Daughters Of Canaan Margaret Ripley Wolfe, 2021-12-14
From *Gone with the Wind* to *Designing Women* images of southern females that emerge from fiction and film tend to obscure the diversity of American women from below the Mason Dixon line In a work that deftly lays bare a myriad of myths and stereotypes while presenting true stories of ambition grit and endurance Margaret Ripley Wolfe offers the first professional historical synthesis of southern women s experiences across the centuries In telling their story she considers many ordinary lives those of Native American African American and white women from the Tidewater region and Appalachia to the Mississippi Delta to the Gulf Coastal Plain women whose varied economic and social circumstances resist simple explanations Wolfe examines critical eras outstanding personalities and groups wives mothers pioneers soldiers suffragists politicians and civil rights activists and the impact of the passage of time and the pressure of historical forces on the region s females The historical southern woman argues Wolfe has operated under a number of handicaps bearing the full weight of southern history mythology and legend Added to these have been the limitations of being female in a patriarchal society and the constraining images of the southern belle and her mentor the southern lady In addition the specter of race has haunted all southern women Gender is a common denominator but according to Wolfe it does not transcend race class point of view or a host of other factors Intrigued by the imagery as well as the irony of biblical stories and southern history Wolfe titles her work *Daughters of Canaan* Canaan symbolizes promise and for activist women in particular the South has been about promise as much as fulfillment General readers and students of southern and women s history will be drawn to Wolfe s engrossing chronicle **Confessions of a Southern Beauty Queen** Julie Hines Mabus, 2022-04-29
In the late 1960s Patsy Channing a stunningly beautiful young woman was suspended from the venerable Mississippi State College for Women for breach of conduct The resulting scandal reached all the way to the

Columbus courthouse and the press ate it up But Patsy s story starts long before that living with a preoccupied and troubled mother in Memphis Tennessee As Patsy grows up she buries the memories of her unspeakable childhood trauma and is determined to have a normal life Music becomes her ticket out and a vehicle for the one thing she covets most a chance to be crowned Miss America In Confessions of a Southern Beauty Queen Julie Hines Mabus provides a peek into that world a world struggling through the civil rights movement reeling from the death of JFK and cutting loose with the musical innovations from Memphis and Detroit Patsy develops a close friendship with a guitarist at Stax Recording Studio giving her firsthand exposure to the early Memphis Soul Sound created by such greats as Otis Redding Isaac Hayes and Sam Dave Confessions of a Southern Beauty Queen opens and closes with the end of Patsy s time at Mississippi State College for Women on that fateful spring morning in 1968 when she entered the Columbus courthouse Patsy s story marked with tragedy and triumph mirrors that of a growing and evolving South where change never comes easy

Women Scientists in America Margaret W. Rossiter, 1998-09-29 Winner of the Pfizer Award for Outstanding Book in the History of Science Margaret Rossiter's widely hailed *Women Scientists in America* Struggles and Strategies to 1940 marked the beginning of a pioneering effort to interpret the history of American women scientists That effort continues in this provocative sequel that covers the crucial years of World War II and beyond Rossiter begins by showing how the acute labor shortage brought on by the war seemed to hold out new hope for women professionals especially in the sciences But the public posture of welcoming women into the scientific professions masked a deep seated opposition to change Rossiter proves that despite frustrating obstacles created by the patriarchal structure and values of universities government and industry women scientists made genuine contributions to their fields grew in professional stature and laid the foundation for the breakthroughs that followed 1972

Lee Smith, Annie Dillard, and the Hollins Group Louisiana State University Press, 1999-09 This work examines the history of Hollins College which by the 1950s had set itself up as a school with a significant women's writing programme It examines the influence of the mentors in the 1960s and the writers themselves such as Lee Smith and Annie Dillard

Adventures Abroad Sandra L. Singer, 2003-04-30 In the period between the Civil War and World War I German universities provided North American women with opportunities in graduate and professional training that were not readily available to them at home This training allowed women to compete to a greater degree with men in increasingly professionalized fields In return for such opportunities these women played a key

role in opening up German universities to all women Many devoted the rest of their lives to creating better research and graduate opportunities for other women forever changing the course of higher education in North America This study provides accounts of the incredible barriers encountered by these first women students in Europe It documents their perseverance and hard won triumphs and includes as well the stories of the progressive men who mentored them and fought for their rights to higher education Never before has documentation of so many North American students at German speaking universities been included in one volume This collection of stories from women across disciplines makes it possible to assess the truly remarkable nature of their combined contributions to higher education and research in North America and Europe *Women Studies Abstracts* ,1986 *The North Carolina Historical Review* ,1993 **The United States South**
