Journal of Ritual Studies ,2003

*Cultural Theory* Tim Edwards,2007-08-01 Written by some of the leading thinkers in the field the book is an excellent resource for longstanding and contemporary issues in cultural theory Comprehensive and well written David Oswell Goldsmiths College This timely volume provides a framework for

understanding the cultural turn in terms of the classical legacy contemporary cultural theory and cultural analysis It reveals the significance of Marxist humanism Georg Simmel the Frankfurt School Stuart Hall and the Birmingham School Giddens Bauman Foucault Bourdieu and Baudrillard Readers receive a dazzling critical survey of some of the primary figures in the field However the book is much more than a Rough Guide tour through the great figures in the field Through an analysis of specific problems such as transculturalism transnationalism feminism popular music and cultural citizenship it demonstrates the relevance of cultural sociology in elucidating some of the key questions of our time **Together, Somehow** Luis Manuel Garcia-Mispireta, 2023-06-30 In *Together Somehow* Luis Manuel Garcia Mispireta examines how people find ways to get along and share a dancefloor a vibe and a sound Drawing on time spent in the minimal techno and house music subscenes in Chicago Paris and Berlin as the first decade of the new millennium came to a close Garcia Mispireta explains this bonding in terms of what he calls stranger intimacy the kind of warmth sharing and vulnerability between people that happens surprisingly often at popular electronic dance music parties He shows how affect lubricates the connections between music and the dancers Intense shared senses of sound and touch help support a feeling of belonging to a larger social world However as Garcia Mispireta points out this sense of belonging can be vague fluid and may hide exclusions and injustices By showing how sharing a dancefloor involves feeling touch sound sexuality and subculture Garcia Mispireta rethinks intimacy and belonging through dancing crowds and the utopian vision of throbbing dancefloors

Dancefloor-Driven Literature Simon A. Morrison, 2020-05-14 Almost as soon as club culture took hold during the UK's Second Summer of Love in 1988 its sociopolitical impact became clear with journalists filmmakers and authors all keen to use this cultural context as source material for their texts This book uses that electronic music subculture as a route into an analysis of these principally literary representations of a music culture why such secondary artefacts appear and what function they serve The book conceives of a new literary genre to accommodate these stories born of the dancefloor dancefloor driven literature Using interviews with Irvine Welsh author of *Trainspotting* 1994 alongside other dancefloor driven authors Nicholas Blincoe and Jeff Noon as case studies the book analyzes three separate ways writers draw on electronic dance music in their fictions interrogating that very particular intermedial intersection between the sonic and the linguistic It explores how such authors write about something so subterranean as the nightclub scene and analyses what specific literary techniques they deploy to write lucidly and fluidly about the metronomic beat of electronic music and the chemical accelerant that further alters that relationship **Children and Young People's Cultural Worlds** Bragg, Sarah, Kehily, Mary Jane, 2013-10-16 *Children and young people in the early twenty first century encounter and creatively adapt to a range of cultural phenomena in an increasingly mediated commercialised and globalised world Children and young people's cultural worlds* offers a critical introduction to childhood in the digital age Childhood innocence is a concept that often underpins the way adults think about children and new technologies The book challenges adult concerns highlighting

instead the diversity of children's experiences and relationships with each other. Children's everyday activities are explored in an attempt to understand the distinctiveness of their cultural worlds. The book also considers matters of difference on children's lives, the consequences of age and the experience of living in different cultural contexts. This is the second in a series of four books written by experts in the field which provides an introduction to childhood degree programmes and related modules. The series features international case studies, examples and readings to supplement the chapters and is illustrated in full colour. Other books in the series are *Understanding childhood: a cross disciplinary approach*, *Childhoods in context*, *Local childhoods global issues*.

*Drugs and Popular Culture* Paul Manning, 2013-01-11. The use of illegal drugs is so common that a number of commentators now refer to the normalisation of drug consumption. It is surprising then that to date very little academic work has explored drug use as part of contemporary popular culture. This collection of readings will apply an innovative multi disciplinary approach to this theme, combining some of the most recent research on the normalisation thesis with fresh work on the relationship between drug use and popular culture. In drawing upon criminological, sociological and cultural studies approaches, this book will make an important contribution to the newly emerging field positioned at the intersection of these disciplines. The particular focus of the book is upon drug consumption as popular culture. It aims to provide an accessible collection of chapters and readings that will explore drug use in popular culture in a way that is relevant to undergraduates and postgraduates studying a variety of courses including criminology, sociology, media studies, health care and social work.

**Something for Everyone?** Simone Boogaarts-de Bruin, 2011 The urban population is becoming increasingly diverse and growing ethnic diversity is having a singular effect on nightlife in Dutch cities By studying the motivation behind and nightlife choices of the young people who participate in ethno party scenes Boogaarts de Bruin investigates how the changing urban population affects the supply side of the nightlife market using an analytical model she has developed and which she calls the model of structured choice This approach is sensitive to the flexible use of the processes of agency and structure due to the systematic distinction that it makes between societal and personal factors Accordingly it is revealed that in order to analyze and adequately explain the nightlife experiences of and choices made by ethnic youngsters an integrated model is required which centralizes the interaction between the structural strategies of the producers on the one hand and the personal preferences and agency of the consumers on the other What is more this book demonstrates that nightlife has changed because of the increasing ethnic diversity of the Dutch population Finally in the epilogue the fieldwork results are discussed in light of the currently heated debate regarding the integration processes of ethnic minority young people in nightlife
