soar all hoping to catch a glimpse of the shape of things to come of possibility.

Hearings United States. Congress. House. Committee on Appropriations, 1970 *Bomber Boys* Kevin Wilson, 2012-04-09 A gripping account of the everyday heroism of British bomber crews in 1943 the year when Bomber Command believed it could win WWII by bombing alone. In 1943 the RAF began a bombing campaign against Germany the like of which had never before been seen. Over the next twelve months tens of thousands of aircrews flew across the North Sea to drop their bombs on German cities. They were opposed not only by the full force of the Luftwaffe but by a nightmare of flak treacherously icy conditions and constant mechanical malfunction. Most of these crews never finished their tour of operations but were either shot down and killed or taken prisoner by an increasingly hostile enemy. This is the story of the everyday heroism of British bomber crews in the days when it was widely believed that the Allies could win the Second World

War by bombing alone Kevin Wilson has interviewed hundreds of former airmen about what their lives were like in 1943 the stomach churning tension of flying repeatedly over hostile territory the terror at being shot down or captured and the peculiar mixture of guilt and pride at unleashing such devastation on Germany Aviation ,1923 Decisions United States.
