Mandate Madness James T. Bennett, 2014-05-02 What do drivers licenses that function as national ID cards nationwide standardized tests for third graders the late unlamented 55 mile per hour speed limit the outlawing of the eighteen year old beer drinker and the disappearing mechanical lever voting machine have in common Each is the product of an unfunded federal mandate a concept that politicians of both parties profess to oppose in theory but which in practice they often find irresistible as a means of forcing state and local governments to do their bidding while paying for the privilege Mandate Madness explores the history debate and political gamesmanship surrounding unfunded federal mandates concentrating on several of the most controversial and colorful of these laws The cases hold lessons for those who would challenge current or future unfunded federal mandates James T Bennett also examines legislative efforts to rein in or repeal unfunded federal mandates Finally he reviews the treatment of unfunded mandates by
