Rational Geomancy The Kids Of Themachine:

Rational Geomancy B. P. Nichol, Toronto Research Group, 1992 History of the 18 year critical collaboration between the late bpNichol and Steve McCaffery and its resulting intellectual growth **McLuhan in Space** Richard Cavell, 2002-01-01 Demonstrates how McLuhan extended insights derived from advances in physics and artistic experimentation into a theory of acoustic space which he then used to challenge the assumptions of visual space that had been produced through print culture

Avant-Garde Canadian Literature Gregory Betts, 2013-02-27 In *Avant Garde Canadian Literature* Gregory Betts draws attention to the fact that the avant garde has had a presence in Canada long before the country's literary histories have recognized and that the radicalism of avant garde art has been sabotaged by pedestrian terms of engagement by the Canadian media the public and the literary critics This book presents a rich body of evidence to illustrate the extent to which Canadians have been producing avant garde art since the start of the twentieth century Betts explores the radical literary ambitions and achievements of three different nodes of avant garde literary activity mystical revolutionaries from the 1910s to the 1930s Surrealists Automatists from the 1920s to the 1960s and Canadian Vorticists from the 1920s to the 1970s *Avant Garde Canadian Literature* offers an entrance into the vocabulary of the ongoing and primarily international debate surrounding the idea of avant gardism providing readers with a functional vocabulary for discussing some of the most hermetic and yet energetic literature ever produced in this country *Trash Culture* Gillian Pye, 2010 In the late twentieth and early twenty first centuries concerns about the environment and the future of global capitalism have dominated political and social agendas worldwide The culture of excess underlying these concerns is particularly evident in the issue of trash which for environmentalists has been a negative category heavily implicated in the destruction of the natural world However in the context of the arts trash has long been seen as a rich aesthetic resource and more recently particularly under the influence of anthropology and archaeology it has been explored as a form of material culture that articulates modes of identity construction In the context of such shifting often ambiguous attitudes to the obsolete and the discarded this book offers a timely insight into their significance for representations of social and personal identity The essays in the book build on scholarship in cultural theory sociology and anthropology that suggests that social and personal experience is embedded in material culture but they also focus on the significance of trash as an aesthetic resource The volume illuminates some of the ways in which our relationship to trash has influenced and is influenced by cultural products including art architecture literature film and museum culture **Dynamic Fair Dealing** Rosemary J. Coombe, Darren Wershler, Martin Zeilinger, 2014-01-01 *Dynamic Fair Dealing* presents a range of insightful and provocative essays that rethink our relationship to Canadian fair dealing policy **Close Listening** Charles Bernstein, 1998-04-30 *Close Listening* brings together seventeen strikingly original essays especially written for this volume on the poetry reading the sound of poetry and the visual performance of poetry While the performance of poetry is as old as poetry itself critical attention to modern and

postmodern poetry performance has been surprisingly slight This volume featuring work by critics and poets such as Marjorie Perloff Susan Stewart Johanna Drucker Dennis Tedlock and Susan Howe is the first comprehensive introduction to the ways in which twentieth century poetry has been practiced as a performance art From the performance styles of individual poets and types of poetry to the relation of sound to meaning from historical and social approaches to poetry readings to new imaginations of prosody the entries gathered here investigate a compelling range of topics for anyone interested in poetry Taken together these essays encourage new forms of close listenings not only to the printed text of poems but also to tapes performances and other expressions of the sounded and visualized word The time is right for such a volume with readings spoken word events and the Web gaining an increasing audience for poetry Close Listening opens a number of new avenues for the critical discussion of the sound and performance of poetry

Symbolism Florian

Klaeger, Klaus Stierstorfer, Marlena Tronicke, 2022-10-03 Special Focus Omission edited by Patrick Gill Throughout literary history and in many cultures we encounter an astute use of conspicuous absences to conjure an imagined reality into a recipient's mind The term omission as used in the present study then demarcates a common artistic phenomenon a silence blank or absence introduced against the recipient's generic or experiential expectations but which nonetheless frequently encapsulates the tenor of the work as a whole Such omissions can be employed for their affective potential when emotions represented or evoked by the text are deemed to be beyond words They can be employed to raise epistemological questions as when an omission marks the limits of what can be known Ethical questions can also be approached by means of omissions as when a character's voice is omitted for instance Finally omission always carries within it the potential to reflect on the media and genres on which it is brought to bear as its efficacy depends on the recipient's generic expectations omission is frequently characterized by a high degree of meta discursiveness This volume investigates the various strategies with which the phenomenon of omission is employed across a range of textual forms and in different cultures to conclusively argue for its status as a highly effective and near universal form of artistic signification

Finding Nothing Gregory

Betts, 2021-07-30 Experimental literature accelerated dramatically in Vancouver in the 1960s as the influence of New American poetics merged with the ideas of Marshall McLuhan Vancouver poets and artists began thinking about their creative works with new clarity and set about testing and redefining the boundaries of literature As new gardens in Vancouver explored the limits of text and language some writers began incorporating collage and concrete poetics into their work while others delved deeper into unsettling revolutionary and Surrealist imagery There was a presumption across the avant garde communities that radical openness could provoke widespread socio political change In other words the intermedia experimentation and the related destruction of the line between art and society pushed art to the frontlines of a broad socio political battle of the collective imagination of Vancouver Finding Nothing traces the rise of the radical avant garde in Vancouver from the initial salvos of the Tish group through Blewointment's spatial experiments to radical Surrealisms and

new feminisms Incorporating images original texts and interviews Gregory Betts shows how the VanGardes signalled a remarkable consciousness of the globalized forces at play in the city impacting communities orientations races and nations

What Are Poets For? Gerald L Bruns, 2012-06 Conceptions and practices of poetry change not only from time to time and from place to place but also from poet to poet This has never been more the case than in recent years Gerald Bruns's magisterial *What Are Poets For* explores typographical experiments that distribute letters randomly across a printed page sound tracks made of vocal and buccal noises and holographic poems that recompose themselves as one travels through their digital space Bruns surveys one word poems found texts and book length assemblies of disconnected phrases he even includes descriptions of poems that no one could possibly write but which are no less interesting or no less poetic for all of that The purpose of the book is to illuminate this strange poetic landscape spotlighting and describing such oddities as they appear anomalies that most contemporary poetry criticism ignores Naturally this breadth raises numerous philosophical questions that Bruns also addresses for example whether poetry should be responsible semantically ethically politically to anything outside itself whether it can be reduced to categories distinctions and the rule of identity and whether a particular poem can seem odd or strange when everything is an anomaly Perhaps our task is simply to learn like anthropologists how to inhabit such an

Material Poetics in Hemispheric America Rebecca Kosick, 2020-09-04 Reconsiders the lyrical norm that predominates in Anglophone accounts of poetry through a multilingual and transnational lens A bold project that departs from a tradition heavily dominated by the lyric to question the very nature of what counts as poetry A visually exciting text that draws on poetry and art from a wide array of late twentieth and early twenty first century practitioners An interdisciplinary approach to poetry and poetics that opens new avenues for understanding how poetry intersects with philosophies of the object media theory and visual studies A transnational frame that responds to a growing scholarly push to situate American studies within the broader context of the American hemisphere This book examines poets and artists in the Americas during the late twentieth and early twenty first centuries to show how they worked to make language into material objects and material objects into language It builds a theory of material poetics that provides an alternative account of poetry in hemispheric America Rebecca Kosick argues that by
