Medieval Women and the Law Noël James Menuge, 2003 Legal records illuminate women's use of legal processes with regard to the making of wills the age of consent rights concerning marriage and children women as traders etc Determined and largely successful effort to read behind and alongside legal discourses to discover women's voices and women's feelings It adds usefully to the wider debate on women's role in medieval society

ENGLISH HISTORICAL REVIEW

What is really new here is the ways in which the authors approach the history of the law they use some decidedly non legal texts to examine legal history they bring together historical and literary sources and they debunk the view that medieval laws had little to say about women or that medieval women had little legal agency

ALBION

The legal position of the late medieval woman has been much neglected and it is this gap which the essays collected here seek to fill They explore the ways in which women of all ages and stations during the late middle ages c 1300 c 1500 could legally shift for themselves and how and where they did so Particular topics discussed include the making of wills the age of consent rights concerning marriage care custody and guardianship with particular emphasis on the rights of a mother attempting to gain custody of her own children within the court system women as traders women as criminals prostitution the rights of battered women within the courts the procedures women had to go through to gain legal redress and access rape and women within guilds

Medievalism in A Song of Ice and Fire and Game of Thrones Shiloh Carroll, 2018 Game of Thrones is famously inspired by the Middle Ages but how authentic is the world it presents This volume offers different angles to the question One of the biggest attractions of George R R Martin's high fantasy series A Song of Ice and Fire and by extension its HBO television adaptation Game of Thrones is its claim to historical realism The author the directors and producers of the adaptation and indeed the fans of the books and show all lay claim to Westeros its setting as representative of an authentic medieval world But how true are these claims Is it possible to faithfully represent a time so far removed from our own in time and culture And what does an authentic medieval fantasy world look like This book explores Martin's and HBO's approaches to and beliefs about the Middle Ages and how those beliefs fall into traditional medievalist and fantastic literary patterns Examining both books and programme from a range of critical approaches medievalism theory gender theory queer theory postcolonial theory and race theory Dr Carroll analyzes how the drive for historical realism affects the books and show's treatment of men women people of colour sexuality and imperialism as well as how the author and showrunners discuss these effects outside the texts themselves SHILOH CARROLL teaches in the writing center at Tennessee State University

and those working in gender studies BOOK JACKET *Chaucer's "legal Fiction"* Mary Flowers Braswell, 2001 For centuries Chaucer has been associated with law This study however is concerned less with the overt in Chaucer that concerns law than with the concealed and private a specific body of materials records from the medieval English law courts that the poet evidently read studied discussed with colleagues and then threaded into his texts This book examines the effects of those documents on the so called minor poems The House of Fame and The Canterbury Tales **Criticism and Dissent in the Middle Ages** Rita Copeland, 1996-06-06 What were the boundaries between official and subversive orthodox and dissenting critical practices in the Middle Ages Placing medieval critical and intellectual discourses within their cultural and ideological frameworks Criticism and Dissent in the Middle Ages examines conflicts of gender violence academic freedom hermeneutical authority sacramentalism and heresy among so called official as well as dissenting critical orders Pedagogies theories of grammar and rhetoric poetics and hermeneutics academic sciences clerical professionalism literacy visual images theology and textual cultures of heresy are all considered This 1996 collection of essays by major scholars examines medieval critical discourse theories of textuality and interpretation and representations of learning and knowledge as contesting and contested institutional practices within and between Latin and vernacular cultures Sex, Rett Og Reformasjon Anne Irene Riisøy, 2009 Based on legislation and legal practice from the period c 1250 1600 the book takes issue with the most important viewpoints in earlier research by early modernists that the Reformation represented a watershed in a development characterized by greater criminalisation of sexual acts increase in the severity of sentences and deterioration of the position of women According to this study in principle all or mostly all factors were already in place in the Middle Ages In Norwegian historiography the period investigated is characterized by paucity of sources and the period has tended to fall between two stools respectively the medievalist and the early modernist The ambition of this book has been to bridge the gap
