Nurses Enslaved:

They Were Her Property Stephanie E. Jones-Rogers, 2020-01-07 Winner of the Los Angeles Times Book Prize in History
A bold and searing investigation into the role of white women in the American slave economy Compelling Renee Graham
Boston Globe Stunning Rebecca Onion Slate Makes a vital contribution to our understanding of our past and present Parul
Sehgal New York Times Bridging women's history the history of the South and African American history this book makes a
bold argument about the role of white women in American slavery Historian Stephanie E Jones Rogers draws on a variety of
sources to show that slave owning women were sophisticated economic actors who directly engaged in and benefited from
the South's slave market Because women typically inherited more slaves than land enslaved people were often their primary
source of wealth Not only did white women often refuse to cede ownership of their slaves to their husbands they employed
management techniques that were as effective and brutal as those used by slave owning men White women actively
participated in the slave market profited from it and used it for economic and social empowerment By examining the
economically entangled lives of enslaved people and slave owning women Jones Rogers presents a narrative that forces us to
rethink the economics and social conventions of slaveholding America [The African-American Family in Slavery and
Emancipation](#) Wilma A. Dunaway, 2003-04-14 Table of contents **Motherhood, Childlessness and the Care of Children
in Atlantic Slave Societies** Camillia Cowling, Maria Helena Pereira Toledo Machado, Diana Paton, Emily West, 2020-05-21
This book provides critical perspectives on the multiple forms of mothering that took place in Atlantic slave societies Facing
repeated child death mothering was a site of trauma and grief for many even as slaveholders romanticized enslaved women's
work in caring for slaveholders' children Examining a wide range of societies including medieval Spain Brazil and New
England and including the work of historians based in Brazil Cuba the United States and Britain this collection breaks new
ground in demonstrating the importance of mothering for the perpetuation of slavery and the complexity of the experience of
motherhood in such circumstances This pathbreaking collection on all aspects of the experience politics and representations
of motherhood under Atlantic slavery analyses societies across the Atlantic world and will be of interest to those studying the
history of slavery as well as those studying mothering throughout history This book comprises two special issues originally
published in *Slavery Abolition and Women's History Review* *Contested Bodies* Sasha Turner, 2017-05-05 It is often
thought that slaveholders only began to show an interest in female slaves' reproductive health after the British government
banned the importation of Africans into its West Indian colonies in 1807 However as Sasha Turner shows in this illuminating
study for almost thirty years before the slave trade ended Jamaican slaveholders and doctors adjusted slave women's labor
discipline and health care to increase birth rates and ensure that infants lived to become adult workers Although slaves
interests in healthy pregnancies and babies aligned with those of their masters enslaved mothers' healers' family and
community members distrusted their owners' medicine and benevolence Turner contends that the social bonds and cultural

practices created around reproductive health care and childbirth challenged the economic purposes slaveholders gave to birthing and raising children Through powerful stories that place the reader on the ground in plantation era Jamaica *Contested Bodies* reveals enslaved women s contrasting ideas about maternity and raising children which put them at odds not only with their owners but sometimes with abolitionists and enslaved men Turner argues that as the source of new labor these women created rituals customs and relationships around pregnancy childbirth and childrearing that enabled them at times to dictate the nature and pace of their work as well as their value Drawing on a wide range of sources including plantation records abolitionist treatises legislative documents slave narratives runaway advertisements proslavery literature and planter correspondence *Contested Bodies* yields a fresh account of how the end of the slave trade changed the bodily experiences of those still enslaved in Jamaica

Child Care Justice Maurice Sykes, Kyra Ostendorf, 2022 Join the authors of this book in starting a movement of hope and possibility for an antiracist child care and early childhood education system This volume disrupts mental models regarding where the work of early care and education began with enslaved African women and how the stigma of that beginning relegates present day child care workers to a low status low wage field of practice Expert authors contribute their wisdom experience research and practical knowledge on issues related to equity and social justice They examine the oppressive historical political economic educational and cultural systems that continue to oppress early care educators and by extension racialized children and children in poverty The interrogation and litigation of past and current issues and grievances of injustice and inequities in the field are addressed while threading the needle of social justice and critical consciousness throughout the chapters *Child Care Justice* calls on educators activists and their allies to rethink reimagine and reconstruct a more equitable and just system for all who receive and provide care to our nation s youngest of children When historically marginalized child care workers are held in high esteem then and only then will America live up to its promise of liberty and justice for all Book Features Centers the historic and current oppression of Black people in the United States as foundational to the disregard for childcare workers today Uses Paulo Freire s critical consciousness framework to guide readers to see analyze and act Calls for a multiracial coalition of activists for racial justice gender justice and economic justice The roadmap has been drawn but it requires inspired and knowledgeable advocates to implement Read be inspired build community and take up the mantle for change From the Foreword by Barbara T Bowman Erikson Institute Contributors Rebecca Berlin Sarah R Bussey Michael Gramling Ed Greene Iheoma U Iruka Alexis Jamal Denisha Jones Hakim M Rashid Joey Saunders and James C Young

Race and Reproduction in Cuba Bonnie A. Lucero, 2022-11-01 Women s reproduction including conception pregnancy childbirth breastfeeding and other physical acts of motherhood as well as the rejection of those roles played a critical role in the evolution and management of Cuba s population While existing scholarship has approached Cuba s demographic history through the lens of migration both forced and voluntary *Race and Reproduction in Cuba* challenges this male normative perspective by centering women in the first

book length history of reproduction in Cuba Bonnie A Lucero traces women s reproductive lives as well as key medical legal and institutional interventions influencing them over four centuries Her study begins in the early colonial period with the emergence of the island s first charitable institutions dedicated to relieving poor women and abandoned white infants The book s centerpiece is the long nineteenth century when elite interventions in women s reproduction hinged not only on race but also legal status It ends in 1965 when Cuba s nascent revolutionary government shifted away from enforcing antiabortion laws that had historically targeted impoverished women of color Questioning how elite demographic desires specifically white population growth and nonwhite population management shaped women s reproduction Lucero argues that elite men including judges physicians philanthropists and public officials intervened in women s reproductive lives in racially specific ways Lucero examines how white supremacy shaped tangible differences in the treatment of women and their infants across racial lines and outlines how those reproductive outcomes were crucial in sustaining racial hierarchies through moments of tremendous political economic and social change

What Can We Learn from the Great Depression? Dana Frank, 2024-10-08 4 stories of resilience mutual aid and radical

rebellion that will transform how we understand the Great Depression Drawing on little known stories of working people What Can We Learn from the Great Depression amplifies voices that have been long omitted from standard histories of the Depression era In four tales Professor Dana Frank explores how ordinary working people in the US turned to collective action to meet the crisis of the Great Depression and what we can learn from them today Readers are introduced to the 7 daring Black women who worked as wet nurses and staged a sit down strike to demand better pay and an end to racial discrimination the groups who used mutual aid cooperatives eviction protests and demands for government relief to meet their basic needs the million Mexican and Mexican American repatriados who were erased from mainstream historical memory while often fictitious white Dust Bowl migrants became enshrined the Black Legion a white supremacist fascist organization that saw racism antisemitism anti Catholicism and fascism as the cure to the Depression While capitalism crashed during the Great Depression racism did not and was in fact wielded by some to blame and oppress their neighbors Patriarchy persisted too undermining the power of social movements and justifying women s marginalization within them For other ordinary people collective action gave them the means to survive and fight against such hostilities What resulted were powerful new forms of horizontal reciprocity and solidarity that allowed people to provide each other with the bread beans and comradeship of daily life The New Deal when it arrived provided vital resources to many but others were cut off from its full benefits especially if they were women or people of color What Can We Learn from the Great Depression shows us how we might look to the past to think about how we can shape the future of our own failed economy These lessons can also help us imagine and build movements to challenge such an economy and to transform the state as a whole in service to the common good without replicating racism and patriarchy

Women and Slavery in Nineteenth-century Colonial Cuba Sarah L. Franklin, 2012 Scholars have long recognized the importance of gender and hierarchy in the slave societies of the New World yet gendered analysis of Cuba has lagged behind study of other regions Cuban elites recognized that creating and maintaining the Cuban slave society required a rigid social hierarchy based on race gender and legal status Given the dramatic changes that came to Cuba in the wake of the Haitian Revolution and the growth of the enslaved population the maintenance of order required a patriarchy that placed both women and slaves among the lower ranks Based on a variety of archival and printed primary sources this book examines how patriarchy functioned outside the confines of the family unit by scrutinizing the foundation on which nineteenth century Cuban patriarchy rested This book investigates how patriarchy operated in the lives of the women of Cuba from elite women to slaves Through chapters on motherhood marriage education public charity and the sale

of slaves insight is gained into the role of patriarchy both as a guiding ideology and lived history in the Caribbean s longest lasting slave society Publisher s description **Black Female Intellectuals in Nineteenth Century America** Rebecca J.
