Loyal Till Death:

Loyal Till Death Blair Stonechild, W. A. Waiser, 1997 Nominee Governor General's Literary Award for Non Fiction This startling retelling of the North West Rebellion explodes the myth of a grand Indian Métis alliance and delves into the reasons why Indians have been branded as traitors and rebels in both the public imagination and official records After the rebellion twenty eight reserves were officially identified as disloyal and more than fifty Indians including Poundmaker and Big Bear were convicted of rebellion related crimes The most damning event was the mass execution of eight Indian warriors at Fort Battleford in November 1885 But Indian elders have long told stories about how First Nations remained faithful to their treaty promises during the conflict Having their own peaceful strategies for dealing with an insensitive federal government they were not interested in Riel's activities and any Indian involvement was isolated sporadic and minimal But Ottawa deliberately portrayed the Indians as outlaws to justify increasingly restrictive and repressive measures an injustice that has left a lasting legacy with First Nations people Loyal till Death is the first comprehensive look at the Indian version of the North West Rebellion It brings to life many personalities particularly those of the Indian leaders whose voices have seldom been heard in conventional histories of the Canadian West Combining oral history and exhaustive research and illustrated with more than one hundred archival photographs the book sheds new light on a greatly misunderstood aspect of our past

The New Buffalo Blair Stonechild, 2006-12-15 Post secondary education often referred to as the new buffalo is a contentious but critically important issue for First Nations and the future of Canadian society While First Nations maintain that access to and funding for higher education is an Aboriginal and Treaty right the Canadian government insists that post secondary education is a social program for which they have limited responsibility In The New Buffalo Blair Stonechild traces the history of Aboriginal post secondary education policy from its earliest beginnings as a government tool for assimilation and cultural suppression to its development as means of Aboriginal self determination and self government With first hand knowledge and personal experience of the Aboriginal education system Stonechild goes beyond merely analyzing statistics and policy doctrine to reveal the shocking disparity between Aboriginal and Canadian access to education the continued dominance of non Aboriginals over program development and the ongoing struggle for recognition of First Nations run institutions
