*Khomeini's Incorporation of the Iranian Military* Mark J. Roberts, 1996      Ravaged and Reborn William F. Hickman, 1982

*Social Movements* Stanford M. Lyman, 2016-07-27 The aim of this book is to bring together classical recent and contemporary analyses of the social movement phenomenon Analysis is represented in several variants of its discursive form the expository essay the critique the general theory the specific case study and the futuristic meditation      *The Time of the Generals* Frederick M. Nunn, 1992-01-01 The quarter century from 1964 to 1989 was the time of the generals the most clearly defined era of military rule and influence in the history of Latin America The effects of this rule were most evident in Argentina Brazil Peru and Chile where French and German style military professionalism developed into professional militarism Frederick M Nunn shows that the mentality of Latin American generals is typical of a worldwide military ethos but that its application is unique in the context of individual countries In detailing the pervasiveness of this ethos worldwide Nunn enables a better understanding of the willingness of Latin American military leaders to intervene in government and of their activities once in power      **Jihad for Jerusalem** M.A. Khan, 2004-10-30 Jihad for Jerusalem explores the agent structure dynamics in world politics and advances a constructivist theory of choice that explains the role of identity culture religion and other core values in international politics The struggle for Jerusalem by Iran Saudi Arabia Jordan and Israel is the empirical space where the dynamics between reason and identity values and strategies is explored Jihad for Jerusalem advances a theory of agency in international politics This theory of agency is based on a reconstituted constructivist paradigm The theory is tested by an examination of the foreign policy decision making of Iran Israel Jordan and Saudi Arabia towards Israel from 1967 1997 The book uses the foreign policy of these states as cases to test the tension between religion and rationality between identity and reason between power and morality and advances a constructivist theory of choice that explains the importance of the role of culture religion identity and core values in international politics Anyone interested in international relations theory and the convoluted politics of the Middle East will find this book intriguing reading      Paths to Peace Elizabeth A. Stanley, 2009-07-28 Paths to Peace begins by developing a theory about the domestic obstacles to making peace and the role played by shifts in states governing coalitions in overcoming these obstacles In particular it explains how the longer the war the harder it is to end because domestic obstacles to peace become institutionalized over time Next it tests this theory with a mixed methods approach through historical case studies and quantitative statistical analysis Finally it applies the theory to an in depth analysis of the ending of the Korean War By analyzing the domestic politics of the war s major combatants the Soviet Union the United States China and North and South Korea it explains why the final armistice terms accepted in July 1953 were little different from those proposed at the start of negotiations in July 1951 some 294 000 additional battle deaths later      *Armies of Sand* Kenneth Michael Pollack, 2019 Since the Second World War Arab armed forces have consistently punched below their weight They have lost many wars that by all rights they should have won and in

their best performances only ever achieved quite modest accomplishments Over time soldiers scholars and military experts have offered various explanations for this pattern Reliance on Soviet military methods the poor civil military relations of the Arab world the underdevelopment of the Arab states and patterns of behavior derived from the wider Arab culture have all been suggested as the ultimate source of Arab military difficulties

Armies of Sand Kenneth M Pollack s powerful and riveting history of Arab armies from the end of World War Two to the present assesses these differing explanations and isolates the most important causes Over the course of the book he examines the combat performance of fifteen Arab armies and air forces in virtually every Middle Eastern war from the Jordanians and Syrians in 1948 to Hizballah in 2006 and the Iraqis and ISIS in 2014 2017 He then compares these experiences to the performance of the Argentine Chadian Chinese Cuban North Korean and South Vietnamese armed forces in their own combat operations during the twentieth century The book ultimately concludes that reliance on Soviet doctrine was more of a help than a hindrance to the Arabs In contrast politicization and underdevelopment were both important factors limiting Arab military effectiveness but patterns of behavior derived from the dominant Arab culture was the most important factor of all Pollack closes with a discussion of the rapid changes occurring across the Arab world political economic and cultural as well as the rapid evolution in war making as a result of the information revolution He suggests that because both Arab society and warfare are changing the problems that have bedeviled Arab armed forces in the past could dissipate or even vanish in the future with potentially dramatic consequences for the Middle East military balance Sweeping in its historical coverage and highly accessible this will be the go to reference for anyone interested in the history of warfare in the Middle East since 1945

*Military Expenditure and Economic Growth in the Middle East* L. Wahid, 2009-09-29 This book investigates the role and the impacts of armies and military regimes in the Middle East It argues that one of the main causes of the slow and stagnated economic development in the region is high military expenditure perpetuated by strong grips of armies on the politics of the region

**The Economic Consequences of the Gulf War** Kamran Mofid, 2005-10-26 The Iran Iraq War were one of the longest and most devastating uninterrupted wars amongst modern nation states It produced neither victor nor

vanquished and left the regimes in both countries basically intact However it is clear that the domestic regional and international repercussions of the war mean that going back is not an option Iraq owes too much to regain the lead it formerly held in economic performance and development levels What then does reconstruction mean In this book Kamran Mofid counteracts the scant analysis to date of the economic consequences of the Gulf War by analysing its impact on both economies in terms of oil production exports foreign exchange earnings non defence foreign trade and agricultural performance In the final section Mofid brings together the component parts of the economic cost of the war to assign a dollar value to the devastation
